FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-16417

NUSTAR ENERGY L.P.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

74-2956831
(I.R.S. Employer Identification No.)

2330 North Loop 1604 West
San Antonio, Texas
(Address of principal executive offices)

78248
(Zip Code)

Registrant's telephone number, including area code (210) 918-2000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of common units outstanding as of July 31, 2011 was 64,610,549.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

NuStar Energy L.P. (NuStar Energy) (NYSE: NS) is engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms “NuStar Energy,” “the Partnership,” “we,” “our” and “us” are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 17.5% total interest in us as of June 30, 2011.

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). We have three business segments: storage, transportation, and asphalt and fuels marketing.

Basis of Presentation

These unaudited consolidated financial statements include the accounts of the Partnership and subsidiaries in which the Partnership has a controlling interest. Noncontrolling interests are separately disclosed on the consolidated balance sheets and consolidated statements of income. Intercompany balances and transactions have been eliminated in consolidation. We account for investments in 50% or less-owned entities using the equity method.

These unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and notes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included, and all disclosures are adequate. All such adjustments are of a normal recurring nature unless disclosed otherwise. Financial information for the three and six months ended June 30, 2011 and 2010 included in these Condensed Notes to Consolidated Financial Statements is derived from our unaudited consolidated financial statements. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. The consolidated balance sheet as of December 31, 2010 has been derived from the audited consolidated financial statements as of that date. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Reclassifications

Certain previously reported amounts in the 2010 consolidated financial statements have been reclassified to conform to the 2011 presentation.

Acquisitions

On April 19, 2011, we purchased certain refining and storage assets, inventory and other working capital items from AGE Refining, Inc. for \$62.0 million, including the assumption of certain environmental liabilities. The assets consist of a 14,500 barrel per day refinery in San Antonio, Texas (the San Antonio Refinery) and 200,000 barrels of storage capacity in Elmendorf, Texas. The purchase price has been preliminarily allocated based on the estimated fair values of the individual assets acquired and liabilities assumed at the date of acquisition, pending completion of an independent appraisal and other evaluations. The consolidated statements of income include the results of operations for our acquisition of the San Antonio Refinery and related storage assets commencing on April 19, 2011.

On February 9, 2011, we acquired 75% of the outstanding capital of a Turkish company, which owns two terminals in Mersin, Turkey, with an aggregate 1.3 million barrels of storage capacity, for approximately \$57.3 million (the Turkey Acquisition). Both terminals are connected via pipelines to an offshore platform located approximately three miles off the Mediterranean Sea coast. The purchase price has been preliminarily allocated based on the estimated fair values of the individual assets acquired, liabilities assumed and noncontrolling interest at the date of acquisition. The purchase price allocation is pending completion of an independent appraisal and other evaluations. The consolidated statements of income include the results of operations for the Turkey Acquisition commencing on February 9, 2011, with 25% accounted for as a noncontrolling interest.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

2. NEW ACCOUNTING PRONOUNCEMENTS

Other Comprehensive Income

In June 2011, the Financial Accounting Standards Board (FASB) amended the disclosure requirements for the presentation of comprehensive income. The amended requirements eliminate the option to present components of other comprehensive income (OCI) as part of the statement of changes in equity. Under the amended requirements, all changes in OCI are to be presented either in a single continuous statement of comprehensive income or in two separate but consecutive financial statements. The changes are effective for fiscal years and interim periods beginning after December 15, 2011, and retrospective application is required. Accordingly, we will adopt these provisions January 1, 2012. These amendments only affect financial statement presentation and will not impact our financial position or results of operations.

Fair Value Measurements

In May 2011, the FASB issued amended guidance and disclosure requirements for fair value measurements. The new guidance results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between GAAP and International Financial Reporting Standards. These changes are effective for interim and annual periods beginning on or after December 15, 2011, and early adoption is not permitted. Accordingly, we will adopt these provisions January 1, 2012, and we do not expect the amended guidance to have a material impact on our financial position, results of operations or disclosures.

3. INVENTORIES

Inventories consisted of the following:

	June 30, 2011	December 31, 2010
	(Thousands of Dollars)	
Crude oil	\$ 195,509	\$ 122,945
Finished products	463,101	281,197
Materials and supplies	9,298	9,395
Total	<u>\$ 667,908</u>	<u>\$ 413,537</u>

4. DEBT

Revolving Credit Agreement

During the six months ended June 30, 2011, we borrowed an aggregate \$520.0 million under our \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement) to fund a portion of our capital expenditures and working capital requirements. Additionally, we repaid \$226.0 million during the six months ended June 30, 2011. The 2007 Revolving Credit Agreement bears interest based on either an alternative base rate or a LIBOR-based rate. As of June 30, 2011, our weighted average borrowing interest rate was 0.9%, and we had \$429.4 million available for borrowing under the 2007 Revolving Credit Agreement. Due to a covenant in our 2007 Revolving Credit Agreement that requires us to maintain, as of the end of each four consecutive fiscal quarters, a consolidated debt coverage ratio not to exceed 5.00-to-1.00, we may not be able to borrow the maximum available amount. On March 7, 2011, we amended the 2007 Revolving Credit Agreement to exclude unused proceeds from the Gulf Opportunity Zone bond issuances from total indebtedness in the calculation of the consolidated debt coverage ratio. As of June 30, 2011, our consolidated debt coverage ratio was 4.3x.

Gulf Opportunity Zone Revenue Bonds

The Parish of St. James, Louisiana issued three separate series of tax exempt revenue bonds in 2010 (2010 GoZone Bonds) associated with our St. James terminal expansion pursuant to the Gulf Opportunity Zone Act of 2005. The interest rate on these bonds is based on a weekly tax-exempt bond market interest rate, and interest is paid monthly. The interest rate was 0.1% as of June 30, 2011. Following the issuance, the proceeds were deposited with a trustee and will be disbursed to us upon our request for reimbursement of expenditures related to our St. James terminal expansion. The amount remaining in trust related to the 2010 GoZone Bonds is included in "Other long-term assets, net," and the amount of bonds issued is included in "Long-term debt, less current portion" in our consolidated balance sheets. For the six months ended June 30, 2011, we received net proceeds of \$65.8 million from the 2010 GoZone Bonds. As of June 30, 2011, the amount remaining in trust totaled \$139.6 million.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Lines of Credit

As of June 30, 2011, we had one short-term line of credit with an uncommitted borrowing capacity of up to \$20.0 million. We had no outstanding borrowings on this line of credit as of June 30, 2011. During the six months ended June 30, 2011, we borrowed and repaid \$31.6 million related to this line of credit.

5. COMMITMENTS AND CONTINGENCIES**Contingencies**

We have contingent liabilities resulting from various litigation, claims and commitments, the most significant of which are discussed below. We record accruals for loss contingencies when losses are considered probable and can be reasonably estimated. Legal fees associated with defending the Partnership in legal matters are expensed as incurred. As of June 30, 2011, we have accrued \$75.6 million for contingent losses. The amount that will ultimately be paid related to these matters may differ from the amounts accrued, and the timing of such payments is uncertain.

Grace Energy Corporation Matter. In 1997, Grace Energy Corporation (Grace Energy) sued subsidiaries of Kaneb Pipeline Partners, L.P. (KPP) and Kaneb Services LLC (KSL and collectively with KPP and their respective subsidiaries, Kaneb) in Texas state court. We acquired Kaneb on July 1, 2005. The complaint sought recovery of the cost of remediation of fuel leaks in the 1970s from a pipeline that had once connected a former Grace Energy terminal with Otis Air Force Base in Massachusetts (Otis AFB). Grace Energy alleges the Otis AFB pipeline and related environmental liabilities had been transferred in 1978 to an entity that was part of Kaneb's acquisition of Support Terminal Services, Inc. and its subsidiaries from Grace Energy in 1993. Kaneb contends that it did not acquire the Otis AFB pipeline and never assumed any responsibility for any associated environmental damage.

In 2000, the court entered final judgment that: (i) Grace Energy could not recover its own remediation costs of \$3.5 million, (ii) Kaneb owned the Otis AFB pipeline and its related environmental liabilities and (iii) Grace Energy was awarded \$1.8 million in attorney costs. Both Kaneb and Grace Energy appealed the final judgment of the trial court to the Texas Court of Appeals in Dallas. In 2001, Grace Energy filed a petition in bankruptcy, which created an automatic stay of actions against Grace Energy. In September 2008, Grace Energy filed its Joint Plan of Reorganization and Disclosure Statement.

The Otis AFB is a part of a Superfund Site pursuant to the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The site contains a number of groundwater contamination plumes, two of which are allegedly associated with the Otis AFB pipeline. Relying on the final judgment of the Texas state court assigning ownership of the Otis AFB pipeline to Kaneb, the United States Department of Justice (the DOJ) advised Kaneb in 2001 that it intends to seek reimbursement from Kaneb for the remediation costs associated with the two plumes. In November 2008, the DOJ forwarded information to us indicating that the past and estimated future remediation expenses associated with one plume are \$71.9 million. The DOJ has indicated that they will not seek recovery of remediation costs for the second plume. The DOJ has not filed a lawsuit against us related to this matter, and we have not made any payments toward costs incurred by the DOJ. We are currently in settlement discussions with other potentially responsible parties and the DOJ, and a change in our estimate of this liability may occur in the near term. However, any settlement agreement that is reached must be approved by multiple parties and requires the approval of the bankruptcy court and the federal district court. We cannot currently estimate when or if a settlement will be finalized.

Eres Matter. In August 2008, Eres N.V. (Eres) forwarded a demand for arbitration to CITGO Asphalt Refining Company (CARCO), CITGO Petroleum Corporation (CITGO), NuStar Asphalt Refining, LLC (NuStar Asphalt) and NuStar Marketing LLC (NuStar Marketing, and together with CARCO, CITGO and NuStar Asphalt, the Defendants) contending that the Defendants are in breach of a tanker voyage charter party agreement, dated November 2004, between Eres and CARCO (the Charter Agreement). The Charter Agreement provides for CARCO's use of Eres' vessels for the shipment of asphalt. Eres contends that NuStar Asphalt and/or NuStar Marketing (together, the NuStar Entities) assumed the Charter Agreement when NuStar Asphalt purchased the CARCO assets, and that the Defendants have failed to perform under the Charter Agreement since January 1, 2008. Eres has valued its damages for the alleged breach of contract claim at approximately \$78.1 million. Pursuant to a May 2010 ruling by the United States District Court for the Southern District of Texas, the NuStar Entities were found to have assumed the Charter Agreement from CARCO and to be obligated to defend and indemnify CITGO and CARCO against Eres' claims. The Defendants were ordered to proceed with arbitration; an arbitration hearing occurred in June 2011. Additional arbitration hearing dates are currently scheduled for mid-October 2011. We intend to vigorously defend against Eres' claims in arbitration.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Other. We are also a party to additional claims and legal proceedings arising in the ordinary course of business. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on our results of operations, financial position or liquidity. It is possible that if one or more of the matters described above were decided against us, the effects could be material to our results of operations in the period in which we would be required to record or adjust the related liability and could also be material to our cash flows in the periods we would be required to pay such liability.

6. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists.

The following assets and liabilities are measured at fair value:

	June 30, 2011			
	Level 1	Level 2	Level 3	Total
(Thousands of Dollars)				
Other current assets:				
Product imbalances	\$ 1,074	\$ —	\$ —	\$ 1,074
Commodity derivatives	10,898	4,653	—	15,551
Other long-term assets, net:				
Interest rate swaps	—	23,214	—	23,214
Accrued liabilities:				
Product imbalances	(625)	—	—	(625)
Commodity derivatives	(5,878)	(19,883)	—	(25,761)
Other long-term liabilities:				
Interest rate swaps	—	(20,362)	—	(20,362)
Total	\$ 5,469	\$ (12,378)	\$ —	\$ (6,909)

	December 31, 2010			
	Level 1	Level 2	Level 3	Total
(Thousands of Dollars)				
Other current assets:				
Product imbalances	\$ 991	\$ —	\$ —	\$ 991
Other long-term assets, net:				
Interest rate swaps	—	45,663	—	45,663
Accrued liabilities:				
Product imbalances	(988)	—	—	(988)
Commodity derivatives	(14,741)	—	—	(14,741)
Other long-term liabilities:				
Interest rate swaps	—	(29,483)	—	(29,483)
Total	\$ (14,738)	\$ 16,180	\$ —	\$ 1,442

Product Imbalances

We value our assets and liabilities related to product imbalances using quoted market prices as of the reporting date.

Interest Rate Swaps

We estimate the fair value of both our fixed-to-floating and forward-starting interest rate swaps using discounted cash flows, which use observable inputs such as time to maturity and market interest rates.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Commodity Derivatives

The fair value of certain of our commodity derivative instruments are based on quoted prices on an exchange; accordingly, these are categorized in Level 1 of the fair value hierarchy. We also have derivative instruments that are valued using industry pricing services and other observable inputs, such as quoted prices on an exchange for similar derivative instruments. Therefore, these derivative instruments are categorized in Level 2 of the fair value hierarchy. We have consistently applied these valuation techniques in all periods presented. See Note 7. Derivatives and Risk Management Activities for a discussion of our derivative instruments.

Fair Value of Financial Instruments

We do not record our outstanding debt at fair value in our consolidated balance sheet. The estimated fair value and carrying amount of our debt was as follows:

	June 30, 2011	December 31, 2010
	(Thousands of Dollars)	
Fair value	\$ 2,553,057	\$ 2,249,190
Carrying amount	\$ 2,442,244	\$ 2,137,080

We estimated the fair values of our debt using a discounted cash flow analysis using current incremental borrowing rates for similar types of borrowing arrangements.

7. DERIVATIVES AND RISK MANAGEMENT ACTIVITIES

We utilize various derivative instruments to: (i) manage our exposure to commodity price risk; (ii) engage in a trading program; and (iii) manage our exposure to interest rate risk. Our risk management policies and procedures are designed to monitor interest rates, futures and swaps positions, as well as physical volumes, grades, locations and delivery schedules to help ensure that our hedging activities address our market risks. We have a risk management committee that oversees our trading controls and procedures and certain aspects of commodity and trading risk management. Our risk management committee also reviews all new commodity and trading risk management strategies in accordance with our risk management policy, as approved by our board of directors.

Interest Rate Risk

We are a party to certain interest rate swap agreements to manage our exposure to changes in interest rates. We have fixed-to-floating interest rate swap agreements associated with a portion of our fixed-rate senior notes. During the six months ended June 30, 2011, we entered into a fixed-to-floating interest rate swap agreement with a notional amount of \$40.0 million related to the 7.65% senior notes issued in April 2008. Under the terms of this interest rate swap agreement, we will receive a fixed rate of 7.65% and will pay a variable rate based on three-month USD LIBOR plus a percentage. We account for this fixed-to-floating interest rate swap as a fair value hedge. Accordingly, we record mark-to-market adjustments to the fair value of the swap and the related change in the fair value of the associated hedged debt, as well as any hedge ineffectiveness, in "Interest expense, net."

We are also a party to fixed-to-floating interest rate swap agreements that qualify for the shortcut method of accounting. As a result, changes in the fair value of these swaps completely offset the changes in the fair value of the underlying hedged debt. During the six months ended June 30, 2011, we terminated interest rate swap agreements with an aggregate notional amount of \$167.5 million associated with our 6.875% and 6.05% senior notes. We received \$9.1 million in connection with the termination, which is being amortized into "Interest expense, net" over the remaining lives of the 6.875% and 6.05% senior notes. Proceeds from the termination of interest rate swap agreements is included in cash flows from financing activities on the consolidated statements of cash flows. The total aggregate notional amount of the fixed-to-floating interest rate swaps was \$490.0 million and \$617.5 million as of June 30, 2011 and December 31, 2010, respectively. The weighted-average interest rate that we paid under our fixed-to-floating interest rate swaps was 2.5% as of June 30, 2011.

We are also a party to forward-starting interest rate swap agreements with an aggregate notional amount of \$500.0 million as of June 30, 2011 and December 31, 2010 related to forecasted probable debt issuances in 2012 and 2013. We entered into the swaps in order to hedge the risk of changes in the interest payments attributable to changes in the benchmark interest rate during the period from the effective date of the swap to the issuance of the forecasted debt. These swaps are designated and qualify as cash flow hedges.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Commodity Price Risk

We are exposed to market risks related to the volatility of crude oil and refined product prices. In order to reduce the risk of commodity price fluctuations with respect to our crude oil and finished product inventories and related firm commitments to purchase and/or sell such inventories, we utilize futures and swaps contracts, which qualify and we designate as fair value hedges.

During the second quarter of 2011, we entered into swaps contracts to hedge the price risk associated with the San Antonio Refinery. These swaps contracts fix the purchase price of crude oil and sales prices of refined products for a portion of the expected production of the San Antonio Refinery, thereby mitigating the risk of volatility of future cash flows associated with hedged volumes. These swaps contracts qualified and we designated them as cash flow hedges.

Derivatives that are intended to hedge our commodity price risk, but fail to qualify as fair value or cash flow hedges are considered economic hedges, and associated gains and losses are recorded in net income.

We also enter into commodity derivatives in order to attempt to profit from market fluctuations. These derivative instruments are financial positions entered into without underlying physical inventory and are not considered hedges. Changes in the fair values are recorded in net income.

The volume of commodity contracts is based on open derivative positions and represents the combined volume of our long and short positions on an absolute basis, which totaled 35.0 million barrels and 12.8 million barrels as of June 30, 2011 and December 31, 2010, respectively.

As of June 30, 2011, and December 31, 2010, we had \$7.4 million and \$17.8 million, respectively, of margin deposits related to our derivative instruments.

The fair values of our derivative instruments included in our consolidated balance sheets were as follows:

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

For derivatives designated as cash flow hedging instruments, once a hedged transaction occurs, we reclassify the effective portion from accumulated OCI to “Cost of product sales” or “Interest expense, net.” As of June 30, 2011, we expect to reclassify a loss of \$8.5 million to “Cost of product sales” and a gain of \$0.3 million to “Interest expense, net” within the next twelve months. The maximum length of time over which we are hedging our exposure to the variability in future cash flows is approximately two years for our forward-starting interest rate swaps and approximately five years for our commodity contracts.

Concentration of Credit Risk

We are exposed to credit risk on our hedging instruments in the event of nonperformance by counterparties. However, because our hedging activities are transacted only with highly rated institutions, we do not anticipate nonperformance by any of these counterparties.

8. RELATED PARTY TRANSACTIONS

Our operations are managed by NuStar GP, LLC, the general partner of our general partner. Under a services agreement between NuStar Energy and NuStar GP, LLC, employees of NuStar GP, LLC perform services for our U.S. operations. Certain of our wholly owned subsidiaries employ persons who perform services for our international operations. Employees of NuStar GP, LLC provide services to both NuStar Energy and NuStar GP Holdings; therefore, we reimburse NuStar GP, LLC for all costs related to its employees, other than costs associated with NuStar GP Holdings. Related party revenues result from storage agreements between our Turkey subsidiary and the noncontrolling shareholder.

The following table summarizes information pertaining to related party transactions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(Thousands of Dollars)			
Revenues	\$ 407	\$ —	\$ 537	\$ —
Operating expenses	\$ 36,801	\$ 34,075	\$ 71,910	\$ 67,919
General and administrative expenses	\$ 16,035	\$ 13,320	\$ 32,983	\$ 30,558

We had a payable to NuStar GP, LLC of \$15.5 million and \$10.3 million, as of June 30, 2011 and December 31, 2010, respectively, with both amounts representing payroll, employee benefit plans and unit-based compensation. We also had a long-term payable to NuStar GP, LLC as of June 30, 2011 and December 31, 2010 of \$11.4 million and \$10.1 million, respectively, related to amounts payable for retiree medical benefits and other post-employment benefits.

9. OTHER (EXPENSE) INCOME

Other (expense) income, net consisted of the following:

Other (expense) income, net	\$ (967)	\$ 14,816	\$ (6,466)	\$ 15,117

For the six months ended June 30, 2011, "Other (expense) income, net" included \$5.0 million in costs associated with the early termination of a third-party storage agreement at our Paulsboro, New Jersey asphalt refinery. For the three and six months ended June 30, 2010, the gain from insurance recoveries resulted from insurance claims related to damage in the third quarter of 2008 primarily at our Texas City, Texas terminal caused by Hurricane Ike.

Allocations of Net Income

Our partnership agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common unitholders and the general partner will receive. The partnership agreement also contains provisions for the allocation of net income and loss to the unitholders and the general partner. For purposes of maintaining partner capital accounts, the partnership agreement specifies that items of income and loss shall be allocated among the partners in accordance with their respective percentage interests. Normal allocations according to percentage interests are made after giving effect to priority income allocations, if any, in an amount equal to incentive cash distributions allocated 100% to the general partner. The following table details the calculation of net income applicable to the general partner:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(Thousands of Dollars)			
Net income attributable to NuStar Energy L.P.	\$ 92,599	\$ 99,422	\$ 121,101	\$ 119,125
Less general partner incentive distribution	8,963	8,369	17,531	16,168
Net income after general partner incentive distribution	83,636	91,053	103,570	102,957
General partner interest	2%	2%	2%	2%
General partner allocation of net income after general partner incentive distribution	1,673	1,821	2,071	2,059
General partner incentive distribution	8,963	8,369	17,531	16,168
Net income applicable to general partner	\$ 10,636	\$ 10,190	\$ 19,602	\$ 18,227

Cash Distributions

On May 13, 2011, we paid a quarterly cash distribution totaling \$79.6 million, or \$1.075 per unit, related to the first quarter of 2011. On July 28, 2011, our board of directors approved a quarterly cash distribution of \$1.095 per unit related to the second quarter of 2011. This distribution will be paid on August 12, 2011 to unitholders of record on August 9, 2011 and will total \$81.3 million.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(Thousands of Dollars, Except Per Unit Data)			
General partner interest	\$ 1,627	\$ 1,576	\$ 3,219	\$ 3,043
General partner incentive distribution	8,963	8,369	17,531	16,168
Total general partner distribution	10,590	9,945	20,750	19,211
Limited partners' distribution	70,749	68,809	140,205	132,935
Total cash distributions	<u>\$ 81,339</u>	<u>\$ 78,754</u>	<u>\$ 160,955</u>	<u>\$ 152,146</u>
Cash distributions per unit applicable to limited partners	<u>\$ 1.095</u>	<u>\$ 1.065</u>	<u>\$ 2.170</u>	<u>\$ 2.130</u>

11. NET INCOME PER UNIT

We have identified the general partner interest and incentive distribution rights (IDR) as participating securities and use the two-class method when calculating the net income per unit applicable to limited partners, which is based on the weighted-average number of common units outstanding during the period. Basic and diluted net income per unit applicable to limited partners are the same because we have no potentially dilutive securities outstanding.

The following table details the calculation of earnings per unit:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(Thousands of Dollars, Except Unit and Per Unit Data)

Cash paid for income taxes, net of tax refunds received	\$ 7,070	\$ 8,614

13. SEGMENT INFORMATION

Our reportable business segments consist of storage, transportation, and asphalt and fuels marketing. Our segments represent strategic business units that offer different services and products. We evaluate the performance of each segment based on its respective operating income, before general and administrative expenses and certain non-segmental depreciation and amortization expense. General and administrative expenses are not allocated to the operating segments since those expenses relate primarily to the overall management at the entity level. Our principal operations include terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and asphalt and fuels marketing. Intersegment revenues result from storage and throughput agreements with related parties at lease rates consistent with rates charged to third parties for storage and at pipeline tariff rates based upon the applicable published tariff.

NUSTAR ENERGY L.P. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

14. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

NuStar Energy has no operations and its assets consist mainly of its investments in NuStar Logistics and NuPOP, both wholly owned subsidiaries. The senior notes issued by NuStar Logistics and NuPOP are fully and unconditionally guaranteed by NuStar Energy, and each of NuStar Logistics and NuPOP fully and unconditionally guarantee the outstanding senior notes of the other. As a result, the following condensed consolidating financial statements are presented as an alternative to providing separate financial statements for NuStar Logistics and NuPOP.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain estimates, predictions, projections, assumptions and other forward-looking statements that involve various risks and uncertainties. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested in this report. These forward-looking statements can generally be identified by the words "anticipates," "believes," "expects," "plans," "intends," "estimates," "forecasts," "budgets," "projects," "will," "could," "should," "may" and similar expressions. These statements reflect our current views with regard to future events and are subject to various risks, uncertainties and assumptions. Please read our Annual Report on Form 10-K for the year ended December 31, 2010, Part I, Item 1A "Risk Factors," as well as our subsequent current and quarterly reports, for a discussion of certain of those risks, uncertainties and assumptions.

If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those described in any forward-looking statement. Other unknown or unpredictable factors could also have material adverse effects on our future results. Readers are cautioned not to place undue reliance on this forward-looking information, which is as of the date of this Form 10-Q. We do not intend to update these statements unless it is required by the securities laws to do so, and we undertake no obligation to publicly release the result of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

OVERVIEW

NuStar Energy L.P. (NuStar Energy) is a publicly held Delaware limited partnership engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms "NuStar Energy," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 17.5% total interest in us as of June 30, 2011. Our Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in six sections:

- Overview
- Results of Operations
- Outlook
- Liquidity and Capital Resources
- Related Party Transactions
- Critical Accounting Policies

Acquisitions

On April 19, 2011, we purchased certain refining and storage assets, inventory and other working capital items from AGE Refining, Inc. for \$62.0 million, including the assumption of certain environmental liabilities (the San Antonio Refinery Acquisition). The assets consist of a 14,500 barrel per day refinery in San Antonio, Texas and 200,000 barrels of storage capacity in Elmendorf, Texas. The consolidated statements of income include the results of operations for the San Antonio Refinery Acquisition commencing on April 19, 2011.

On February 9, 2011, we acquired 75% of the outstanding capital of a Turkish company, which owns two terminals in Mersin, Turkey, with an aggregate 1.3 million barrels of storage capacity, for approximately \$57.3 million (the Turkey Acquisition). Both terminals are connected via pipelines to an offshore platform located approximately three miles off the Mediterranean Sea coast. The operations of the Turkey Acquisition are included in the Results of Operations commencing on February 9, 2011.

Operations

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). Our operations are divided into three reportable business segments: storage, transportation, and asphalt and fuels marketing.

Storage. We own terminals and storage facilities in the United States, Canada, the Netherlands, including St. Eustatius in the Caribbean, the United Kingdom, Mexico and Turkey providing approximately 69.0 million barrels of storage capacity. Our terminals and storage facilities provide storage and handling services on a fee basis for petroleum products, specialty chemicals and other liquids, including crude oil and other feedstocks.

Transportation. We own common carrier refined product pipelines in Texas, Oklahoma, Colorado, New Mexico, Kansas, Nebraska, Iowa, South Dakota, North Dakota and Minnesota covering approximately 5,545 miles, consisting of the Central West System, the East Pipeline and the North Pipeline. The East and North Pipelines also include 21 terminals providing storage capacity of 4.6 million barrels, and the East Pipeline includes two tank farms providing storage capacity of 1.2 million barrels. In addition, we own a 2,000 mile anhydrous ammonia pipeline located in Louisiana, Arkansas, Missouri, Illinois, Indiana, Iowa and Nebraska. We also own 872 miles of crude oil pipelines in Texas, Oklahoma, Kansas, Colorado and Illinois, as well as 1.9 million barrels of crude storage in Texas and Oklahoma that is located along those crude oil pipelines. We charge tariffs on a per barrel basis for transporting refined products, crude oil and other feedstocks in our refined product and crude oil pipelines and on a per ton basis for transporting anhydrous ammonia in our Ammonia Pipeline.

Asphalt and Fuels Marketing. Our asphalt and fuels marketing segment includes our refining operations and fuels marketing operations. We refine crude oil to produce asphalt and other refined products from our asphalt operations. Our two asphalt refineries have a combined throughput capacity of 104,000 barrels per day, and the related terminal facilities provide storage capacity of 5.0 million barrels. This segment also include a fuels refinery in San Antonio, Texas with throughput capacity of 14,500 barrel per day. Additionally, as part of our fuels marketing operations, we purchase crude oil and refined petroleum products for resale. The results of operations for the asphalt and fuels marketing segment depend largely on the gross margin between our costs and the sales price of the products we market. Therefore, the results of operations for this segment are more sensitive to changes in commodity prices compared to the operations of our storage and transportation segments. We enter into derivative contracts to mitigate the effect of commodity price fluctuations.

The following factors affect the results of our operations:

- company-specific factors, such as facility integrity issues and maintenance requirements that impact the throughput rates of our assets;
- seasonal factors that affect the demand for products transported by and/or stored in our assets and the demand for products we sell, particularly asphalt;
- industry factors, such as changes in the prices of petroleum products, that affect demand and operations of our competitors;
- factors such as commodity price volatility and market structure that impact our asphalt and fuels marketing segment; and
- other factors, such as refinery utilization rates and maintenance turnaround schedules, that impact our refineries, as well as the operations of refineries served by our storage and transportation assets.

RESULTS OF OPERATIONS*Three Months Ended June 30, 2011 Compared to Three Months Ended June 30, 2010***Financial Highlights**

(Unaudited, Thousands of Dollars, Except Unit and Per Unit Data)

	<u>Three Months Ended June 30,</u>		<u>Change</u>
	<u>2011</u>	<u>2010</u>	
Statement of Income Data:

Income tax expense	5,167	636	4,531
Net income	<u>\$ 92,605</u>	<u>\$ 99,422</u>	<u>\$ (6,817)</u>
Net income per unit applicable to limited partners	<u>\$ 1.27</u>	<u>\$ 1.43</u>	<u>\$ (0.16)</u>
Weighted-average limited partner units outstanding	<u>64,610,549</u>	<u>62,289,670</u>	<u>2,320,879</u>

Highlights

Net income decreased \$6.8 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010. Higher segment operating income was more than offset by increased general and administrative expenses, higher income tax expense and lower other income. Segment operating income increased \$19.4 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, mainly due to increased operating income from the asphalt and fuels marketing segment, partially offset by decreased operating income from the transportation segment.

Consolidated operating income	<u>\$ 117,351</u>	<u>\$ 102,030</u>	<u>\$ 15,321</u>

Storage

Storage lease revenues increased \$10.3 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to:

- an increase of \$4.7 million at our St. Eustatius facility, which was mainly due to completed tank expansion projects, as well as rate escalations, increased reimbursable revenues and higher throughput and related handling fees;
- an increase of \$2.9 million at our UK and Amsterdam terminals, which was due to new customer contracts and the effect of foreign exchange rates; and
- an increase of \$2.2 million related to our Turkey Acquisition in February 2011 and our acquisition of three terminals in Mobile County, Alabama in May 2010.

Operating expenses increased \$7.9 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to cancelled capital projects and higher salaries and wages resulting from merit increases and increases in other employee benefit expenses. In addition, operating expenses increased due to the Turkey Acquisition in February 2011 and a full quarter of operating expenses from our three terminals in Mobile County, Alabama acquired in May 2010.

Depreciation and amortization expense increased \$2.8 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to the completion of various terminal upgrade and expansion projects and the Turkey Acquisition.

Transportation

Throughputs decreased 146,946 barrels per day and revenues decreased \$5.4 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to:

- a decrease of 75,365 barrels per day and a decrease of \$2.4 million on our pipelines serving the Ardmore refinery mainly due to a turnaround in March and April 2011 followed by operational issues and a shift in supply volumes;
- a decrease of 33,100 barrels per day and a decrease of \$2.3 million on the Houston pipeline mainly due to market conditions that favored exporting instead of shipping on our pipeline;
- a decrease of 22,485 barrels per day and a decrease of \$1.6 million on our Corpus Christi to Three Rivers crude oil pipeline due to a shipper receiving product from alternate locations and thus reducing the volume transported on our pipeline;
- a decrease of 29,899 barrels per day and a decrease of \$1.5 million on the Wichita Falls and Capwood crude oil pipelines due to shippers using alternate pipelines; and
- a decrease of 3,420 barrels per day and a decrease of \$1.3 million on the Ammonia Pipeline due to flooding and unfavorable weather conditions in the Midwest.

These decreases were partially offset by:

- an increase of 14,556 barrels per day and an increase in revenues of \$2.8 million on the North Pipeline mainly due to turnaround activity during the second quarter of 2010 at a refinery served by the pipeline; and
- an increase of 9,511 barrels per day and an increase in revenues of \$1.6 million on refined product pipelines serving the McKee refinery due to maintenance activity at the refinery during the second quarter of 2010.

Asphalt and Fuels Marketing

Sales and cost of product sales increased \$460.3 million and \$427.9 million, respectively, resulting in an increase in total gross margin of \$32.4 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010. The increase in total gross margin was primarily due to an increase of \$20.3 million in the gross margin from our asphalt operations. Although sales volumes decreased, gross margin per barrel for our asphalt operations increased to \$15.50 for the three months ended June 30, 2011, from \$9.66 for the three months ended June 30, 2010, due to higher sales prices and tight asphalt supply during the second quarter of 2011. In addition, gross margin improved due to lower inventory costs that resulted from our strategy of building inventory during periods of lower demand.

The gross margin from our fuels marketing operations increased \$12.1 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010 due to higher sales prices and volumes in 2011. The San Antonio Refinery Acquisition in April 2011 also contributed to the increase in gross margin.

Operating expenses increased \$7.4 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to higher idle capacity costs from our asphalt operations and increased storage rental expenses from our fuels marketing operations.

Consolidation and Intersegment Eliminations

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

General

General and administrative expenses increased \$3.9 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, primarily due to higher salaries and wages resulting from increased headcount and merit increases and higher compensation expense associated with our long-term incentive plans.

Interest expense, net increased \$1.7 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, mainly due to the issuance of \$450.0 million of 4.80% senior notes in August 2010. This increase in interest expense was partially offset by the effect of additional fixed-to-floating interest rate swap agreements we entered into in September and October 2010 and an increase in capitalized interest.

Other (expense) income, net changed by \$15.8 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010. Other income, net in 2010 included a \$13.5 million gain from insurance recoveries, which resulted from insurance claims related to damage in the third quarter of 2008 primarily at our Texas City, Texas terminal caused by Hurricane Ike.

Despite a reduction in pre-tax income, income tax expense increased \$4.5 million for the three months ended June 30, 2011, compared to the three months ended June 30, 2010, because income tax expense in 2010 included the reversal of a deferred tax asset valuation allowance.

RESULTS OF OPERATIONS*Six Months Ended June 30, 2011 Compared to Six Months Ended June 30, 2010***Financial Highlights**

Storage

Storage lease revenues increased \$21.2 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to:

- an increase of \$9.1 million at our St. Eustatius facility, which was mainly due to completed tank expansion projects, as well as rate escalations, increased reimbursable revenues and higher throughput and related handling fees;
- an increase of \$5.8 million related to our acquisition of three terminals in Mobile County, Alabama in May 2010 and the Turkey Acquisition; and
- an increase of \$3.5 million at our UK and Amsterdam terminals, which was due to new customer contracts, increased throughput and the effect of foreign exchange rates.

Operating expenses increased \$9.8 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to cancelled capital projects, higher rail and dock fees at certain terminals in our gulf coast region and increased costs at our St. Eustatius facility. Operating expenses also increased as a result of higher reimbursable and power expenses, as well as the Turkey Acquisition in February 2011 and a full six months of operating expenses associated with our three terminals in Mobile County, Alabama acquired in May 2010.

Depreciation and amortization expense increased \$5.3 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to the completion of various terminal upgrade and expansion projects, the Turkey Acquisition and our acquisition of three terminals in Mobile County, Alabama in May 2010.

Transportation

Throughputs decreased 112,217 barrels per day and revenues decreased \$7.6 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to:

- a decrease of 40,033 barrels per day and a decrease of \$5.9 million on the Houston pipeline mainly due to market conditions that favored exporting instead of shipping on our pipeline;
- a decrease of 67,955 barrels per day and a decrease of \$4.3 million on our pipelines serving the Ardmore refinery mainly due to a turnaround in March and April 2011 followed by operational issues and a shift in supply volumes; and
- a decrease of 9,158 barrels per day and a decrease of \$1.9 million on our Corpus Christi to Three Rivers crude oil pipeline due to a shipper receiving product from alternate locations and thus reducing the volume transported on our pipeline.

These decreases were partially offset by:

- an increase of 9,764 barrels per day and an increase in revenues of \$3.9 million on the North Pipeline mainly due to turnaround activity during the second quarter of 2010 at a refinery served by the pipeline; and
- an increase of 18,935 barrels per day and an increase in revenues of \$3.3 million on pipelines serving the McKee refinery mainly due to increased production in 2011 and operational issues and turnaround activity at the refinery in 2010.

Operating expenses decreased \$3.7 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to a reduction in overhead expenses, as well as lower maintenance and power expenses.

Asphalt and Fuels Marketing

Sales and cost of product sales increased \$741.5 million and \$702.2 million, respectively, resulting in an increase in total gross margin of \$39.2 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010. The increase in total gross margin was primarily due to an increase of \$16.6 million in the gross margin from our asphalt operations. Although sales volumes decreased, gross margin per barrel for our asphalt operations increased to \$12.70 for the six months ended June 30, 2011, from \$8.16 for the six months ended June 30, 2010, due to higher sales prices and tight asphalt supply during the second quarter of 2011. In addition, gross margin improved due to lower inventory costs that resulted from our strategy of building inventory during periods of lower demand.

Gross margin from our fuels marketing operations increased \$22.6 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010 due to higher sales prices and volumes in 2011. The San Antonio Refinery Acquisition in April 2011 also contributed to the increase in gross margin.

Operating expenses increased \$6.3 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to higher idle capacity costs at our asphalt refineries and increased rental expenses associated with our fuels marketing operations.

Consolidation and Intersegment Eliminations

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

General

General and administrative expenses increased \$2.6 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, primarily due to higher salaries and wages resulting from increased headcount and merit increases.

Interest expense, net increased \$3.6 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, mainly due to the issuance of \$450.0 million of 4.80% senior notes in August 2010. This increase in interest expense was partially offset by the effect of additional fixed-to-floating interest rate swap agreements we entered into in September and October 2010 and an increase in capitalized interest.

Other (expense) income, net changed by \$21.6 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010. Other expense in 2011 included \$5.0 million of expense associated with the early termination of a third-party storage agreement at our Paulsboro, New Jersey asphalt refinery. Other income in 2010 included a \$13.5 million gain from insurance recoveries, which resulted from insurance claims related to damage in the third quarter of 2008 primarily at our Texas City, Texas terminal caused by Hurricane Ike.

Income tax expense increased \$3.4 million for the six months ended June 30, 2011, compared to the six months ended June 30, 2010, mainly due to the reversal of a deferred tax asset valuation allowance in 2010.

OUTLOOK

Overall, we expect our operating income for 2011 to be higher than 2010 due mainly to increases in our storage segment and our asphalt and fuels marketing segment.

Storage Segment

For the full year 2011, we expect the storage segment earnings to increase compared to 2010. We expect to benefit from internal growth projects completed in the second half of 2010 as well as those expected to be completed in 2011, mainly at our St. Eustatius terminal in the Caribbean and our St. James, Louisiana terminal.

Transportation Segment

We expect the transportation segment earnings for the full year 2011 to be lower than 2010. Throughputs are forecasted to be lower in 2011 mainly due to changing market conditions and planned turnaround activity at refineries served by our pipelines. However, the tariffs on our pipelines regulated by the Federal Energy Regulatory Commission, which adjust annually based upon changes in the producer price index, are expected to increase by 6.9 percent effective July 1, 2011, when the adjustment takes effect. In addition, we completed a pipeline expansion project at the end of the second quarter that serves Eagle Ford Shale production and we expect to benefit from this pipeline for the remainder of 2011. The pipeline expansion and the tariff increase effective July 1, 2011 will only partially offset the impact from the lower throughputs for the full year 2011, compared to 2010.

Asphalt and Fuels Marketing Segment

We expect the asphalt and fuels marketing segment results to increase for the full year 2011 compared to 2010. Our operations are expected to benefit from a full year of heavy fuel and bunker fuel sales in new markets we entered into in 2010, and from our San Antonio Refinery Acquisition, which closed on April 19, 2011.

Our outlook could change depending on, among other things, the prices of crude oil, changes to refinery maintenance schedules, and other factors that affect overall demand for the products we store, transport and sell as well as changes in commodity prices for the products we market.

LIQUIDITY AND CAPITAL RESOURCES**General**

Our primary cash requirements are for distributions to partners, working capital requirements, including inventory purchases, debt service, capital expenditures, acquisitions and operating expenses. On an annual basis, we attempt to fund our operating expenses, interest expense, reliability capital expenditures and distribution requirements with cash generated from our operations. If we do not generate sufficient cash from operations to meet those requirements, we utilize available borrowing capacity under our revolving credit agreement and, to the extent necessary, funds raised through equity or debt offerings under our shelf registration statements. Additionally, we typically fund our strategic capital expenditures from external sources, primarily borrowings under our revolving credit agreement or funds raised through equity or debt offerings. However, our ability to raise funds by issuing debt or equity depends on many factors beyond our control. The volatility of the capital and credit markets could restrict our ability to issue debt or equity or may increase our cost of capital beyond rates acceptable to us.

Cash Flows for the Six Months Ended June 30, 2011 and 2010

The following table summarizes our cash flows from operating, investing and financing activities:

	Six Months Ended June 30,	
	2011	2010
	(Thousands of Dollars)	
Net cash provided by (used in):		
Operating activities	\$ 1,824	\$ 13,653
Investing activities	(262,133)	(150,278)
Financing activities	206,840	107,802
Effect of foreign exchange rate changes on cash	1,224	1,371
Net decrease in cash and cash equivalents	<u>\$ (52,245)</u>	<u>\$ (27,452)</u>

Net cash provided by operating activities for the six months ended June 30, 2011 was \$1.8 million, compared to \$13.7 million for the six months ended June 30, 2010, primarily due to higher investments in working capital in 2011 compared to the same period in 2010. We increased our working capital \$201.7 million in 2011, compared to \$162.0 million in 2010. The higher investment in working capital in 2011 was partially offset by a decrease in non-cash gains in 2011 compared to 2010. For the six months ended June 30, 2010, net cash provided by operating activities included a \$13.5 million adjustment representing a gain from insurance recoveries that resulted from insurance claims related to damage primarily at our Texas City, Texas terminal caused by Hurricane Ike.

For the six months ended June 30, 2011, net cash provided by operating activities, proceeds from long-term debt borrowings, net of repayments, combined with cash on hand, were used to fund our distributions to unitholders and our general partner, capital expenditures primarily related to various terminal projects and two acquisitions.

For the six months ended June 30, 2010, cash from operating activities, proceeds from long-term and short-term debt borrowings, net of repayments, our issuance of common units and cash on hand were used to fund our distributions to unitholders and our general partner and capital expenditures primarily related to various terminal projects and an acquisition. The capital expenditures were primarily related to projects at our St. Eustatius and Texas City terminals and our corporate office. Cash flows from investing activities also include insurance proceeds of \$13.5 million related to damages caused by Hurricane Ike in the third quarter of 2008 primarily at our Texas City terminal.

2007 Revolving Credit Agreement

As of June 30, 2011, we had \$429.4 million available for borrowing under our \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement). Due to a covenant in our 2007 Revolving Credit Agreement that requires us to maintain, as of the end of each four consecutive fiscal quarters, a consolidated debt coverage ratio not to exceed 5.00-to-1.00, we may not be able to borrow the maximum available amount. On March 7, 2011, we amended the 2007 Revolving Credit Agreement to exclude unused proceeds from the Gulf Opportunity Zone bond issuances from total indebtedness in the calculation of the consolidated debt coverage ratio. As of June 30, 2011, the consolidated debt coverage ratio was 4.3x. The 2007 Revolving Credit Agreement matures in December 2012, and we do not have any other significant debt maturing until 2012.

Shelf Registration Statements

On April 29, 2011, the Securities and Exchange Commission declared effective our shelf registration statement on Form S-3, which permits us to offer and sell various types of securities, including NuStar Energy common units and debt securities of NuStar Logistics and NuPOP, having an aggregate value of up to \$200.0 million (the 2011 Shelf Registration Statement). The 2011 Shelf Registration Statement is in addition to our shelf registration statement on Form S-3 the Securities and Exchange Commission declared effective in May 2010.

On May 23, 2011, in connection with the 2011 Shelf Registration Statement, we entered into an Equity Distribution Agreement (the Equity Distribution Agreement) with Citigroup Global Markets Inc. (Citigroup). Under the Equity Distribution Agreement, we may from time to time sell an aggregate of up to \$200.0 million NuStar Energy common units representing limited partner interests using Citigroup, as our sales agent. Sales of common units will be made by means of ordinary brokers' transactions on the New York Stock Exchange at market prices, in block transactions or as otherwise agreed by us and Citigroup. Under the terms of the Equity Distribution Agreement, we may also sell common units to Citigroup as principal for its own account at a price to be agreed upon at the time of sale.

If the capital markets become more volatile, our access to the capital markets may be limited, or we could face increased costs. In addition, it is possible that our ability to access the capital markets may be limited at a time when we would like or need to do so, which could have an impact on our ability to refinance maturing debt and/or react to changing economic and business conditions.

Capital Requirements

Our operations are capital intensive, requiring significant investments to maintain, upgrade or enhance existing operations and to comply with environmental and safety laws and regulations. Our capital expenditures consist of:

- reliability capital expenditures, such as those required to maintain equipment reliability and safety and to address environmental and safety regulations; and
- strategic capital expenditures, such as those to expand and upgrade pipeline capacity or asphalt refinery operations and to construct new pipelines, terminals and storage tanks. In addition, strategic capital expenditures may include acquisitions of pipelines, terminals or storage tank assets, as well as certain capital expenditures related to support functions.

During the six months ended June 30, 2011, our reliability capital expenditures totaled \$26.2 million, consisting of \$20.6 million primarily related to maintenance upgrade projects at our terminals, which is classified as "Reliability capital expenditures" in the consolidated statements of cash flows, and \$5.6 million of turnaround expenditures at our asphalt refineries, which is classified as "Investment in other long-term assets" in our consolidated statements of cash flows. Strategic capital expenditures for the six months ended June 30, 2011 totaled \$135.8 million and were primarily related to projects at our St. James, Louisiana and St. Eustatius terminals and our corporate office.

For the full year 2011, we expect to incur approximately \$430.0 million of capital expenditures, including \$60.0 million for reliability capital projects and \$370.0 million for strategic capital projects, which do not include acquisitions. Thus far in 2011, we have spent approximately \$100.0 million, including working capital, related to the Turkey Acquisition and the San Antonio Refinery Acquisition. We continue to evaluate our capital budget and make changes as economic conditions warrant. Depending upon current economic conditions, our actual capital expenditures for 2011 may exceed or be lower than the budgeted amounts. We believe cash generated from operations, combined with other sources of liquidity previously described, will be sufficient to fund our capital expenditures in 2011, and our internal growth projects can be accelerated or scaled back depending on the condition of the capital markets.

Working Capital Requirements

Our asphalt and fuels marketing segment requires us to make substantial investments in working capital. Increases in the prices of the commodities we purchase cause our working capital requirements to increase, which reduces our liquidity. Our working capital requirements vary with the seasonal nature of asphalt demand as we employ our asphalt winterfill strategy to build and store inventories during periods of lower demand in order to sell it during periods of higher demand. This seasonal variance in demand also affects our accounts receivable and accounts payable balances, which vary depending on timing of payments.

Within working capital, our inventory balances increased by \$239.8 million during the six months ended June 30, 2011, compared to \$190.6 million during the six months ended June 30, 2010, due to rising crude oil prices in 2011. In addition, accounts receivable increased by \$139.1 million during the six months ended June 30, 2011, compared to \$73.3 million during the six months ended June 30, 2010, mainly due to the timing of payments and higher overall sales, resulting mainly from increased crude trading and bunker activity and the San Antonio Refinery Acquisition. Other current assets increased \$17.8 million during the six months ended June 30, 2011, compared to a decrease of \$27.2 million during the six months ended

June 30, 2010, primarily due to variations in our margin deposits related to our derivative instruments and an increase in prepaid assets in 2011.

Higher inventory balances also result in higher amounts of accounts payable, offsetting the impact to working capital. In 2011, accounts payable increased \$202.2 million, compared to \$94.4 million in 2010, due to higher inventory costs and the timing of payments.

Distributions

On May 13, 2011, we paid a quarterly cash distribution totaling \$79.6 million, or \$1.075 per unit, related to the first quarter of 2011. On July 28, 2011, our board of directors approved a quarterly cash distribution of \$1.095 per unit related to the second quarter of 2011. This distribution will be paid on August 12, 2011 to unitholders of record on August 9, 2011 and will total \$81.3 million.

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
(Thousands of Dollars, Except Per Unit Data)				
General partner interest	\$ 1,627	\$ 1,576	\$ 3,219	\$ 3,043
General partner incentive distribution	8,963	8,369	17,531	16,168
Total general partner distribution	10,590	9,945	20,750	19,211
Limited partners' distribution	70,749	68,809	140,205	132,935
Total cash distributions	\$ 81,339	\$ 78,754	\$ 160,955	\$ 152,146
Cash distributions per unit applicable to limited partners	\$ 1.095	\$ 1.065	\$ 2.170	\$ 2.130

Distributions declared for the quarter are paid within 45 days following the end of each quarter based on the partnership interests outstanding as of a record date that is set after the end of each quarter.

Debt Obligations

We are a party to the following debt agreements:

- the 2007 Revolving Credit Agreement due December 10, 2012, with a balance of \$489.1 million as of June 30, 2011;
- NuStar Logistics' 6.875% senior notes due July 15, 2012 with a face value of \$100.0 million; 6.05% senior notes due March 15, 2013 with a face value of \$229.9 million; 7.65% senior notes due April 15, 2018 with a face value of \$350.0 million; and 4.80% senior notes due September 1, 2020 with a face value of \$450.0 million;
- NuPOP's 7.75% senior notes due February 15, 2012; and 5.875% senior notes due June 1, 2013 with an aggregate face value of \$500.0 million;
- \$55.4 million revenue bonds due June 1, 2038; \$100.0 million revenue bonds due July 1, 2040; \$50.0 million revenue bonds due October 1, 2040; and \$85.0 million revenue bonds due December 1, 2040 associated with the St. James terminal expansion (Gulf Opportunity Zone Revenue Bonds);
- the £21 million term loan due December 11, 2012 (UK Term Loan); and
- the \$12.0 million note payable in annual installments through December 31, 2015 to the Port of Corpus Christi Authority of Nueces County, Texas, with a balance of \$1.8 million as of June 30, 2011, associated with the construction of a crude oil storage facility in Corpus Christi, Texas.

Management believes that, as of June 30, 2011, we are in compliance with all ratios and covenants of both the 2007 Revolving Credit Agreement and the UK Term Loan, which has substantially the same covenants as the 2007 Revolving Credit Agreement. Our other long-term debt obligations do not contain any financial covenants that are different than those contained in the 2007 Revolving Credit Agreement. However, a default under any of our debt instruments would be considered an event of default under all of our debt instruments.

Please refer to Note 4 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements.

Interest Rate Swaps

As of June 30, 2011 and December 31, 2010, we were a party to fixed-to-floating interest rate swap agreements and forward-starting swap agreements for the purpose of hedging interest rate risk. The weighted-average interest rate that we paid under our fixed-to-floating interest rate swaps was 2.5% as of June 30, 2011.

The following table aggregates information on our interest rate swap agreements:

	Notional Amount		Fair Value	
	June 30, 2011	December 31, 2010	June 30, 2011	December 31, 2010
(Thousands of Dollars)				
Type of interest rate swap agreements:				
Fixed-to-floating	\$ 490,000	\$ 617,500	\$ (19,318)	\$ (18,820)
Forward-starting	\$ 500,000	\$ 500,000	\$ 22,170	\$ 35,000

During the six months ended June 30, 2011, we terminated interest rate swap agreements with an aggregate notional amount of \$167.5 million associated with our 6.875% and 6.05% senior notes. We received \$9.1 million in connection with the termination, which is being amortized into "Interest expense, net" over the remaining lives of the 6.875% and 6.05% senior notes. Please refer to Note 7 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

Environmental, Health and Safety

We are subject to extensive federal, state and local environmental and safety laws and regulations, including those relating to the discharge of materials into the environment, waste management, pollution prevention measures, pipeline integrity and operator qualifications, among others. Because more stringent environmental and safety laws and regulations are continuously being enacted or proposed, the level of future expenditures required for environmental, health and safety matters is expected to increase.

Contingencies

We are subject to certain loss contingencies, the outcomes of which could have an adverse effect on our cash flows and results of operations, as further disclosed in Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements."

RELATED PARTY TRANSACTIONS

Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of our related party transactions.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk
Interest Rate Risk

We manage our exposure to changing interest rates principally through the use of a combination of fixed-rate debt and variable-rate debt. In addition, we utilize fixed-to-floating interest rate swap agreements to manage a portion of the exposure to changing interest rates by converting certain fixed-rate debt to variable-rate debt. We also enter into forward-starting interest rate swap agreements to lock in the rate on the interest payments related to forecasted debt issuances. Borrowings under the 2007 Revolving Credit Agreement and Gulf Opportunity Zone Revenue Bonds expose us to increases in the underlying interest rates.

The following tables provide information about our long-term debt and interest rate derivative instruments, all of which are sensitive to changes in interest rates. For long-term debt, principal cash flows and related weighted-average interest rates by expected maturity dates are presented. For our fixed-to-floating interest rate swaps, the table presents notional amounts and weighted-average interest rates by expected (contractual) maturity dates. Weighted-average variable rates are based on implied forward interest rates in the yield curve at the reporting date.

	June 30, 2011							Total	Fair Value
	Expected Maturity Dates								
	2011	2012	2013	2014	2015	There-after			
(Thousands of Dollars, Except Interest Rates)

The following table presents information regarding our forward-starting interest rate swap agreements:

Notional Amount	Period of Hedge	Weighted-Average Fixed Rate	Fair Value	
			June 30, 2011	December 31, 2010
(Thousands of Dollars)			(Thousands of Dollars)	
\$ 125,000	03/13 - 03/23	3.5%	\$ 5,781	\$ 8,717
150,000	06/13 - 06/23	3.5%	8,008	11,243
225,000	02/12 - 02/22	3.1%	8,381	15,040
\$ 500,000		3.3%	\$ 22,170	\$ 35,000

Commodity Price Risk

Since the operations of our asphalt and fuels marketing segment exposes us to commodity price risk, we enter into derivative instruments to mitigate the effect of commodity price fluctuations. The derivative instruments we use consist primarily of futures and swaps contracts. We have a risk management committee that oversees our trading controls and procedures and certain aspects of risk management. Our risk management committee also reviews all new risk management strategies in accordance with our risk management policy, which was approved by our board of directors.

During the second quarter of 2011, we entered into swaps contracts to hedge the price risk associated with the San Antonio Refinery. These swaps contracts fix the purchase price of crude oil and sales prices of refined products for a portion of the expected production of the San Antonio Refinery, thereby mitigating the risk of volatility of future cash flows associated with hedged volumes. These swaps contracts qualified and we designated them as cash flow hedges.

We record commodity derivative instruments in the consolidated balance sheets as assets or liabilities at fair value. We recognize mark-to-market adjustments for derivative instruments designated and qualifying as fair value hedges (Fair Value Hedges) and the related change in the fair value of the associated hedged physical inventory or firm commitment within "Cost of product sales." For derivative instruments designated and qualifying as cash flow hedges (Cash Flow Hedges), we record the effective portion of mark-to-market adjustments as a component of "Accumulated other comprehensive income" until the underlying hedged forecasted transactions occur and are recognized in income. For derivative instruments that do not qualify for hedge accounting (Economic Hedges and Other Derivatives), we record the mark-to-market adjustments in "Cost of product sales."

The commodity contracts disclosed below represent only those contracts exposed to commodity price risk at the end of the period. Please refer to Note 7 of Condensed Notes to Consolidated Financial Statement in Item 1. "Financial Statements" for the volume and related fair value of all commodity contracts.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management has evaluated, with the participation of the principal executive officer and principal financial officer of NuStar GP, LLC, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, and has concluded that our disclosure controls and procedures were effective as of June 30, 2011.

(b) Changes in internal control over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Interest capitalized	2,895	3,701	1,650	5,108	5,995	1,758
Rental expense interest factor (2)	10,980	21,228	21,599	15,065	6,985	5,104
Total fixed charges	<u>\$ 55,324</u>	<u>\$ 103,390</u>	<u>\$ 102,781</u>	<u>\$ 113,959</u>	<u>\$ 91,594</u>	<u>\$ 75,829</u>
Ratio of earnings to fixed charges	<u>3.3x</u>	<u>3.4x</u>	<u>3.3x</u>	<u>3.2x</u>	<u>2.6x</u>	<u>3.0x</u>

- (1) The "Interest expense, net" reported in NuStar Energy L.P.'s consolidated statement of income for the six months ended June 30, 2011 includes investment income of \$370,000.
- (2) The interest portion of rental expense represents one-third of rents, which is deemed representative of the interest portion of rental expense.

**CERTIFICATION PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, Curtis V. Anastasio, certify that:

1. I have reviewed this quarterly report on Form 10-Q of NuStar Energy L.P. (the "registrant");

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
