# 1. ORGANIZATION AND BASIS OF PRESENTATION

### **Organization and Operations**

NuStar Energy L.P. (NYSE: NS) is a publicly held Delaware limited partnership engaged in the transportation of petroleum products and anhydrous ammonia, and the terminalling, storage and marketing of petroleum products. Unless otherwise indicated, the terms "NuStar Energy," "NS," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings or NSH) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns an approximate 11% common limited partner interest in us as of June 30, 2017.

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). We have three business segments: pipeline, storage and fuels marketing.

### **Recent Developments**

Navigator Acquisition and Financing Transactions. On May 4, 2017, we completed the acquisition of Navigator Energy Services, LLC for approximately \$1.5 billion (the Navigator Acquisition), subject to customary adjustments at and following closing. In order to fund the purchase price, we issued 14,375,000 common units for net proceeds of \$657.5 million, issued \$550.0 million of 5.625% senior notes for net proceeds of \$543.3 million and issued 15,400,000 of our 7.625% Series B Fixed-to-Floating Rate Cumulative Redeemable Perpetual Preferred Units (Series B Preferred Units) for net proceeds of \$371.8 million. Please refer to Notes 3, 4 and 10 for further discussion.

Axeon Term Loan. On February 22, 2017, we settled and terminated the \$190.0 million term loan to Axeon Specialty Products, LLC (the Axeon Term Loan), pursuant to which we also provided credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$125.0 million to Axeon Specialty Products, LLC (Axeon). We received \$110.0 million in settlement of the Axeon Term Loan, and our obligation to provide ongoing credit support to Axeon ceased. Please refer to Note 6 for further discussion of the Axeon Term Loan and credit support.

### Basis of Presentation

These unaudited condensed consolidated financial statements include the accounts of the Partnership and subsidiaries in which the Partnership has a controlling interest. Inter-partnership balances and transactions have been eliminated in consolidation.

These unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and notes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included, and all disclosures are adequate. All such adjustments are of a normal recurring nature unless disclosed otherwise. Financial information for the three and six months ended June 30, 2017 and 2016 included in these Condensed Notes to Consolidated Financial Statements is derived from our unaudited condensed consolidated financial statements. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. The consolidated balance sheet as of December 31, 2016 has been derived from the audited consolidated financial statements as of that date. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016.

### 2. NEW ACCOUNTING PRONOUNCEMENTS

### **Unit-Based Payments**

In May 2017, the Financial Accounting Standards Board (FASB) issued amended guidance that clarifies when a change to the terms and conditions of a unit-based payment award is accounted for as a modification. Under the amended guidance, an entity will apply modification accounting if the value, vesting or classification of the unit-based payment award changes. The guidance is effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied prospectively. We will adopt these provisions January 1, 2018, and we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

### **Defined Benefit Plans**

In March 2017, the FASB issued amended guidance that changes the presentation of net periodic pension cost related to defined benefit plans. Under the amended guidance, the service cost component of net periodic benefit cost will be presented in the same income statement line items as other current employee compensation costs, but the remaining components of net periodic benefit cost will be presented outside of operating income. The changes are effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied retrospectively. We will adopt these provisions January 1, 2018, and we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

#### Goodwill

In January 2017, the FASB issued amended guidance that simplifies the accounting for goodwill impairment by eliminating step 2 of the goodwill impairment test. Under the amended guidance, goodwill impairment will be measured as the excess of the reporting unit's carrying value over its fair value, not to exceed the carrying amount of goodwill for that reporting unit. The changes are effective for annual and interim periods beginning after December 15, 2019, and amendments should be applied prospectively. Early adoption is permitted for any impairment tests performed after January 1, 2017, and we are currently evaluating whether we will adopt these provisions early. Regardless of our decision, we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

### Definition of a Business

In January 2017, the FASB issued amended guidance that clarifies the definition of a business used in evaluating whether a set of transferred assets and activities constitutes a business. Under the amended guidance, if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets, the set of transferred assets and activities would not represent a business. To be considered a business, the set of assets transferred is also required to include at least one substantive process that together significantly contribute to the ability to create outputs. In addition, the amended guidance narrows the definition of outputs to be consistent with how outputs are described in the new revenue recognition standard. The changes are effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied prospectively. We are currently evaluating whether we will early adopt these provisions. We do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

#### Statement of Cash Flows

In August 2016, the FASB issued amended guidance that clarifies how entities should present certain cash receipts and cash payments on the statement of cash flows, including but not limited to debt prepayment or debt extinguishment costs, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims and distributions received from equity method investees. The changes are effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied retrospectively. We will adopt these provisions January 1, 2018, and we do not expect the guidance to have a material impact on our statements of cash flows or disclosures.

#### Credit Losses

In June 2016, the FASB issued amended guidance that requires the use of a "current expected loss" model for financial assets measured at amortized cost and certain off-balance sheet credit exposures. Under this model, entities will be required to estimate the lifetime expected credit losses on such instruments based on historical experience, current conditions, and reasonable and supportable forecasts. This amended guidance also expands the disclosure requirements to enable users of financial statements to understand an entity's assumptions, models and methods for estimating expected credit losses. The changes are effective for annual and interim periods beginning after December 15, 2019, and amendments should be applied using a modified retrospective approach. We currently expect to adopt the amended guidance on January 1, 2020 and are assessing the impact of this amended guidance on our financial position, results of operations and disclosures. We plan to provide additional information about the expected financial impact at a future date.

#### Leases

In February 2016, the FASB issued amended guidance that requires lessees to recognize the assets and liabilities that arise from most leases on the balance sheet. For lessors, this amended guidance modifies the classification criteria and the accounting for sales-type and direct financing leases. The changes are effective for annual and interim periods beginning after December 15, 2018, and amendments should be applied using a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements, with the option to use certain expedients. We currently expect to adopt these provisions on January 1, 2019. We have initiated a project to assess the impact of this amended guidance on our financial position, results of operations, disclosures and internal controls and plan to provide additional information about the expected financial impact at a future date.

#### Financial Instruments

In January 2016, the FASB issued new guidance that addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The changes are effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. We will adopt these provisions January 1, 2018, and we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

#### Revenue Recognition

In May 2014, the FASB and the International Accounting Standards Board jointly issued a comprehensive new revenue recognition standard. In August 2015, the FASB deferred the effective date by one year. The standard is now effective for public entities for annual and interim periods beginning after December 15, 2017, using one of two retrospective transition methods. Early adoption is permitted, but not before the original effective date. The FASB has subsequently issued several updates that amend and/or clarify the new revenue recognition standard. We expect to complete implementation of the new revenue recognition standard by the end of 2017. Based on our analysis completed to date, we do not believe the standard will significantly impact the amount or timing of revenues recognized under the vast majority of our revenue contracts. We currently expect to adopt the new guidance using the modified retrospective approach, under which the cumulative effect of initially applying the new guidance is recognized as an adjustment to the opening balance of retained earnings, in the first quarter of 2018. We are continuing to evaluate the impact of this new guidance on our financial position, results of operations and disclosures, including customer contracts associated with our recently closed Navigator Acquisition.

#### 3. ACQUISITIONS

### Navigator Acquisition

On April 11, 2017, we entered into a Membership Interest Purchase and Sale Agreement (the Acquisition Agreement) with FR Navigator Holdings LLC to acquire all of the issued and outstanding limited liability company interests in Navigator Energy Services, LLC (Navigator) for approximately \$1.5 billion, subject to customary adjustments at and following closing. We closed on the Navigator Acquisition on May 4, 2017 and funded the purchase price with the net proceeds of the equity and debt issuances described in Notes 4 and 10. We acquired crude oil transportation, pipeline gathering and storage assets located in the Midland Basin of West Texas consisting of: (i) more than 500 miles of crude oil gathering and transportation pipelines with approximately 92,000 barrels per day ship-or-pay volume commitments and deliverability of approximately 412,000 barrels per day; (ii) a pipeline gathering system with more than 200 connected producer tank batteries capable of more than 400,000 barrels per day of pumping capacity covering over 500,000 dedicated acres with fixed fee contracts; and (iii) approximately 1.0 million barrels of crude oil storage capacity with 440,000 barrels contracted to third parties. We collectively refer to the acquired assets as our Permian Crude System. The assets acquired are included in our pipeline segment.

The Navigator Acquisition broadens our geographic footprint by marking our entry into the Permian Basin and complements our existing asset base. We believe the Permian Crude System will provide a strong growth platform that, when coupled with our assets in the Eagle Ford region, serve to solidify our presence in two of the most prolific basins in the United States.

We accounted for the Navigator Acquisition using the acquisition method. The estimates of fair value of the assets acquired and liabilities assumed are based on preliminary assumptions, pending the completion of an independent appraisal and other evaluations as information becomes available to us. The following table reflects the preliminary purchase price allocation:

		Purchase Price ocation
	(Thousan	ds of Dollars)
Accounts receivable	\$	4,916
Other current assets		2,476
Property, plant and equipment, net		396,603
Intangible assets (a)		750,000
Goodwill (b)		326,722
Other long-term assets, net		2,125
Current liabilities		(26,971)
Preliminary purchase price allocation, net of cash acquired		1,455,871
Pending closing adjustment		20,848
Cash disbursed at closing	\$	1,476,719

- (a) Intangible assets, which consist of customer contracts and relationships, are expected to be amortized over a weighted average period of 20 years.
- (b) The goodwill acquired represents the expected benefit from entering new geographic areas and the anticipated opportunities to generate future cash flows from the assets acquired and potential future projects.

The values used in the purchase price allocation above and estimated useful lives are preliminary and subject to change after we finalize our review of the specific types, nature and condition of Navigator's property, plant and equipment and intangible assets and pending the completion of an independent appraisal. A change in the value used for property, plant and equipment or intangible assets may be significant and would cause a corresponding increase or decrease in goodwill.

The condensed statements of income include the results of operations for the Navigator commencing on May 4, 2017. For the three months ended June 30, 2017, we recognized \$9.5 million in revenues and an operating loss of \$3.4 million related to the Navigator Acquisition. Additionally, we incurred transaction costs of \$10.2 million included in "General and administrative expenses" and \$3.7 million included in "Interest expense, net" on the condensed consolidated statements of comprehensive income for the three months ended June 30, 2017.

The unaudited pro forma information for the three and six months ended June 30, 2017 and 2016 presented below combines the historical financial information for Navigator and the Partnership for those periods. The information assumes we completed the Navigator Acquisition on January 1, 2016 and the following:

- we issued approximately 14.4 million common units;
- we received a contribution from our general partner of \$13.6 million to maintain its 2% interest;
- we issued 15.4 million Series B Preferred Units;
- we issued \$550.0 million of 5.625% senior notes;
- additional depreciation and amortization that would have been incurred assuming the fair value adjustments to
  property, plant and equipment and intangible assets reflected in the preliminary purchase price allocation above have
  been applied; and
- we satisfied Navigator's outstanding obligations under its revolving credit agreement.

	T	hree Months	d June 30,		Six Months Ended June 30,				
		2017		2016		2017		2016	
	(Thousands of Dollars, Except Per Unit Data)								
Revenues	\$	439,933	\$	443,314	\$	937,317	\$	852,169	
Net income	\$	\$ 21,211		33,378	\$	63,659	\$	70,118	
Basic and diluted net (loss) income per common unit	\$	(0.03)	\$	0.15	\$	0.16	\$	0.34	

The pro forma information for the three and six months ended June 30, 2017 includes transaction costs of approximately \$14.0 million, which were directly attributable to the Navigator Acquisition. The pro forma information is unaudited and is not necessarily indicative of the results of operations that actually would have resulted had the Navigator Acquisition occurred on January 1, 2016 or that may result in the future.

### 4. DEBT

### Issuance of 5.625% Senior Notes

On April 28, 2017, NuStar Logistics issued \$550.0 million of 5.625% senior notes due April 28, 2027. We used the net proceeds of \$543.3 million from the offering to fund a portion of the purchase price for the Navigator Acquisition and to pay related fees and expenses. The interest on the 5.625% senior notes is payable semi-annually in arrears on April 28 and October 28 of each year beginning on October 28, 2017. The 5.625% senior notes do not have sinking fund requirements. These notes rank equally with existing senior unsecured indebtedness and senior to existing subordinated indebtedness of NuStar Logistics. The 5.625% senior notes contain restrictions on NuStar Logistics' ability to incur secured indebtedness unless the same security is also provided for the benefit of holders of the senior notes. In addition, the senior notes limit NuStar Logistics' ability to incur indebtedness secured by certain liens, engage in certain sale-leaseback transactions and engage in certain consolidations, mergers or asset sales. The 5.625% senior notes are fully and unconditionally guaranteed by NuStar Energy and NuPOP.

At the option of NuStar Logistics, the 5.625% senior notes may be redeemed in whole or in part at any time at a redemption price, plus accrued and unpaid interest to the redemption date. If we undergo a change of control, followed by a ratings decline within 60 days of a change of control, each holder of the notes may require us to repurchase all or a portion of its notes at a price equal to 101% of the principal amount of the notes, plus any accrued and unpaid interest to the date of repurchase.

#### Revolving Credit Agreement

During the six months ended June 30, 2017, the balance under our \$1.5 billion five-year revolving credit agreement (the Revolving Credit Agreement) decreased by \$74.2 million. The Revolving Credit Agreement matures on October 29, 2019 and bears interest, at our option, based on an alternative base rate, a LIBOR-based rate or a EURIBOR-based rate. The interest rate on the Revolving Credit Agreement is subject to adjustment if our debt rating is downgraded (or upgraded) by certain credit rating agencies. As of June 30, 2017, our weighted-average interest rate related to borrowings under the Revolving Credit Agreement was 2.8%, and we had \$764.8 million outstanding.

As of June 30, 2017, our consolidated debt coverage ratio (as defined in the Revolving Credit Agreement) could not exceed 5.50-to-1.00 as a result of the Navigator Acquisition. The requirement not to exceed a maximum consolidated debt coverage ratio may limit the amount we can borrow under the Revolving Credit Agreement to an amount less than the total amount available for borrowing. As of June 30, 2017, letters of credit issued under the Revolving Credit Agreement totaled \$7.7 million, and we had \$727.5 million available for borrowing. We believe that we are in compliance with the covenants in the Revolving Credit Agreement as of June 30, 2017.

### Gulf Opportunity Zone Revenue Bonds

In 2008, 2010 and 2011, the Parish of St. James, Louisiana issued, pursuant to the Gulf Opportunity Zone Act of 2005, an aggregate \$365.4 million of tax-exempt revenue bonds (the GoZone Bonds) associated with our St. James, Louisiana terminal expansions. The GoZone Bonds bear interest based on a weekly tax-exempt bond market interest rate, and interest is paid monthly. The weighted-average interest rate was 0.9% as of June 30, 2017. Following the issuances, the proceeds were deposited with a trustee and are disbursed to us upon our request for reimbursement of expenditures related to our St. James terminal expansions. We include the amount remaining in trust in "Other long-term assets, net," and we include the amount of bonds issued in "Long-term debt" on the consolidated balance sheets. For the six months ended June 30, 2017, we did not receive any proceeds from the trustee, and as of June 30, 2017, the amount remaining in trust totaled \$42.4 million.

### Receivables Financing Agreement

NuStar Energy and NuStar Finance LLC (NuStar Finance), a special purpose entity and wholly owned subsidiary of NuStar Energy, are parties to a \$125.0 million receivables financing agreement with third-party lenders (the Receivables Financing Agreement) and agreements with certain of NuStar Energy's wholly owned subsidiaries (collectively with the Receivables Financing Agreement, the Securitization Program). NuStar Finance's sole business consists of purchasing receivables from certain of NuStar Energy's wholly owned subsidiaries and providing these receivables as collateral under the Securitization Program. NuStar Finance is a separate legal entity and the assets of NuStar Finance, including these accounts receivable, are not available to satisfy the claims of creditors of NuStar Energy, its subsidiaries selling receivables under the Securitization

Program or their affiliates. The amount available for borrowing is based on the availability of eligible receivables and other customary factors and conditions.

Borrowings by NuStar Finance under the Receivables Financing Agreement bear interest at either the applicable commercial paper rate or the applicable bank rate, each as defined under the Receivables Financing Agreement. The Securitization Program has an initial termination date of June 15, 2018, with the option to renew for additional 364-day periods thereafter. As of June 30, 2017, \$81.7 million of our accounts receivable are included in the Securitization Program. The amount of borrowings outstanding under the Receivables Financing Agreement totaled \$53.3 million as of June 30, 2017, which is included in "Current portion of long-term debt" on the consolidated balance sheet.

### 5. COMMITMENTS AND CONTINGENCIES

We have contingent liabilities resulting from various litigation, claims and commitments. We record accruals for loss contingencies when losses are considered probable and can be reasonably estimated. Legal fees associated with defending the Partnership in legal matters are expensed as incurred. We had an accrual of \$1.7 million for contingent losses as of June 30, 2017 and none as of December 31, 2016. The amount that will ultimately be paid may differ from the recorded accruals, and the timing of such payments is uncertain. In addition, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on our results of operations, financial position or liquidity.

#### 6. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs, such as quoted prices for identical assets or liabilities in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists. We consider counterparty credit risk and our own credit risk in the determination of all estimated fair values.

### Recurring Fair Value Measurements

The following assets and liabilities are measured at fair value on a recurring basis:

	June 30, 2017							
	Level 1	Level 1 Level 2		Level 3			Total	
			(Thousands	of Do	ollars)			
Assets:								
Other current assets:								
Product imbalances	\$ 5,249	\$	_	\$	_	\$	5,249	
Total	\$ 5,249	\$	_	\$		\$	5,249	
Liabilities:								
Accrued liabilities:								
Product imbalances	\$ (3,031)	\$	_	\$	_	\$	(3,031)	
Commodity derivatives	(451)		_		_		(451)	
Interest rate swaps	_		(6,392)		_		(6,392)	
Other long-term liabilities:								
Interest rate swaps	_		(2,867)		_		(2,867)	
Total	\$ (3,482)	\$	(9,259)	\$		\$	(12,741)	

	December 31, 2016								
	Level 1 Level 2				Level 3		Total		
	 		(Thousands	of D	Pollars)				
Assets:									
Other current assets:									
Product imbalances	\$ 1,551	\$	_	\$	_	\$	1,551		
Commodity derivatives	_		155		_		155		
Other long-term assets, net:									
Interest rate swaps	_		1,314		_		1,314		
Total	\$ 1,551	\$	1,469	\$	_	\$	3,020		
Liabilities:									
Accrued liabilities:									
Product imbalances	\$ (1,577)	\$	_	\$	_	\$	(1,577)		
Commodity derivatives	(4,887)		(165)		_		(5,052)		
Other long-term liabilities:									
Guarantee liability	_		_		(1,230)		(1,230)		
Interest rate swaps	_		(2,632)		_		(2,632)		
Total	\$ (6,464)	\$	(2,797)	\$	(1,230)	\$	(10,491)		

*Product Imbalances*. Since we value our assets and liabilities related to product imbalances using quoted market prices in active markets as of the reporting date, we include these product imbalances in Level 1 of the fair value hierarchy.

Commodity Derivatives. We base the fair value of certain of our commodity derivative instruments on quoted prices on an exchange; accordingly, we include these items in Level 1 of the fair value hierarchy. We also have derivative instruments for which we determine fair value using industry pricing services and other observable inputs, such as quoted prices on an exchange for similar derivative instruments, and we include these derivative instruments in Level 2 of the fair value hierarchy. See Note 7 for a discussion of our derivative instruments.

*Interest Rate Swaps*. Because we estimate the fair value of our forward-starting interest rate swaps using discounted cash flows, which use observable inputs such as time to maturity and market interest rates, we include these interest rate swaps in Level 2 of the fair value hierarchy.

Guarantees. In 2014, we sold our remaining 50% ownership interest in Axeon and agreed to provide them with credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$125.0 million. As of December 31, 2016, we provided guarantees totaling \$54.1 million, and one guarantee that did not specify a maximum amount. Our estimate of the fair value was based on significant inputs not observable in the market and thus fell within Level 3 of the fair value hierarchy. In conjunction with the termination of the Axeon Term Loan discussed in the following section, our obligation to provide credit support to Axeon ceased.

### Fair Value of Financial Instruments

We recognize cash equivalents, receivables, payables and debt in our consolidated balance sheets at their carrying amounts. The fair values of these financial instruments, except for long-term debt, approximate their carrying amounts.

The estimated fair values and carrying amounts of long-term debt, including the current portion, and the Axeon Term Loan were as follows:

	Jı	June 30, 2017		December	r 31, 2016					
	Lo	ng-term Debt	Lon	g-term Debt	Axeo	on Term Loan				
			(Thous	ands of Dollars)						
Fair value	\$	3,591,708	\$	3,084,762	\$	110,000				
Carrying amount	\$	3,476,939	\$	3,014,364	\$	110,000				

Long-term Debt. We estimated the fair value of our publicly traded senior notes based upon quoted prices in active markets; therefore, we determined that the fair value of our publicly traded senior notes falls in Level 1 of the fair value hierarchy. For our other debt, for which a quoted market price is not available, we estimated the fair value using a discounted cash flow analysis using current incremental borrowing rates for similar types of borrowing arrangements and determined that the fair value falls in Level 2 of the fair value hierarchy.

Axeon Term Loan. In December 2016, Lindsay Goldberg LLC, the private investment firm that owned Axeon, informed us that they entered into an agreement to sell Axeon's retail asphalt sales and distribution business (the Axeon Sale), and we entered into an agreement with Axeon (the Axeon Letter Agreement) to settle and terminate the Axeon Term Loan for \$110.0 million upon closing of the Axeon Sale. Therefore, we reduced the carrying amount of the Axeon Term Loan to \$110.0 million and reclassified the Axeon Term Loan from "Other long-term assets, net" to "Other current assets" on the consolidated balance sheet as of December 31, 2016. The Axeon Sale closed on February 22, 2017, at which time we received the \$110.0 million payment in accordance with the Axeon Letter Agreement. Furthermore, the Axeon Term Loan and our obligation to provide ongoing credit support to Axeon all terminated concurrently on February 22, 2017.

### 7. DERIVATIVES AND RISK MANAGEMENT ACTIVITIES

We utilize various derivative instruments to manage our exposure to interest rate risk and commodity price risk. Our risk management policies and procedures are designed to monitor interest rates, futures and swap positions and over-the-counter positions, as well as physical commodity volumes, grades, locations and delivery schedules, to help ensure that our hedging activities address our market risks.

#### Interest Rate Risk

We are a party to certain interest rate swap agreements to manage our exposure to changes in interest rates, which include forward-starting interest rate swap agreements related to forecasted debt issuances in 2018 and 2020. We entered into these swaps in order to hedge the risk of changes in the interest payments attributable to changes in the benchmark interest rate during the period from the effective date of the swap to the issuance of the forecasted debt. Under the terms of the swaps, we pay a fixed rate and receive a rate based on the three-month USD LIBOR. These swaps qualify as cash flow hedges, and we designate them as such. We record the effective portion of mark-to-market adjustments as a component of "Accumulated other comprehensive income (loss)" (AOCI), and the amount in AOCI will be recognized in "Interest expense, net" as the forecasted interest payments occur or if the interest payments are probable not to occur. As of June 30, 2017 and December 31, 2016, the aggregate notional amount of forward-starting interest rate swaps totaled \$600.0 million.

#### Commodity Price Risk

We are exposed to market risks related to the volatility of crude oil and refined product prices. In order to reduce the risk of commodity price fluctuations with respect to our crude oil and refined product inventories and related firm commitments to purchase and/or sell such inventories, we utilize commodity futures and swap contracts, which qualify, and we designate, as fair value hedges. Derivatives that are intended to hedge our commodity price risk, but fail to qualify as fair value or cash flow hedges, are considered economic hedges, and we record associated gains and losses in net income. Our risk management committee oversees our trading controls and procedures and certain aspects of commodity and trading risk management. Our risk management committee also reviews all new commodity and trading risk management strategies in accordance with our risk management policy, as approved by our board of directors.

The volume of commodity contracts is based on open derivative positions and represents the combined volume of our long and short open positions on an absolute basis, which totaled 2.3 million barrels and 4.7 million barrels as of June 30, 2017 and December 31, 2016, respectively. We had \$0.3 million and \$1.8 million of margin deposits as of June 30, 2017 and December 31, 2016, respectively.

The fair values of our derivative instruments included in our consolidated balance sheets were as follows:

		Asset Derivatives			Liability Derivatives				
	<b>Balance Sheet Location</b>	June 30, 2017		Dec	cember 31, 2016		June 30, 2017	Dec	cember 31, 2016
					(Thousands	of D	Oollars)		
Derivatives Designated as Hedging Instruments:									
Interest rate swaps	Other long-term assets, net	\$		\$	1,314	\$		\$	
Commodity contracts	Accrued liabilities		162		144		(188)		(3,566)
Interest rate swaps	Accrued liabilities		_		_		(6,392)		
Interest rate swaps	Other long-term liabilities		_		_		(2,867)		(2,632)
Total			162		1,458		(9,447)		(6,198)
Derivatives Not Designated as Hedging Instruments:									
Commodity contracts	Other current assets		_		265		_		(110)
Commodity contracts	Accrued liabilities		1,387		9,128		(1,812)		(10,758)
Total			1,387		9,393		(1,812)		(10,868)
<b>Total Derivatives</b>		\$	1,549	\$	10,851	\$	(11,259)	\$	(17,066)

Certain of our derivative instruments are eligible for offset in the consolidated balance sheets and subject to master netting arrangements. Under our master netting arrangements, there is a legally enforceable right to offset amounts, and we intend to settle such amounts on a net basis. The following are the net amounts presented on the consolidated balance sheets:

1	ne 30,	cember 31, 2016
	 (Thousands of Doll	lars)
Net amounts of assets presented in the consolidated balance sheets	\$ — \$	155
Net amounts of liabilities presented in the consolidated balance sheets	\$ (451) \$	(5,052)

We recognize the impact of our commodity contracts on earnings in "Cost of product sales" on the condensed consolidated statements of comprehensive income, and that impact was as follows:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2017			2016		2017		2016
				(Thousands	of D	Oollars)		
Derivatives Designated as Fair Value Hedging Instruments:								
Gain (loss) recognized in income on derivative	\$	364	\$	(5,792)	\$	2,461	\$	(6,804)
(Loss) gain recognized in income on hedged item		(313)		6,938		(2,147)		9,804
Gain recognized in income for ineffective portion		51		1,146		314		3,000
Derivatives Not Designated as Hedging Instruments:								
Gain (loss) recognized in income on derivative	\$	52	\$	(724)	\$	(86)	\$	(4)

Our interest rate swaps had the following impact on earnings:

	Three Months Ended June 30,			Six Months Ended June 30,				
		2017	2016	2017	2016			
			(Thousands o	f Dollars)				
Derivatives Designated as Cash Flow Hedging Instruments:								
Loss recognized in other comprehensive income on derivative (effective portion)	\$	(7,980) \$	(20,200)	(7,941)	\$ (50,178)			
Loss reclassified from AOCI into interest expense, net (effective portion)	\$	(1,729) \$	(2,158)	(3,528)	\$ (4,380)			

As of June 30, 2017, we expect to reclassify a loss of \$5.8 million to "Interest expense, net" within the next twelve months associated with unwound forward-starting interest rate swaps.

#### 8. RELATED PARTY TRANSACTIONS

Employee Transfer from NuStar GP, LLC. On March 1, 2016, NuStar GP, LLC, the general partner of our general partner and a wholly owned subsidiary of NuStar GP Holdings, transferred and assigned to NuStar Services Company LLC (NuStar Services Co), a wholly owned subsidiary of NuStar Energy, all of NuStar GP, LLC's employees and related benefit plans, programs, contracts and policies (the Employee Transfer). As a result of the Employee Transfer, we pay employee costs directly and sponsor the long-term incentive plan and other employee benefit plans. Please refer to Note 9 for a discussion of our employee benefit plans.

*GP Services Agreement.* Prior to the Employee Transfer, our operations were managed by NuStar GP, LLC under a services agreement effective January 1, 2008, pursuant to which employees of NuStar GP, LLC performed services for our U.S. operations. Employees of NuStar GP, LLC provided services to us and NuStar GP Holdings; therefore, we reimbursed NuStar GP, LLC for all employee costs incurred prior to the Employee Transfer, other than the expenses allocated to NuStar GP Holdings. For the six months ended June 30, 2016, we reimbursed NuStar GP, LLC \$21.7 million and \$10.5 million for operating expenses and general and administrative expenses, respectively.

In conjunction with the Employee Transfer, we entered into an Amended and Restated Services Agreement with NuStar GP, LLC, effective March 1, 2016 (the Amended GP Services Agreement). The Amended GP Services Agreement provides that we will furnish administrative services necessary to conduct the business of NuStar GP Holdings. NuStar GP Holdings will compensate us for these services through an annual fee of \$1.0 million, subject to adjustment based on the annual merit increase percentage applicable to our employees for the most recently completed fiscal year and for changes in level of service. The Amended GP Services Agreement will terminate on March 1, 2020 and will automatically renew for successive two-year terms, unless terminated by either party.

### 9. EMPLOYEE BENEFIT PLANS

Effective March 1, 2016, in connection with the Employee Transfer, we assumed sponsorship and responsibility for the defined benefit plans and defined contribution plans described below. Prior to the Employee Transfer, NuStar GP, LLC sponsored and maintained these employee benefit plans and we reimbursed all costs incurred by NuStar GP, LLC related to these employee benefit plans at cost.

The NuStar Pension Plan (the Pension Plan) is a qualified non-contributory defined benefit pension plan that provides eligible U.S. employees with retirement income as calculated under a cash balance formula. The NuStar Excess Pension Plan (the Excess Pension Plan) is a nonqualified deferred compensation plan that provides benefits to a select group of management or other highly compensated employees. The Pension Plan and Excess Pension Plan are collectively referred to as the Pension Plans.

We also sponsor a contributory medical benefits plan for U.S. employees that retired prior to April 1, 2014. For employees that retire on or after April 1, 2014, we provide partial reimbursement for eligible third-party health care premiums.

The following table summarizes the components of net periodic benefit costs for the Pension Plans and other postretirement benefits on a combined basis for periods prior to the Employee Transfer and after the Employee Transfer:

	Pension	ns	Other Postretirement Benefits				
	2017		2016		2017		2016
			(Thousands	of D	ollars)		
For the three months ended June 30:							
Service cost	\$ 2,239	\$	1,926	\$	113	\$	105
Interest cost	1,127		1,006		108		100
Expected return on assets	(1,602)		(1,351)				_
Amortization of prior service credit	(516)		(516)		(286)		(286)
Amortization of net loss	371		273		48		45
Net periodic benefit cost (income)	\$ 1,619	\$	1,338	\$	(17)	\$	(36)
For the six months ended June 30:							
Service cost	\$ 4,478	\$	3,852	\$	226	\$	210
Interest cost	2,254		2,012		216		200
Expected return on assets	(3,205)		(2,703)		_		_
Amortization of prior service credit	(1,031)		(1,033)		(572)		(572)
Amortization of net loss	742		546		96		90
Net periodic benefit cost (income)	\$ 3,238	\$	2,674	\$	(34)	\$	(72)

### 10. PARTNERS' EQUITY

### Amendment of Partnership Agreement

Our general partner amended and restated our partnership agreement in connection with the issuance of the Series B Preferred Units as described below and the Navigator Acquisition to waive up to an aggregate \$22.0 million of the quarterly incentive distributions to our general partner for any NS common units issued from the date of the Acquisition Agreement (other than those attributable to NS common units issued under any equity compensation plan) for ten consecutive quarters, starting with the distributions for the second quarter of 2017.

### **Issuance of Common Units**

On April 18, 2017, we issued 14,375,000 common units representing limited partner interests at a price of \$46.35 per unit. We used the net proceeds from this offering of \$657.5 million, including a contribution of \$13.6 million from our general partner to maintain its 2% general partner interest, to fund a portion of the purchase price for the Navigator Acquisition.

#### Issuance of Series B Preferred Units

On April 28, 2017, we issued 15,400,000 of our Series B Preferred Units representing limited partner interests at a price of \$25.00 per unit. We used the net proceeds of \$371.8 million from the issuance of the Series B Preferred Units to fund a portion of the purchase price for the Navigator Acquisition and to pay related fees and expenses.

Distributions on the Series B Preferred Units are payable out of any legally available funds, accrue and are cumulative from the date of original issuance of the Series B Preferred Units and are payable on the 15<sup>th</sup> day of each of March, June, September and December of each year (beginning on September 15, 2017) to holders of record on the first day of each payment month. The initial distribution rate on the Series B Preferred Units to, but not including, June 15, 2022 is 7.625% per annum of the \$25.00 liquidation preference per unit (equal to \$1.90625 per unit per annum). On and after June 15, 2022, distributions on the Series B Preferred Units accumulate at a percentage of the \$25.00 liquidation preference equal to an annual floating rate of the three-month LIBOR plus a spread of 5.643%. The Series B Preferred Units rank equal to our Series A Preferred Units and senior to our common units with respect to distribution rights and rights upon liquidation.

At any time on or after June 15, 2022, we may redeem our Series B Preferred Units, in whole or in part, at a redemption price of \$25.00 per unit plus an amount equal to all accumulated and unpaid distributions to, but not including, the date of redemption, whether or not declared. We may also redeem the Series B Preferred Units upon the occurrence of certain rating

events or a change of control as defined in our partnership agreement. In the case of the latter instance, if we choose not to redeem the Series B Preferred Units, the preferred unitholders may have the ability to convert the Series B Preferred Units to common units at the then applicable conversion rate. Holders of the Series B Preferred Units have no voting rights except for certain exceptions set forth in our partnership agreement.

### Partners' Equity Activity

The following table summarizes changes to our partners' equity (in thousands of dollars):

Balance as of January 1, 2017	\$ 1,611,617
Net income	84,190
Unit-based compensation expense	2,564
Other comprehensive income	4,894
Distributions to partners	(230,902)
Issuance of preferred and common units, including contribution from general partner	1,029,257
Other	(571)
Balance as of June 30, 2017	\$ 2,501,049

### Accumulated Other Comprehensive Income (Loss)

The balance of and changes in the components included in AOCI were as follows:

	Foreign Currency ranslation	Cash Flow Hedges		Pension and Other ostretirement Benefits	Total
		(Thousands	of D	Pollars)	
Balance as of January 1, 2017	\$ (69,069)	\$ (22,258)	\$	(2,850)	\$ (94,177)
Other comprehensive income (loss):					
Other comprehensive income (loss) before reclassification adjustments	10,072	(7,941)		_	2,131
Net gain on pension costs reclassified into operating expense	_	_		(572)	(572)
Net gain on pension costs reclassified into general and administrative expense	_	_		(193)	(193)
Net loss on cash flow hedges reclassified into interest expense, net	_	3,528		_	3,528
Other comprehensive income (loss)	10,072	(4,413)		(765)	4,894
Balance as of June 30, 2017	\$ (58,997)	\$ (26,671)	\$	(3,615)	\$ (89,283)

### Allocations of Net Income

Our partnership agreement sets forth the calculation to be used to determine the amount and priority of cash distributions that the unitholders and general partner will receive. The partnership agreement also contains provisions for the allocation of net income to the unitholders and the general partner. Our net income for each quarterly reporting period is first allocated to the preferred limited partner unitholders in an amount equal to the earned distributions for the respective reporting period and then to the general partner in an amount equal to the general partner's incentive distribution calculated based upon the declared distribution for the respective reporting period. We allocate the remaining net income or loss among the common unitholders (98%) and general partner (2%), as set forth in our partnership agreement.

The following table details the calculation of net income applicable to the general partner:

	Three Months Ended June 30,					Six Months Ended June 30,			
		2017		2016		2017		2016	
		(T	housands of Dollars, Except Percentage Data						
Net income attributable to NuStar Energy L.P.	\$	26,250	\$	52,517	\$	84,190	\$	109,918	
Less preferred limited partner interest		9,950		_		14,763		_	
Less general partner incentive distribution		10,912		10,805		23,824		21,610	
Net income after general partner incentive distribution and preferred limited partner interest		5,388		41,712		45,603		88,308	
General partner interest allocation		2%		2%		2%		2%	
General partner interest allocation of net income		108		834		912		1,766	
General partner incentive distribution		10,912		10,805		23,824		21,610	
Net income applicable to general partner	\$	11,020	\$	11,639	\$	24,736	\$	23,376	

### Cash Distributions

*General and Common Limited Partners*. The following table reflects the allocation of total cash distributions to the general partner and common limited partners applicable to the period in which the distributions were earned:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2017			2016		2017		2016
		(7	Thousands of Dollars, Except Per Unit Data)					
General partner interest	\$	2,302	\$	1,961	\$	4,645	\$	3,922
General partner incentive distribution		10,912		10,805		23,824		21,610
Total general partner distribution		13,214		12,766		28,469		25,532
Common limited partners' distribution		101,869		85,285		203,782		170,570
Total cash distributions	\$	115,083	\$	98,051	\$	232,251	\$	196,102
Cash distributions per unit applicable to common limited partners	\$	1.095	\$	1.095	\$	2.190	\$	2.190

The following table summarizes information related to our quarterly cash distributions to our general partner and common limited partners:

Quarter Ended	Dist	Cash ributions er Unit		Total Cash istributions	Record Date	Payment Date
			T)	Thousands of Dollars)		
June 30, 2017 (a)	\$	1.095	\$	115,083	August 7, 2017	August 11, 2017
March 31, 2017	\$	1.095	\$	117,168	May 8, 2017	May 12, 2017
December 31, 2016	\$	1.095	\$	98,971	February 8, 2017	February 13, 2017

<sup>(</sup>a) The distribution was announced on July 28, 2017.

*Preferred Units*. The following table summarizes information related to our quarterly cash distributions on our Series A and Series B Preferred Units:

Period	Cash Distributions Per Unit		D	Total Cash istributions Thousands of Dollars)	Record Date	Payment Date
<b>Series A Preferred Units:</b>						
June 15, 2017 - September 14, 2017 (a)	\$	0.53125	\$	4,813	September 1, 2017	September 15, 2017
March 15, 2017 - June 14, 2017	\$	0.53125	\$	4,813	June 1, 2017	June 15, 2017

<b>Series B Preferred Units:</b>						
April 28, 2017 - September 14, 2017 (a)	\$0.	725434028	\$	11,172	September 1, 2017	September 15, 2017

<sup>(</sup>a) The distribution was announced on July 28, 2017.

### 11. NET INCOME PER COMMON UNIT

Basic and diluted net income per common unit is determined pursuant to the two-class method. Under this method, all earnings are allocated to our common limited partners and participating securities based on their respective rights to receive distributions earned during the period. Participating securities include our general partner interest and restricted units awarded under our long-term incentive plan.

We compute basic net income per common unit by dividing net income attributable to common units by the weighted-average number of common units outstanding during the period. We compute diluted net income per common unit by dividing net income attributable to our common limited partners by the sum of (i) the weighted-average number of common units outstanding during the period and (ii) the effect of dilutive potential common units outstanding during the period. Dilutive potential common units include contingently issuable performance units awarded under our long-term incentive plan.

The following table details the calculation of net income per common unit:

	Three Months Ended June 30,				Six Months Ended June 30,			
		2017		2016	2017			2016
		(Thous	sand	s of Dollars, Exc	ept	Unit and Per Unit	Da	ta)
Net income attributable to NuStar Energy L.P.	\$	26,250	\$	52,517	\$	84,190	\$	109,918
Less: Distributions to general partner (including incentive distribution rights)		13,214		12,766		28,469		25,532
Less: Distributions to common limited partners		101,869		85,285		203,782		170,570
Less: Distributions to preferred limited partners		9,950		_		14,763		_
Less: Distribution equivalent rights to restricted units		712		657		1,427		1,319
Distributions in excess of earnings	\$	(99,495)	\$	(46,191)	\$	(164,251)	\$	(87,503)
Net income attributable to common units:								
Distributions to common limited partners	\$	101,869	\$	85,285	\$	203,782	\$	170,570
Allocation of distributions in excess of earnings		(97,505)		(45,267)		(160,966)		(85,752)
Total	\$	4,364	\$	40,018	\$	42,816	\$	84,818

Diluted common units outstanding:								
Basic weighted-average common units outstanding		90,345,469		77,886,219		84,526,506		77,886,148
Effect of dilutive potential common units		_		53,060		_		57,554
Diluted weighted-average common units outstanding		90,345,469		77,939,279		84,526,506		77,943,702
Basic and diluted net income per common unit	\$	0.05	\$	0.52	\$	0.51	\$	1.09

#### 12. STATEMENTS OF CASH FLOWS

Changes in current assets and current liabilities were as follows:

	Six Months Ended June 30,				
		2017		2016	
		(Thousands	of Do	of Dollars)	
Decrease (increase) in current assets:					
Accounts receivable	\$	48,875	\$	(572)	
Receivable from related party		231		_	
Inventories		13,005		99	
Other current assets		(2,388)		5,064	
Increase (decrease) in current liabilities:					
Accounts payable		(57,822)		(4,717)	
Payable to related party, net		_		697	
Accrued interest payable		6,234		(393)	
Accrued liabilities		(14,703)		(12,321)	
Taxes other than income tax		(3,094)		(348)	
Income tax payable		(5,682)		(2,783)	
Changes in current assets and current liabilities	\$	(15,344)	\$	(15,274)	

The above changes in current assets and current liabilities differ from changes between amounts reflected in the applicable consolidated balance sheets due to:

- current assets and current liabilities acquired during the period;
- · the change in the amount accrued for capital expenditures; and
- the effect of foreign currency translation.

Cash flows related to interest and income taxes were as follows:

	Six Months Ended June 30,				
	2017		2016		
	 (Thousands of Dollars)				
Cash paid for interest, net of amount capitalized	\$ 70,119	\$	70,280		
Cash paid for income taxes, net of tax refunds received	\$ 9,556	\$	8,826		

### 13. SEGMENT INFORMATION

Our reportable business segments consist of pipeline, storage and fuels marketing. Our segments represent strategic business units that offer different services and products. We evaluate the performance of each segment based on its respective operating income, before general and administrative expenses and certain non-segmental depreciation and amortization expense. General and administrative expenses are not allocated to the operating segments since those expenses relate primarily to the overall management at the entity level. Our principal operations include the transportation of petroleum products and anhydrous ammonia, the terminalling and storage of petroleum products and the marketing of petroleum products. Intersegment revenues result from storage agreements with wholly owned subsidiaries of NuStar Energy at rates consistent with the rates charged to third parties for storage.

Results of operations for the reportable segments were as follows:

	T	hree Months	Ende	d June 30,	Six Months Ended June 30,					
		2017		2016		2017		2016		
				(Thousands	of D	ollars)

### 14. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

NuStar Energy has no operations and its assets consist mainly of its 100% indirectly owned subsidiaries, NuStar Logistics and NuPOP. The senior and subordinated notes issued by NuStar Logistics are fully and unconditionally guaranteed by NuStar Energy and NuPOP. As a result, the following condensed consolidating financial statements are presented as an alternative to providing separate financial statements for NuStar Logistics and NuPOP.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain estimates, predictions, projections, assumptions and other forward-looking statements that involve various risks and uncertainties. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested in this report. These forward-looking statements can generally be identified by the words "anticipates," "believes," "expects," "plans," "intends," "estimates," "forecasts," "budgets," "projects," "will," "could," "should," "may" and similar expressions. These statements reflect our current views with regard to future events and are subject to various risks, uncertainties and assumptions. Please read our Annual Report on Form 10-K for the year ended December 31, 2016, Part I, Item 14 "Risk Factors," as well as our subsequent current and quarterly reports, for a discussion of certain of those risks, uncertainties and assumptions.

If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those described in any forward-looking statement. Other unknown or unpredictable factors could also have material adverse effects on our future results. Readers are cautioned not to place undue reliance on this forward-looking information, which is as of the date of this Form 10-Q. We do not intend to update these statements unless we are required by the securities laws to do so, and we undertake no obligation to publicly release the result of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

### **OVERVIEW**

NuStar Energy L.P. (NYSE: NS) is engaged in the transportation of petroleum products and anhydrous ammonia, and the terminalling, storage and marketing of petroleum products. Unless otherwise indicated, the terms "NuStar Energy," "NS," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings or NSH) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns an approximate 11% common limited partner interest in us as of June 30, 2017. Our Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in seven sections:

- Overview
- Results of Operations
- Trends and Outlook
- Liquidity and Capital Resources
- Related Party Transactions
- Critical Accounting Policies
- New Accounting Pronouncements

### **Recent Developments**

Navigator Acquisition and Financing Transactions. On May 4, 2017, we completed the acquisition of Navigator Energy Services, LLC for approximately \$1.5 billion (the Navigator Acquisition), subject to customary adjustments at and following closing. In order to fund the purchase price, we issued 14,375,000 common units for net proceeds of \$657.5 million, issued \$550.0 million of 5.625% senior notes for net proceeds of \$543.3 million and issued 15,400,000 of our 7.625% Series B Fixed-to-Floating Rate Cumulative Redeemable Perpetual Preferred Units (Series B Preferred Units) for net proceeds of \$371.8 million. We collectively refer to the acquired assets as our Permian Crude System. The assets acquired are included in our pipeline segment. Please refer to Notes 3, 4 and 10 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for further discussion.

Axeon Term Loan. On February 22, 2017, we settled and terminated the \$190.0 million term loan to Axeon Specialty Products, LLC (the Axeon Term Loan), pursuant to which we also provided credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$125.0 million to Axeon Specialty Products, LLC (Axeon). We received \$110.0 million in settlement of the Axeon Term Loan, and our obligation to provide ongoing credit support to Axeon ceased. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" further discussion of the Axeon Term Loan and credit support.

### **Operations**

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). Our operations consist of three reportable business segments: pipeline, storage and fuels marketing.

*Pipeline.* We own 3,140 miles of refined product pipelines and 1,830 miles of crude oil pipelines and gathering lines, as well as approximately 5.0 million barrels of storage capacity, which comprise our Central West System. In addition, we own 2,370 miles of refined product pipelines, consisting of the East and North Pipelines, and a 2,000-mile ammonia pipeline (the Ammonia Pipeline), which together comprise our Central East System. The East and North Pipelines have storage capacity of approximately 6.7 million barrels. We charge tariffs on a per barrel basis for transporting refined products, crude oil and other feedstocks in our refined product and crude oil pipelines and on a per ton basis for transporting anhydrous ammonia in the Ammonia Pipeline.

Storage. We own terminals and storage facilities in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, and the United Kingdom (UK), with approximately 84.9 million barrels of storage capacity. Revenues for the storage segment include fees for tank storage agreements, whereby a customer agrees to pay for a certain amount of storage in a tank over a period of time (storage terminal revenues), and throughput agreements, whereby a customer pays a fee per barrel for volumes moving through our terminals (throughput terminal revenues).

*Fuels Marketing*. Within our fuels marketing operations, we purchase refined petroleum products for resale. The results of operations for the fuels marketing segment depend largely on the margin between our cost and the sales prices of the products we market. Therefore, the results of operations for this segment are more sensitive to changes in commodity prices compared to the operations of the pipeline and storage segments. We enter into derivative contracts to attempt to mitigate the effects of commodity price fluctuations.

During the second quarter of 2017, we ceased marketing crude oil. Also, we began the process of exiting our heavy fuels trading operations, which we expect to complete in the third quarter of 2017. These decisions are in line with our goal of reducing our exposure to commodity margins, and instead focusing on our core, fee-based pipeline and storage segments. Going forward, the only operations remaining in our fuels marketing segment will be our bunkering operations at our St. Eustatius and Texas City terminals, as well as our butane blending operations on our East Pipeline.

The following factors affect the results of our operations:

- company-specific factors, such as facility integrity issues and maintenance requirements that impact the throughput rates of our assets;
- seasonal factors that affect the demand for products transported by and/or stored in our assets and the demand for products we sell;
- industry factors, such as changes in the prices of petroleum products that affect demand and operations of our competitors;
- economic factors, such as commodity price volatility that impact our fuels marketing segment and the drilling activity by our crude oil production customers; and
- factors that impact the operations served by our pipeline and storage assets, such as utilization rates and
  maintenance turnaround schedules of our refining company customers and drilling activity by our crude oil
  production customers.

### **Current Market Conditions**

While the price of crude oil has recovered modestly since its sharp initial decline in 2015 and subsequent historic lows during 2016, energy industry experts currently expect crude oil prices to see only a modest price recovery, with some continued volatility, in the second half of 2017.

Increases or decreases in the price of crude oil affect various sectors of the energy industry, including our customers in crude oil production, refining and trading, in different ways. For example, the sustained period of low prices forced crude oil producers to reduce their capital spending and drilling activity and some producers narrowed their focus to assets in the most cost-advantaged regions. On the other hand, while some refiners have benefitted from lower crude oil prices, particularly to the extent the lower feedstock price has been coupled with higher demand for certain refined products in some regional markets, increases in refined product inventory may cause some refiners to reduce their production levels.

# **RESULTS OF OPERATIONS**

# Three Months Ended June 30, 2017 Compared to Three Months Ended June 30, 2016

# **Financial Highlights**

(Unaudited, Thousands of Dollars, Except Unit and Per Unit Data)

		Three Months

Basic weighted-average common units outstanding		90,345,469	77,886,219	12,459,250

# Overview

Net income decreased \$26.3 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to increased interest expense, increased general and administrative expenses and decreased segment operating income. Within segment operating income, decreased segment operating income from our pipeline and fuels marketing segments was partially offset by an increase in segment operating income from our storage segment.

Segment Operating Highlights (Thousands of Dollars, Except Barrels/Day Information)

		2017	2016	Change

Other depreciation and amortization expense		2,199	2,134	65
Consolidated operating income	\$	73,404	\$ 91,217	\$ (17,813)

### Pipeline

Total revenues increased \$5.2 million and throughputs increased 151,343 barrels per day for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to:

- an increase in revenues of \$9.5 million and an increase in throughputs of 169,196 barrels per day resulting from our Permian Crude System acquired in the Navigator Acquisition;
- an increase in revenues of \$3.4 million and an increase in throughputs of 12,749 barrels per day on our East Pipeline due to the completion of various storage projects along the pipeline;
- an increase in revenues of \$1.7 million and an increase in throughputs of 29,610 barrels per day due to increased production at the refinery served by our McKee System pipelines; and
- an increase in revenues of \$1.4 million and an increase in throughputs of 24,619 barrels per day on our Ardmore System due to increased production at the refinery served by this system, as well as increased long-haul deliveries in 2017 due to the completion of a pipeline project in the third quarter of 2016.

These increases were partially offset by a decrease in revenues of \$7.6 million and a decrease in throughputs of 33,410 barrels per day due to a turnaround in the second quarter of 2017 at the refinery served by the North Pipeline. Revenues decreased \$2.8 million due to a decrease in throughputs of 47,447 barrels per day on our Eagle Ford System mainly due to reduced production in this sustained low crude oil price environment.

Operating expenses increased \$4.0 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, mainly as a result of our recently acquired Permian Crude System.

Depreciation and amortization expense increased \$11.8 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, mainly due to our acquisition of the Permian Crude System and the completion of various pipeline projects.

### Storage

Beginning January 1, 2017, our agreements for our refinery crude storage tanks at Corpus Christi, TX, Texas City, TX and Benicia, CA changed from throughput-based to storage-based. Excluding the effect from the change to these agreements, throughput terminal revenues would have increased \$2.7 million and throughputs would have increased 24,783 barrels per day for the three months ended June 30, 2017, compared to the three months ended June 30, 2016. Throughput terminal revenues increased \$4.0 million due to an increase in throughputs of 34,659 barrels per day at our Corpus Christi North Beach terminal, mainly resulting from our acquisition of assets from Martin Operating Partnership L.P. in December 2016 (the Martin Terminal Acquisition). The benefit of the Martin Terminal Acquisition was partially offset by decreased revenues of \$1.8 million and decreased throughputs of 35,103 barrels per day at our Paulsboro terminal as a customer diverted barrels to other terminals.

Excluding the effect of the change to the refinery storage tank agreements described above, storage terminal revenues would have increased \$3.4 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to:

- an increase in revenues of \$2.8 million at our North East Terminals, mainly resulting from increased throughput and related handling fees, new customer contracts and higher reimbursable revenues;
- an increase in revenues of \$2.3 million at our St. Eustatius terminal, mainly due to new customer contracts and rate escalations, partially offset by decreased lower throughput and related handling fees; and
- an increase in revenues of \$2.2 million at our West Coast Terminals primarily due an increase in customer base and rate escalations.

These increases were partially offset by a decrease in revenues of \$3.2 million at our Texas City terminal primarily due to a decrease in customer base and lower throughput and related handling fees.

Operating expenses remained flat for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, mainly as a result of a decrease in maintenance expenses of \$2.7 million, primarily at terminals in our northeast region, mostly offset by an increase in operating expenses of \$2.6 million resulting from the Martin Terminal Acquisition.

Depreciation and amortization expense increased \$2.1 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, as a result of the Martin Terminal Acquisition and the completion of various storage projects.

### Fuels Marketing

Segment operating income decreased \$1.1 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to lower gross margins from our bunker fuel operations, mainly at our St. Eustatius terminal.

### Consolidation and Intersegment Eliminations

Revenue and operating expense eliminations primarily relate to storage fees charged to the fuels marketing segment by the storage segment. Cost of product sales eliminations represent expenses charged to the fuels marketing segment for costs associated with inventory that are expensed once the inventory is sold.

### General

General and administrative expenses increased \$10.9 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to transaction costs related to the Navigator Acquisition.

Interest expense, net increased \$11.4 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, mainly due to the issuance of \$550.0 million of 5.625% senior notes in April 2017 and as a result of fees for a bridge loan commitment to potentially assist with the financing of the Navigator Acquisition. We did not enter into or borrow under the bridge loan. Interest expense also increased as a result of lower interest income due to the termination of the Axeon Term Loan in February 2017. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of the Axeon Term Loan and related credit support.

Income tax expense decreased \$2.6 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to a reduction in withholding taxes related to certain of our foreign subsidiaries.

### Six Months Ended June 30, 2017 Compared to Six Months Ended June 30, 2016

### **Financial Highlights**

(Unaudited, Thousands of Dollars, Except Unit and Per Unit Data)

	Six Months Ended June 30,					
	2017		2016		Change	
Statement of Income Data:						
Revenues:						
Service revenues	\$ 550,162	\$	536,969	\$	13,193	
Product sales	372,756		306,538		66,218	
Total revenues	922,918		843,507		79,411	
Costs and expenses:						
Cost of product sales	352,285		286,607		65,678	
Operating expenses	217,426		217,883		(457)	
General and administrative expenses	58,199		46,442		11,757	
Depreciation and amortization expense	124,465		106,793		17,672	
Total costs and expenses	 752,375		657,725		94,650	
Operating income	170,543		185,782		(15,239)	
Interest expense, net	(82,026)		(68,352)		(13,674)	
Other income (expense), net	228		(372)		600	
Income before income tax expense	88,745		117,058		(28,313)	
Income tax expense	4,555		7,140		(2,585)	
Net income	\$ 84,190	\$	109,918	\$	(25,728)	
Basic and diluted net income per common unit	\$ 0.51	\$	1.09	\$	(0.58)	
Basic weighted-average common units outstanding	84,526,506		77,886,148		6,640,358	

### Overview

Net income decreased \$25.7 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to increased interest expense, increased general and administrative expenses and decreased segment operating income. Segment operating income decreased due to a decline in segment operating income generated by the pipeline segment that was only partially offset by increases in segment operating income generated by our fuels marketing and storage segments.

### **Segment Operating Highlights**

#### **Pipeline**

Total revenues increased \$7.5 million and total throughputs increased 71,354 barrels per day for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to:

- an increase in revenues of \$9.5 million and an increase in throughputs of 85,066 barrels per day from our recently acquired Permian Crude System;
- an increase in revenues of \$4.8 million and an increase in throughputs of 5,218 barrels per day on our Ammonia Pipeline mainly due to an early planting season resulting from warmer weather;
- an increase in revenues of \$4.6 million and an increase in throughputs of 3,201 barrels per day on our East Pipeline due to the completion of various storage projects along the pipeline; and
- an increase in revenues of \$2.2 million and an increase in throughputs of 17,838 barrels per day due to increased production at the refinery served by our McKee System pipelines.

These increases were partially offset by a decrease in revenues of \$9.0 million and a decrease in throughputs of 17,875 barrels per day due to a turnaround in the second quarter of 2017 at the refinery served by the North Pipeline. Revenues decreased \$5.5 million due to a decrease in throughputs of 32,641 barrels per day on our Eagle Ford System mainly due to reduced production in this sustained low crude oil price environment.

Operating expenses increased \$4.1 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to our acquisition of the Permian Crude System.

Depreciation and amortization expense increased \$13.3 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, mainly due to our acquisition of the Permian Crude System and the completion of various pipeline projects.

### Storage

Beginning January 1, 2017, our agreements for our refinery crude storage tanks at Corpus Christi, TX, Texas City, TX and Benicia, CA changed from throughput-based to storage-based. Excluding the effect from the change to these agreements, throughput terminal revenues would have increased \$4.4 million and throughputs would have increased 9,133 barrels per day for the six months ended June 30, 2017, compared to the six months ended June 30, 2016. Throughput terminal revenues increased \$8.0 million due to an increase in throughputs of 28,955 barrels per day at our Corpus Christi North Beach terminal, mainly resulting from the Martin Terminal Acquisition. Revenues also increased \$0.7 million and throughputs increased 19,187 barrels per day at our McKee System terminals due to new customer contracts. These increases in revenues and throughputs were partially offset by decreased revenues of \$3.4 million and decreased throughputs of 32,694 barrels per day at our Paulsboro terminal as a customer diverted barrels to other terminals.

Excluding the effect of the change to the refinery storage tank agreements described above, storage terminal revenues would have decreased \$2.6 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016. Revenues decreased \$6.3 million at our Texas City terminals due to a decrease in customer base, lower reimbursable revenues and lower throughput and related handling fees. Revenues also decreased \$3.3 million at our Point Tupper terminal mainly resulting from a decrease in customer base. These revenue decreases were partially offset by higher revenues of \$6.3 million at our North East Terminals, mainly resulting from new customer contracts and rate escalations, as well as increased throughput and related handling fees.

Operating expenses decreased \$4.2 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to:

- a decrease of \$3.1 million in reimbursable expenses, mainly at our Texas City terminals, consistent with the decrease in reimbursable revenues at Texas City;
- a decrease of \$3.0 million in maintenance expenses primarily at terminals in our northeast region and at our Point Tupper terminal; and
- a decrease of \$1.9 million in compensation expenses resulting from changes in our revenue agreements for our crude refinery storage tanks and lower employee benefit costs.

These decreases were partially offset by increased operating expenses of \$4.7 million as a result of the Martin Terminal Acquisition.

Depreciation and amortization expense increased \$4.2 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, as a result of the Martin Terminal Acquisition and the completion of various storage projects.

## Fuels Marketing

Segment operating income increased \$4.8 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to a reduction in losses of \$7.3 million from our fuel oil trading operations due to improved gross margins and lower operating expenses. This improvement was partially offset by a decrease in segment operating income of \$1.6 million from our bunker fuel operations, mainly due to lower gross margins at our St. Eustatius terminal.

#### Consolidation and Intersegment Eliminations

Revenue and operating expense eliminations primarily relate to storage fees charged to the fuels marketing segment by the storage segment. Cost of product sales eliminations represent expenses charged to the fuels marketing segment for costs associated with inventory that are expensed once the inventory is sold.

#### General

General and administrative expenses increased \$11.8 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to transaction costs related to the Navigator Acquisition.

Interest expense, net increased \$13.7 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, mainly due to the issuance of \$550.0 million of 5.625% senior notes in April 2017 and as a result of fees for a bridge loan commitment to potentially assist with the financing of the Navigator Acquisition. We did not enter into or borrow under the bridge loan. Interest expense also increased as a result of lower interest income due to the termination of the Axeon Term Loan in February 2017. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of the Axeon Term Loan and related credit support.

Income tax expense decreased \$2.6 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily due to a reduction in withholding taxes related to certain of our foreign subsidiaries.

#### TRENDS AND OUTLOOK

Our business model is strategically diversified for stability, as well as growth: we provide a broad array of services to a diverse customer base in sectors across the energy industry with our portfolio of assets positioned in geographic markets around the globe. We believe this approach serves to both protect our results, even through challenging economic conditions, and position us for continued growth.

We believe that the fact that we provide both storage and pipeline services, for crude and refined products, to customers across the country and around the world, offers some insulation from the impact of commodity market price fluctuations on our results of operations. Since higher crude oil prices have tended to benefit our producer customers, high prices have also correlated with increased demand for our crude oil pipeline services. On the other hand, lower crude oil prices, when coupled with an industry expectation of higher prices in the future, or a contango market, has historically correlated with increased demand from trading companies for our storage services. In the locations at which our assets are integrated physically with the refineries the assets serve, we believe the results generated by those assets depend to a greater degree on each refinery's continuing need to receive, store and transport the crude and refined products than on crude or refined product prices.

The Navigator Acquisition broadened our geographic footprint and marked our entry into the Permian Basin, one of the fastest-growing basins in the United States. The Permian Basin currently represents approximately forty percent of all onshore rig activity in the United States, and rig count growth in the Permian continues to outpace all other domestic shale plays. In addition, our Permian Crude System is located in the most economic and highest growth counties in the basin, with some of the lowest break-even values in the United States, and offers our customers access to multiple downstream end-markets. We believe this system provides a strong growth platform in the most prolific basin in the United States.

While the addition of the Permian Crude System to our asset portfolio could increase the impact of crude oil prices on our results of operations, we believe that our contracts, many of which are long-term, take-or-pay arrangements for committed storage or throughput capacity, should continue to help to blunt the impact of volatility of crude oil prices on our results of operations. For example, although our assets in the Eagle Ford region have experienced lower throughputs as producers slowed production in the wake of the crude oil price downturn, the fact that we have minimum volume throughput contracts, which have terms extending into mid-2018 and beyond, with large, creditworthy customers has limited the negative impact of that slowdown on our results of operations. In addition to acreage dedication agreements for over 500,000 acres, the Permian Crude System's contracts include several long-term ship-or-pay contracts with minimum volume commitments from, as well as storage contracts with, creditworthy customers, which should serve as a buffer for our results of operations from declines in Permian Basin production.

In order to fund the purchase price for the Navigator Acquisition, we issued common units and a new series of preferred units, as well as long-term debt, which increased our common and preferred unit distributions and interest expense. However, we also expect the acquisition to increase earnings and volumes in our pipeline segment over the remainder of 2017, mainly due to the approximately 92,000 barrels per day ship-or-pay volume commitments we acquired with the Permian Crude System.

We expect our storage segment to benefit in 2017 from favorable storage contract renewals, the Martin Terminal Acquisition and lower operating expenses.

Our outlook for the partnership, both overall and for any of our segments, may change, as we base our expectations on our continuing evaluation of a number of factors, many of which are outside our control. These factors include, but are not limited to, the state of the economy and the capital markets, changes to our customers' refinery maintenance schedules and unplanned refinery downtime, crude oil prices, the supply of and demand for crude oil, refined products and anhydrous ammonia, demand for our transportation and storage services and changes in laws or regulations affecting our assets.

#### LIQUIDITY AND CAPITAL RESOURCES

#### **Overview**

Our primary cash requirements are for distributions to our partners, debt service, capital expenditures, acquisitions and operating expenses. Our partnership agreement requires that we distribute all "Available Cash" to our common limited partners and general partner each quarter, and this term is defined in the partnership agreement generally as cash on hand at the end of the quarter, plus certain permitted borrowings made subsequent to the end of the quarter, less cash reserves determined by our board of directors.

Each year, our objective is to fund our total annual reliability capital expenditures and distribution requirements with our net cash provided by operating activities during that year. If we do not generate sufficient cash from operations to meet that objective, we utilize cash on hand or other sources of cash flow, which in the past have primarily included borrowings under our revolving credit agreement, sales of non-strategic assets and, to the extent necessary, funds raised through equity or debt offerings under our shelf registration statements. We have typically funded our strategic capital expenditures and acquisitions from external sources, primarily borrowings under our revolving credit agreement or funds raised through equity or debt offerings. However, our ability to raise funds by issuing debt or equity depends on many factors beyond our control. Our risk factors in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016 describe the risks inherent to these sources of funding and the availability thereof.

During periods when our cash flow from operations is less than our distribution and reliability capital requirements, we may maintain our distribution level because we can utilize other sources of Available Cash, as provided in our partnership agreement, including borrowings under our revolving credit agreement and proceeds from the sales of assets. Our risk factors in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016 describe the risks inherent in our ability to maintain or grow our distribution.

For 2017, we expect an increase in total cash distributed to our unitholders and higher interest costs due to our issuances in April 2017 of (i) 14,375,000 common units, (ii) 15,400,000 of 7.625% Series B Preferred Units and (iii) \$550.0 million of 5.625% senior notes. See below for additional discussion of these equity and debt issuances. However, we expect cash flow from operations, combined with a portion of the proceeds from the termination of the Axeon Term Loan of \$110.0 million to cover our distribution and reliability capital requirements for 2017.

#### Cash Flows for the Six Months Ended June 30, 2017 and 2016

The following table summarizes our cash flows from operating, investing and financing activities:

	Six Months Ended June 30,				
	2017			2016	
	(Thousands of Dollars)				
Net cash provided by (used in):					
Operating activities	\$	208,988	\$	215,033	
Investing activities		(1,466,751)		(108,035)	
Financing activities		1,250,363		(127,230)	
Effect of foreign exchange rate changes on cash		649		4,389	
Net decrease in cash and cash equivalents	\$	(6,751)	\$	(15,843)	

Net cash provided by operating activities for the six months ended June 30, 2017 was \$209.0 million, compared to \$215.0 million for the six months ended June 30, 2016, primarily due to lower net income in 2017. See "Working Capital Requirements" below for a discussion of changes in working capital.

For the six months ended June 30, 2017, net cash provided by operating activities and a portion of the proceeds from the termination of the Axeon Term Loan of \$110.0 million were used to fund our distributions to unitholders and our general partner in the aggregate amount of \$226.8 million and reliability capital expenditures of \$15.4 million. The remaining proceeds from the termination of the Axeon Term Loan and the proceeds from debt borrowings, net of repayments, were used to fund our strategic capital expenditures of \$93.4 million. Proceeds from our debt and equity issuances of approximately \$1.5 billion were used to fund the purchase price of the Navigator Acquisition.

For the six months ended June 30, 2016, net cash provided by operating activities was used to fund our distributions to unitholders and our general partner in the aggregate amount of \$196.1 million and reliability capital expenditures of

\$17.3 million. The proceeds from debt borrowings, net of repayments, and cash on hand were used to fund our strategic capital expenditures.

## Revolving Credit Agreement

As of June 30, 2017, our consolidated debt coverage ratio (as defined in our revolving credit agreement) cannot exceed 5.50-to-1.00. The requirement not to exceed a maximum consolidated debt coverage ratio may limit the amount we can borrow under our revolving credit agreement to an amount less than the total amount available for borrowing. As of June 30, 2017, our consolidated debt coverage ratio was 4.6x, and we had \$727.5 million available for borrowing. Letters of credit issued under our revolving credit agreement totaled \$7.7 million as of June 30, 2017. Please refer to Note 4 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion on our revolving credit agreement.

## Other Sources of Liquidity

Other sources of liquidity as of June 30, 2017 consist of the following:

- \$365.4 million in revenue bonds pursuant to the Gulf Opportunity Zone Act of 2005 (the GoZone Bonds), with \$42.4 million remaining in the trust as of June 30, 2017, supported by \$370.2 million in letters of credit;
- a \$125.0 million receivables financing agreement between NuStar Energy, NuStar Finance LLC and third-party lenders (the Receivables Financing Agreement), with the amount available for borrowing based on the availability of eligible receivables and other customary factors and conditions; and
- two short-term line of credit agreements with an uncommitted borrowing capacity of up to \$60.0 million, with \$45.0 million of borrowings outstanding as of June 30, 2017.

We are also a party to a \$100.0 million uncommitted letter of credit agreement, which provides for standby letters of credit or guarantees with a term of up to one year (LOC Agreement). As of June 30, 2017, we had no letters of credit issued under the LOC Agreement. Please refer to Note 4 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of certain of our debt agreements.

#### **Issuance of Common Units**

On April 18, 2017, we issued 14,375,000 common units representing limited partner interests at a price of \$46.35 per unit. We used the net proceeds from this offering of \$657.5 million, including a contribution of \$13.6 million from our general partner to maintain its 2% general partner interest, to fund a portion of the purchase price for the Navigator Acquisition. Beginning with the distribution earned for the second quarter of 2017, our general partner will not receive incentive distributions with respect to these common units. Our general partner amended and restated our partnership agreement to waive up to an aggregate \$22.0 million of the quarterly incentive distributions to our general partner for any NS common units issued from the date of the Acquisition Agreement (other than those attributable to NS common units issued under any equity compensation plan) for ten consecutive quarters. Please refer to Note 10 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for further discussion.

# Issuance of Series B Preferred Units

On April 28, 2017, we issued 15,400,000 of our Series B Preferred Units representing limited partner interests at a price of \$25.00 per unit. We used the net proceeds of \$371.8 million from the issuance of the Series B Preferred Units to fund a portion of the purchase price for the Navigator Acquisition and to pay related fees and expenses. Distributions on the Series B Preferred Units are payable out of any legally available funds, accrue and are cumulative from the date of original issuance of the Series B Preferred Units and are payable on the 15<sup>th</sup> day of each of March, June, September and December of each year (beginning on September 15, 2017) to holders of record on the first day of each payment month. The initial distribution rate on the Series B Preferred Units to, but not including, June 15, 2022 is 7.625% per annum of the \$25.00 liquidation preference per unit (equal to \$1.90625 per unit per annum). On and after June 15, 2022, distributions on the Series B Preferred Units accumulate at a percentage of the \$25.00 liquidation preference equal to an annual floating rate of the three-month LIBOR plus a spread of 5.643%. Please refer to Note 10 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for further discussion.

#### Issuance of 5.625% Senior Notes

On April 28, 2017, NuStar Logistics issued \$550.0 million of 5.625% senior notes due April 28, 2027. We used the net proceeds of \$543.3 million from the offering to fund a portion of the purchase price for the Navigator Acquisition and to pay related fees and expenses. The interest on the 5.625% senior notes is payable semi-annually in arrears on April 28 and October 28 of each year beginning on October 28, 2017. The 5.625% senior notes do not have sinking fund requirements. These notes rank equally with existing senior unsecured indebtedness and senior to existing subordinated indebtedness of NuStar Logistics. The 5.625% senior notes contain restrictions on NuStar Logistics' ability to incur secured indebtedness unless the same security is also provided for the benefit of holders of the senior notes. In addition, the senior notes limit NuStar Logistics' ability to incur indebtedness secured by certain liens, engage in certain sale-leaseback transactions and engage in certain consolidations,

mergers or asset sales. Please refer to Note 4 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for further discussion.

#### Capital Requirements

Our operations require significant investments to maintain, upgrade or enhance the operating capacity of our existing assets. Our capital expenditures consist of:

- strategic capital expenditures, such as those to expand or upgrade the operating capacity, increase efficiency or
  increase the earnings potential of existing assets, whether through construction or acquisition, as well as certain capital
  expenditures related to support functions; and
- reliability capital expenditures, such as those required to maintain the existing operating capacity of existing assets or extend their useful lives, as well as those required to maintain equipment reliability and safety.

The following table summarizes our capital expenditures, and the amount we expect to spend for 2017:

	Strategic Capital Expenditures			Reliability Capital Expenditures	Total
			(T	housands of Dollars)	
For the six months ended June 30:					
2017	\$	93,447	\$	15,402	\$ 108,849
2016	\$	78,039	\$	17,322	\$ 95,361
Expected for the year ended December 31, 2017 (a)	\$	380,000 - 420,000	\$	35,000 - 55,000	\$ 415,000 - 475,000

(a) Excludes the Navigator Acquisition.

We continue to evaluate our capital spending forecast and make changes as economic conditions warrant, and our actual capital expenditures for 2017 may increase or decrease from our current projections. We believe we can fund our currently expected capital expenditures with cash on hand, combined with the sources of liquidity previously described. Our internal growth projects can be accelerated or scaled back depending on market conditions or customer demand.

# Working Capital Requirements

Working capital requirements, particularly in our fuels marketing segment, may vary with the seasonality of demand and the volatility of commodity prices for the products we market. This seasonality in demand and the volatility of commodity prices affect our accounts receivable and accounts payable balances, which vary depending on the timing of payments.

#### Axeon Term Loan and Credit Support

On February 22, 2017, we settled and terminated the \$190.0 million Axeon Term Loan, pursuant to which we also provided credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$125.0 million to Axeon. We received \$110.0 million in settlement of the Axeon Term Loan, and our obligation to provide ongoing credit support to Axeon ceased. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of the Axeon Term Loan and credit support.

#### Distributions

*General and Common Limited Partners*. The following table reflects the allocation of total cash distributions to the general and common limited partners applicable to the period in which the distributions were earned:

	Three Months Ended June 30,				Six Months Ended June 30,				
	2017			2016	2017			2016	
		(7	Γhous	ands of Dollars,	Exce	pt Per Unit Dat	a)		
General partner interest	\$	2,302	\$	1,961	\$	4,645	\$	3,922	
General partner incentive distribution		10,912		10,805		23,824		21,610	
Total general partner distribution		13,214		12,766		28,469		25,532	
Common limited partners' distribution		101,869		85,285		203,782		170,570	
Total cash distributions	\$	115,083	\$	98,051	\$	232,251	\$	196,102	
Cash distributions per unit applicable to common limited partners	\$	1.095	\$	1.095	\$	2.190	\$	2.190	

Distribution payments to our general and common limited partners are made within 45 days after the end of each quarter as of a record date that is set after the end of each quarter. The following table summarizes information related to our quarterly cash distributions to our general and common limited partners:

Quarter Ended	Cash stributions Per Unit		Total Cash Distributions	Record Date	Payment Date		
		(Tl	housands of Dollars)				
June 30, 2017 (a)	\$ 1.095	\$	115,083	August 7, 2017	August 11, 2017		
March 31, 2017	\$ 1.095	\$	117,168	May 8, 2017	May 12, 2017		
December 31, 2016	\$ 1.095	\$	98,971	February 8, 2017	February 13, 2017		

<sup>(</sup>a) The distribution was announced on July 28, 2017.

Preferred Units. The following table summarizes information related to our quarterly cash distributions on our Series A and Series B Preferred Units:

Period	Cash Distributions Per Unit			Total Cash Distributions	Record Date	Payment Date
			(	Thousands of Dollars)		
Series A Preferred Units:						
June 15, 2017 - September 14, 2017 (a)	\$	0.53125	\$	4,813	September 1, 2017	September 15,
March 15, 2017 - June 14, 2017	\$	0.53125	\$	4,813	June 1, 2017	June 15, 2017
November 25, 2016 - March 14, 2017	\$	0.64930556	\$	5,883	March 1, 2017	March 15, 2017
Series B Preferred Units:						
April 28, 2017 - September 14, 2017 (a)	\$	0.725434028	\$	11,172	September 1, 2017	September 15,
(a) The distribution was announced or	· In	ly 28 2017				2017

<sup>(</sup>a) The distribution was announced on July 28, 2017.

#### **Debt Obligations**

As of June 30, 2017, we were a party to the following debt agreements:

- Revolving credit agreement due October 29, 2019, with \$764.8 million of borrowings outstanding as of June 30, 2017;
- 7.65% senior notes due April 15, 2018 with a face value of \$350.0 million; 4.80% senior notes due September 1, 2020 with a face value of \$450.0 million; 6.75% senior notes due February 1, 2021 with a face value of \$300.0 million; 4.75% senior notes due February 1, 2022 with a face value of \$250.0 million; 5.625% senior notes due April 28, 2027 with a face value of \$550.0 million; and 7.625% subordinated notes due January 15, 2043 with a face value of \$402.5 million.
- \$365.4 million in GoZone Bonds due from 2038 to 2041;
- Line of credit agreements with \$45.0 million of borrowings outstanding as of June 30, 2017; and
- Receivables Financing Agreement due June 15, 2018, with \$53.3 million of borrowings outstanding as of June 30, 2017.

Management believes that, as of June 30, 2017, we are in compliance with the ratios and covenants contained in our debt instruments. A default under certain of our debt agreements would be considered an event of default under other of our debt instruments. Please refer to Note 4 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of certain of our debt agreements.

#### **Credit Ratings**

The following table reflects the current outlook and ratings that have been assigned to our debt:

	Standard & Poor's Ratings Services	Moody's Investor Service Inc.	Fitch, Inc.
Ratings	BB+	Ba1	BB
Outlook	Stable	Negative	Stable

Following the announcement of the Navigator Acquisition, Standard & Poor's Ratings Services and Fitch, Inc. affirmed their ratings and outlook, and Moody's Investor Service Inc. (Moody's) announced that it was reviewing NuStar Energy and NuStar Logistics for a downgrade. Following their review in the second quarter, Moody's affirmed their rating and changed their outlook to "Negative." The change in outlook had no impact on the interest rates payable on the 7.65% senior notes due 2018 or the revolving credit agreement, which are subject to adjustment if our debt rating is downgraded (or upgraded) by certain credit rating agencies, but are not impacted by a change in the outlook.

# **Interest Rate Swaps**

As of June 30, 2017 and December 31, 2016, we were a party to forward-starting interest rate swap agreements for the purpose of hedging interest rate risk. As of June 30, 2017 and December 31, 2016, the aggregate notional amount of these forward-starting interest rate swaps was \$600.0 million. Please refer to Note 7 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

## Environmental, Health and Safety

Our operations are subject to extensive federal, state and local environmental laws and regulations, in the U.S. and in the other countries in which we operate, including those relating to the discharge of materials into the environment, waste management, remediation, the characteristics and composition of fuels and pollution prevention measures, among others. Our operations are also subject to extensive federal, state and local health and safety laws and regulations, including those relating to worker and pipeline safety, pipeline integrity and operator qualifications. Because more stringent environmental and safety laws and regulations are continuously being enacted or proposed, the level of future expenditures required for environmental, health and safety matters is expected to increase in the future.

#### **Contingencies**

We are subject to certain loss contingencies, the outcomes of which could have an adverse effect on our cash flows and results of operations, as further disclosed in Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements."

#### RELATED PARTY TRANSACTIONS

Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of our related party transactions.

# CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016.

#### NEW ACCOUNTING PRONOUNCEMENTS

Please refer to Note 2 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of new accounting pronouncements.

# Item 3. Quantitative and Qualitative Disclosures About Market Risk

## Interest Rate Risk

We manage our exposure to changing interest rates principally through the use of a combination of fixed-rate debt and variable-rate debt. In addition, we utilize forward-starting interest rate swap agreements to lock in the rate on the interest payments related to forecasted debt issuances. Borrowings under our variable-rate debt expose us to increases in interest rates.

Please refer to Note 7 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps. The following tables present principal cash flows and related weighted-average interest rates by expected maturity dates for our long-term debt:

June 30, 2017

					, .			
			Expected	d Maturity Date	s			
	2017	2018	2019	2020	2021	There- after	Total	Fair Value

\$ 600,000	\$	600,000		2.7%	2.7%	\$	(9,259)	\$	(1,318)		

## Commodity Price Risk

Since the operations of our fuels marketing segment expose us to commodity price risk, we use derivative instruments to attempt to mitigate the effects of commodity price fluctuations. The derivative instruments we use consist primarily of commodity futures and swap contracts. We have a risk management committee that oversees our trading policies and procedures and certain aspects of risk management. Our risk management committee also reviews all new risk management strategies in accordance with our risk management policy, as approved by our board of directors.

We record commodity derivative instruments in the consolidated balance sheets at fair value. We recognize mark-to-market adjustments for derivative instruments designated and qualifying as fair value hedges (Fair Value Hedges) and the related change in the fair value of the associated hedged physical inventory or firm commitment within "Cost of product sales." For derivative instruments that have associated underlying physical inventory but do not qualify for hedge accounting (Economic Hedges and Other Derivatives), we record the mark-to-market adjustments in "Cost of product sales."

The commodity contracts disclosed below represent only those contracts exposed to commodity price risk at the end of the period. Please refer to Note 7 of Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for the volume and related fair value of all commodity contracts.

# Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management has evaluated, with the participation of the principal executive officer and principal financial officer of NuStar GP, LLC, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15 (e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, and has concluded that our disclosure controls and procedures were effective as of June 30, 2017.

(b) Changes in internal control over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

# PART II - OTHER INFORMATION

# Item 6. Exhibits

Exhibit Number	Description
2.01	Membership Interest Purchase and Sale Agreement, dated April 11, 2017, by and between NuStar Logistics, L.P., NuStar Energy L.P. and FR Navigator Holdings LLC (incorporated by reference to Exhibit 2.1 to NuStar Energy L.P.'s Current Report on Form 8-K filed April 11, 2017 (File No. 001-16417))
3.01	Fifth Amended and Restated Agreement of Limited Partnership of NuStar Energy L.P., dated as of April 28, 2017 (incorporated by reference to Exhibit 3.1 to NuStar Energy L.P.'s Current Report on Form 8-K filed April 28, 2017 (File No. 001-16417))
4.01	Eighth Supplemental Indenture, dated as of April 28, 2017, among NuStar Logistics, L.P., as Issuer, NuStar Energy L.P., as Guarantor, and Wells Fargo Bank, National Association, as Successor Trustee (incorporated by reference to Exhibit 4.4 to NuStar Energy L.P.'s Current Report on Form 8-K filed April 28, 2017 (File No. 001-16417))
10.01	Ninth Amendment to Letter of Credit Agreement, dated as of April 17, 2017, among NuStar Logistics, L.P., NuStar Energy L.P., the Lenders party thereto and Mizuho Bank, Ltd., as Issuing Bank and Administrative Agent (incorporated by reference to Exhibit 10.03 to NuStar Energy L.P.'s Quarterly Report on Form 10-Q for the quarter ended March 31, 2017 (File No. 001-16417))
*10.02	Maturity Extension Letter (Amendment No. 4) to Letter of Credit Agreement and Subsidiary Guaranty Agreement dated as of July 13, 2017 among NuStar Logistics, L.P., NuStar Energy L.P., the Lenders party thereto and The Bank of Tokyo-Mitsubishi UFJ, Ltd., as Issuing Bank and Administrative Agent
*12.01	Statement of Computation of Ratio of Earnings to Fixed Charges
*31.01	Rule 13a-14(a) Certification (under Section 302 of the Sarbanes-Oxley Act of 2002) of principal executive officer
