Forward Looking Statements

Statements contained in this presentation that state management's expectations or predictions of the future are forward-looking statements as defined by federal securities law. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested in this presentation. These forward-looking statements can generally be identified by the words "anticipates," "believes," "expects," "plans," "intends," "estimates," "forecasts," "budgets," "projects," "could," "should," "may" and similar expressions. These statements reflect our current views with regard to future events and are subject to various risks, uncertainties and assumptions.

We undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in the company's expectations. For more information concerning factors that could cause actual results to differ from those expressed or forecasted, see NuStar Energy L.P.'s annual report on Form 10-K and quarterly reports on Form 10-Q, filed with the SEC and available on NuStar's website at www.nustarenergy.com.

We use financial measures in this presentation that are not calculated in accordance with generally accepted accounting principles ("non-GAAP") and our reconciliations of non-GAAP financial measures to GAAP financial measures are located in the appendix to this presentation. These non-GAAP financial measures should not be considered an alternative to GAAP financial measures.

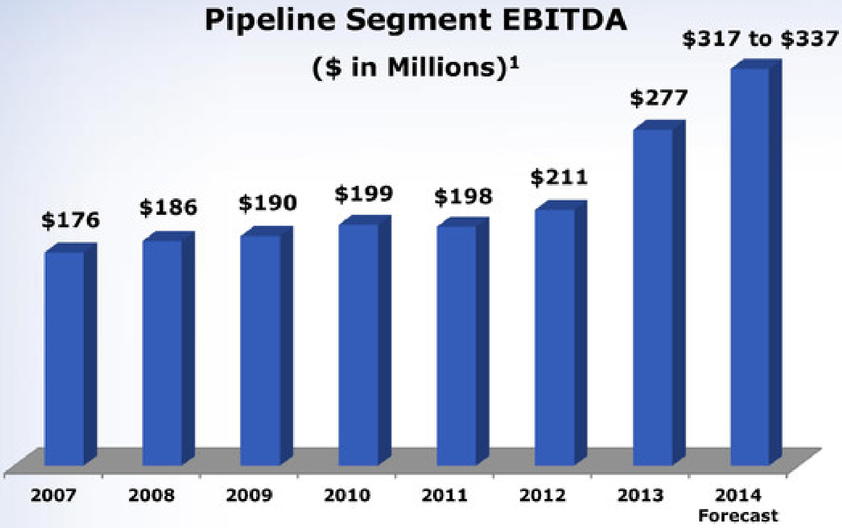
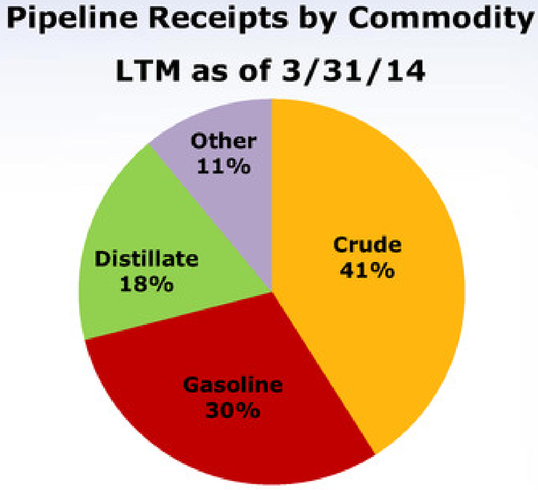
Pipeline Segment Update
NuStar

Growth in Eagle Ford Shale Region Leading to Growth in Pipeline Segment EBITDA





*Other includes ammonia, jet fuel, propane, naphtha and light end refined products

- 2014 segment EBITDA expected to be $40 to $60 million[1] higher than 2013
- Eagle Ford pipeline expansion projects completed during 2013 and 2014, increased pipeline throughputs as a result of the increased loading capabilities at our Corpus Christi North Beach Terminal and higher expected FERC tariffs, effective July 1, 2014, should contribute to higher 2014 results

1 – Please see slide 27 for a reconciliation of EBITDA to its most directly comparable GAAP measure, Operating Income

South Texas Crude Oil Pipeline Expansion

- **In December 2012, NuStar acquired 140 miles of crude oil transmission and gathering lines, as well as five storage terminals, for around $325 million**
- **Major Eagle Ford Pipeline internal growth projects completed to date include:**
  - Reactivation of Pettus to Corpus Christi pipeline
  - Reversal of 8-inch Corpus-to-Three Rivers refined products pipeline
  - Construction of a new 12-inch crude oil pipeline for Valero
  - Connection of 16-inch Corpus-to-Three Rivers crude oil pipeline to 12-inch TexStar crude oil pipeline system
  - Oakville Terminal truck offloading
  - Pawnee terminal and pipeline connection for ConocoPhillips
- **We expect these projects to earn EBITDA multiples in the range of 4x – 8x**

Cap-ex spent to date

~$325M acquisition

~$220M on internal growth

Phase 1

~35MBPD

$40M to $50M cost

Annual EBITDA around $20M[1]

Completed 2Q14

Phase 2

~65MBPD

$125M to $135M cost

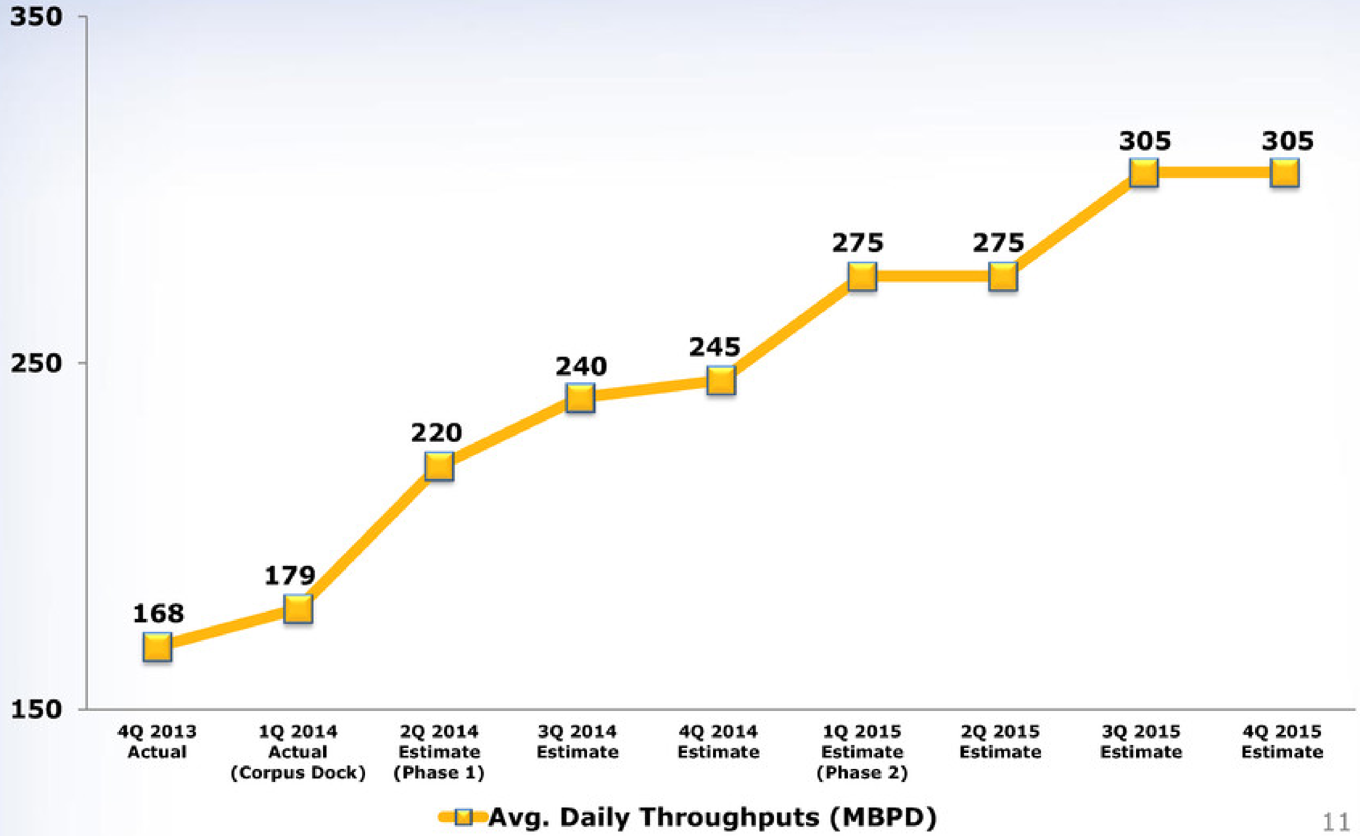
Annual EBITDA as high as $40M[1]

Startup 1Q15

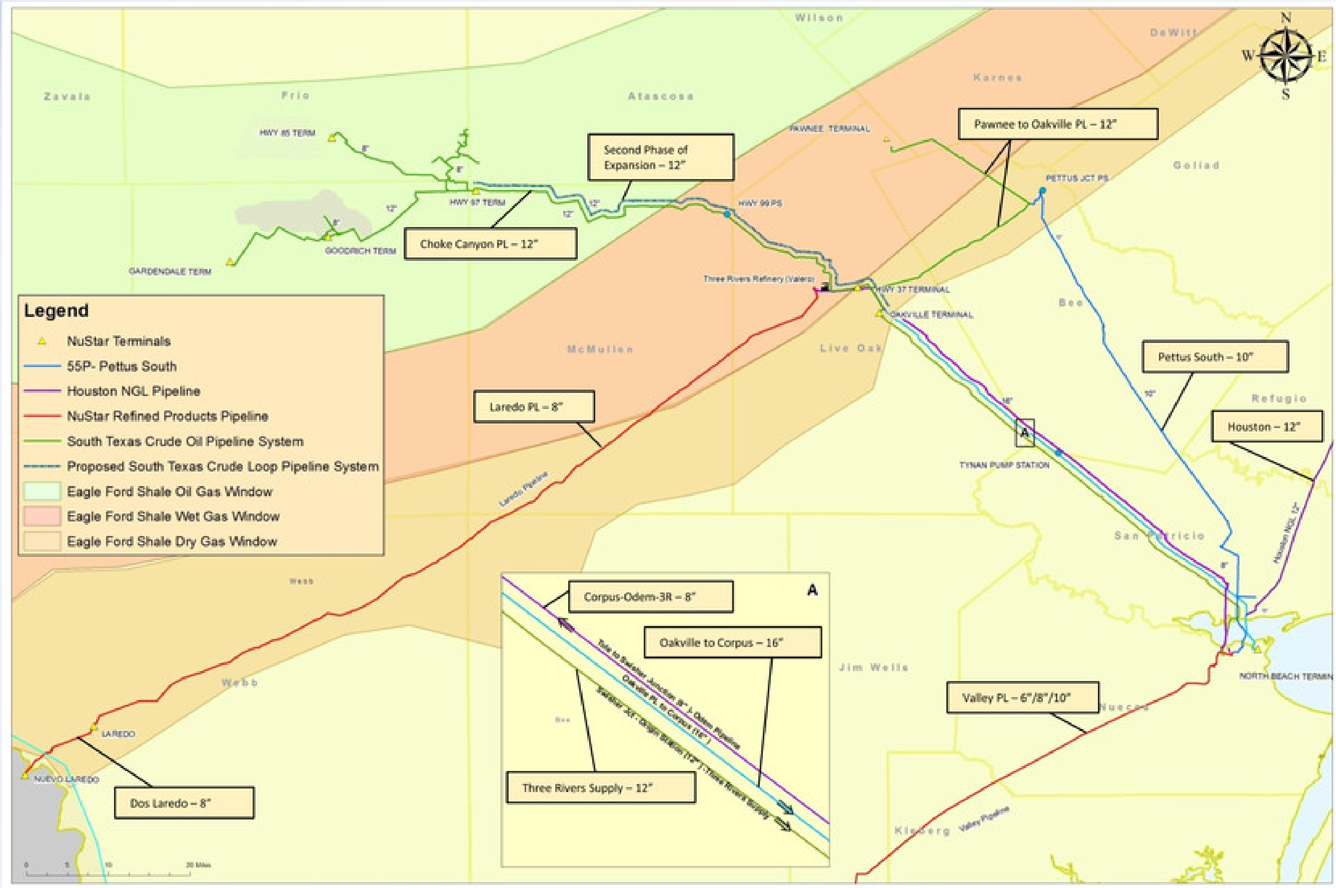
- **Total Estimated Spending:**
  - Pipeline Segment ~$700 million
  - Total (includes Storage Segment) ~$825 million

1 – Please see slide 27 for a reconciliation of EBITDA to its most directly comparable GAAP measure, Operating Income

NuStar Continues to Increase Throughputs in the Eagle Ford Shale Region



NuStar's Eagle Ford Presence



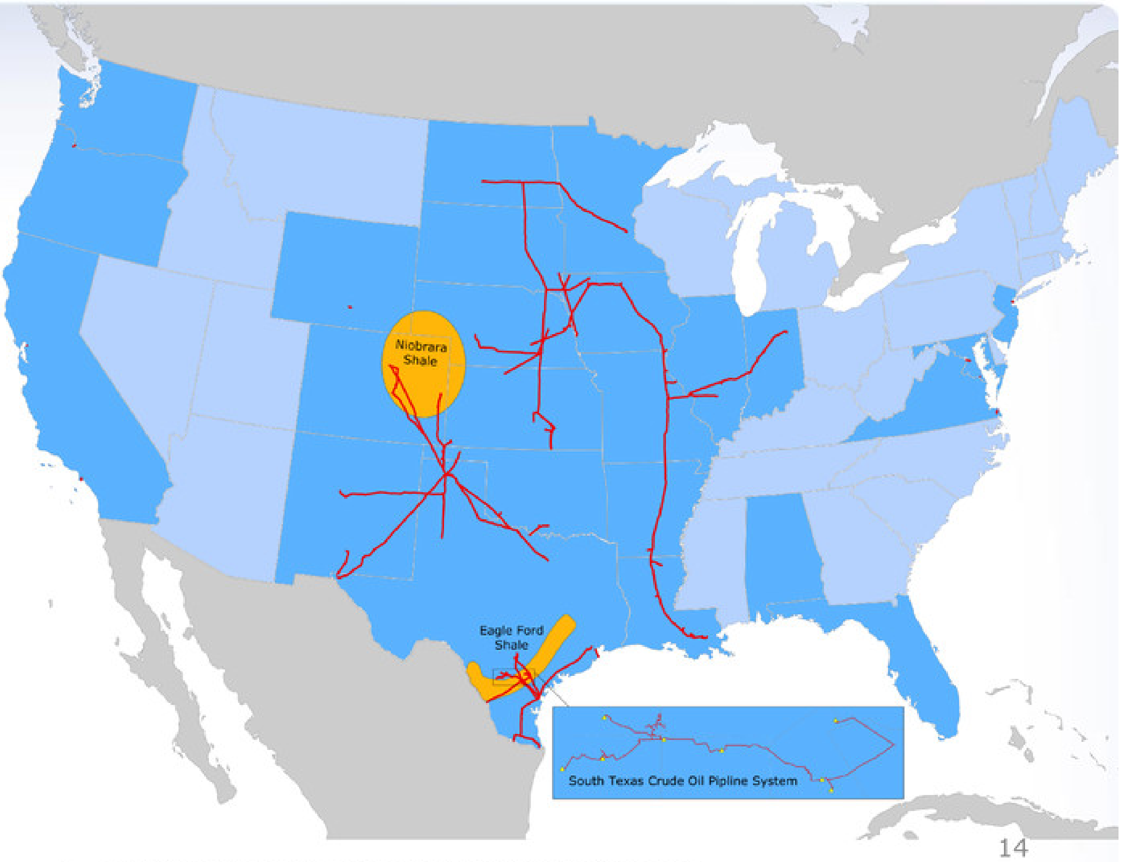
Reactivation of an Idle 12-inch Pipeline should increase EBITDA by $23 million[1]

- **Signed long-term agreement with Occidental Petroleum (Oxy) in February 2014.**
- **Oxy will ship NGLs on our formerly idle, 200-mile 12-inch pipeline between Mont Belvieu and Corpus Christi**
  - The line has the capacity to transport 110,000 barrels per day
  - Oxy will utilize the majority of the line's capacity
  - NuStar is marketing the remaining pipeline capacity
- **Began generating distributable cash flow in the second quarter of 2014**
- **Pipeline projected to be in full service in the second quarter of 2015**
- **Capital spending required to reactivate the line expected to be $130 to $150 million**

1 – Please see slide 27 for a reconciliation of EBITDA to its most directly comparable GAAP measure, Operating Income

Focusing on Other Pipeline Growth Opportunities

- Expanding our existing South Texas Crude Oil Pipeline System
- Constructing or acquiring crude oil gathering assets that would supply our South Texas Crude Oil Pipeline System
- Analyzing pipeline opportunities in the Niobrara shale
- Evaluating crude oil pipeline opportunities in other shale plays
- Total Pipeline Segment internal growth spending could be in the range of $600 to $800 million[1]



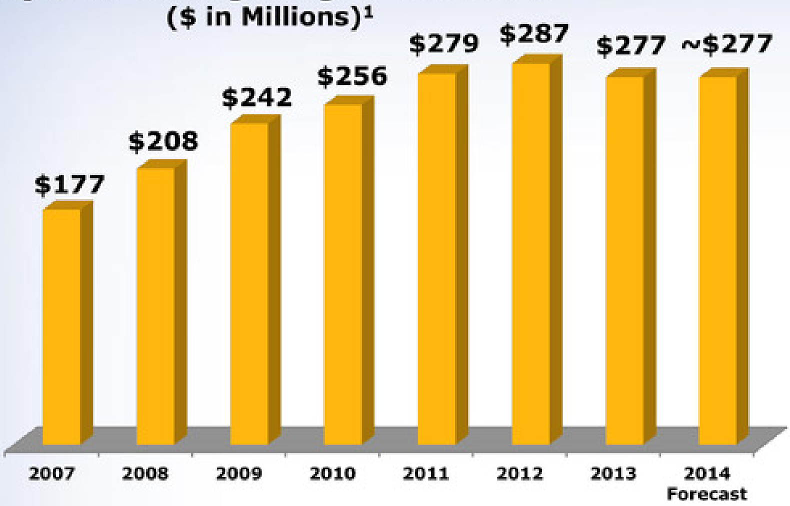
1 – capital spending to take place over the next two to three years.

Storage Segment Update

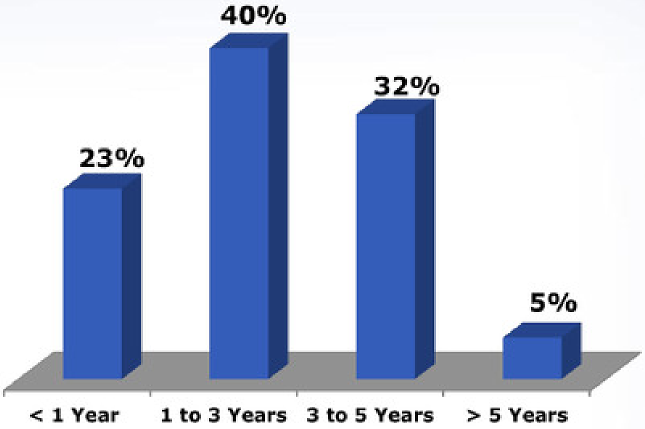
2014 Storage Segment EBITDA Expected to be Comparable to 2013

NuStar

Adjusted Storage Segment EBITDA
($ in Millions)[1]



Storage Contract Renewals
(% as of 4/15/2014)

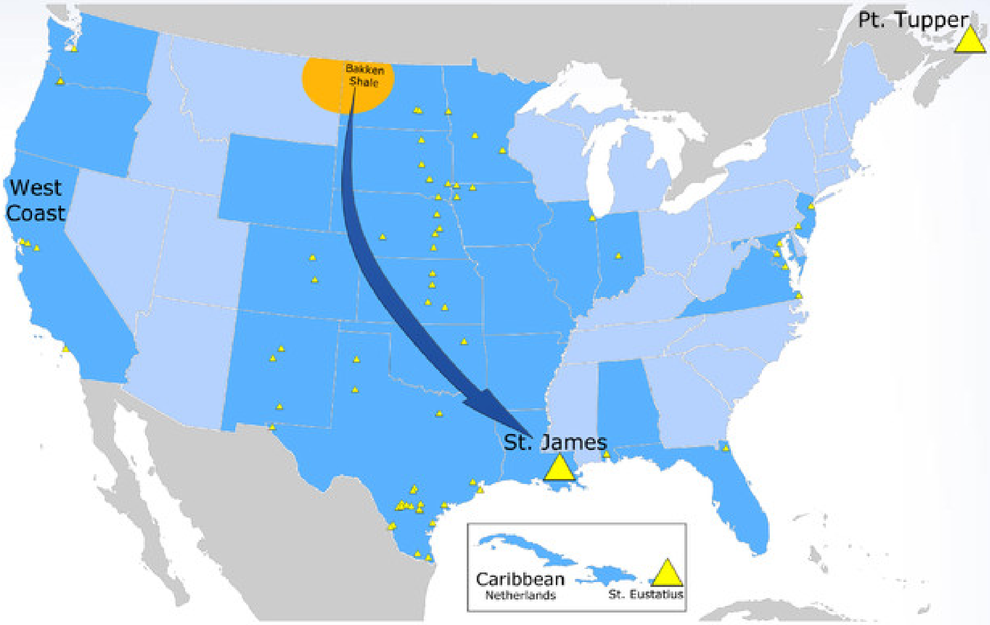


- Our storage segment should benefit from the completion of our second unit train at St. James Terminal in November 2013, the additional throughput at our Corpus Christi North Beach Terminal and our recent St. Eustatius terminal storage agreement.
- Reduced profit sharing relating to our first St. James unit train project and weak West Coast storage demand may offset expected benefits.

1 – Please see slide 28 for a reconciliation of adjusted EBITDA to its most directly comparable GAAP measure, Operating Income

Pursuing Other Storage Terminal Opportunities

- Exploring rail car off-loading projects on the West Coast
- Considering viability of Pt. Tupper rail offloading facility for crude oil and/or LPG
- Evaluating additional storage and unit train volume expansion at St. James Terminal
- Assessing our St. Eustatius Terminal's role in regional demand for additional crude oil storage and infrastructure capacity
- Analyzing terminal acquisitions in strategic markets
- Total Storage Segment internal growth spending could be in the range of $100 to $300 million[1]



1 – capital spending to take place over the next two to three years.

Fuels Marketing Segment Update

We Expect Reduced Working Capital Requirements and Minimized Volatility in the Fuels Marketing Segment

- **Segment is composed of:**
  - Refined Products Marketing
  - Fuel Oil Trading and Bunkering
  - Crude Oil Trading
- **A back-to-back supply agreement at our St. Eustatius terminal:**
  - Reduced our working capital by approximately $50 million
  - Expected to improve results through reduced operating expenses
- **Fuels Marketing currently pays Storage Segment approximately $25 million in annual storage fees**
  - Represents around 5% of Storage Segment revenues
- **2014 EBITDA results for the segment are expected to be $10 to $30 million[1]**

Reconciliation of Non-GAAP Financial Information: Financial Information

NuStar Energy L.P. utilizes financial measures, such as earnings before interest, taxes, depreciation and amortization (EBITDA), distributable cash flow (DCF), adjusted net income and adjusted net income per unit (EPU), which are not defined in U.S. generally accepted accounting principles (GAAP). Management uses these financial measures because they are widely accepted financial indicators used by investors to compare partnership performance. In addition, management believes that these measures provide investors an enhanced perspective of the operating performance of the partnership's assets and the cash that the business is generating. None of these financial measures, which are not defined in GAAP are intended to represent cash flows from operations for the period, nor are they presented as an alternative to net income or income from continuing operations. They should not be considered in isolation or as substitutes for a measure of performance prepared in accordance with GAAP. For purposes of segment reporting, we do not allocate general and administrative expenses to our reported operating segments because those expenses relate primarily to the overall management at the entity level. Therefore, EBITDA reflected in the segment reconciliations exclude any allocation of general and administrative expenses consistent with our policy for determining segmental operating income, the most directly comparable GAAP measure.

The following is a reconciliation of net income to adjusted net income and EPU to adjusted EPU:

	Three Months Ended March 31, 2014
