Item 2.02 **Results Of Operations And Financial Condition.**

On April 24, 2013, NuStar Energy L.P., a Delaware limited partnership, issued a press release announcing financial results for the quarter ended March 31, 2013. A copy of the press release announcing the financial results is furnished with this report as Exhibit 99.1, and is incorporated herein by reference.

The information in this report is being furnished, not filed, pursuant to Item 2.02 of Form 8-K. Accordingly, the information in this report, including the press release, will not be incorporated by reference into any registration statement filed by NuStar Energy L.P. under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference.

NON-GAAP FINANCIAL MEASURES

The press release announcing the earnings discloses certain financial measures, EBITDA, distributable cash flow, and distributable cash flow per unit, that are non-GAAP financial measures as defined under SEC rules. The press release furnishes a reconciliation of these non-GAAP financial measures to their nearest GAAP financial measures. Management uses these financial measures because they are widely accepted financial indicators used by investors to compare partnership performance. In addition, management believes that these measures provide investors an enhanced perspective of the operating performance of the partnership's assets and the cash that the business is generating. None of EBITDA, distributable cash flow or distributable cash flow per unit is intended to represent cash flows for the period, nor are they presented as an alternative to net income or cash flow from operations. They should not be considered in isolation or as substitutes for a measure of performance prepared in accordance with United States generally accepted accounting principles.

Item 9.01 Financial Statements and Exhibits.

NuStar Energy Reports Increased Total Distributable Cash Flow in First Quarter of 2013

Quarterly Distribution Remains at \$1.095 Per Unit

Construction on Second Rail Car Off-Loading Facility at St. James has Begun

SAN ANTONIO, April 24, 2013 — NuStar Energy L.P. (NYSE: NS) today announced first quarter distributable cash flow from continuing operations available to limited partners was \$54.7 million, or \$0.70 per unit, compared to 2012 first quarter distributable cash flow from continuing operations of \$51.1 million, or \$0.72 per unit. First quarter earnings before interest, taxes, depreciation and amortization (EBITDA) from continuing operations was \$91.6 million compared to first quarter 2012 EBITDA of \$106.3 million.

NuStar Energy L.P. reported first quarter net income applicable to limited partners of \$13.3 million, or \$0.17 per unit, compared to \$16.0 million, or \$0.23 per unit, earned in the first quarter of 2012.

The partnership also announced that its board of directors has declared a first quarter 2013 distribution of \$1.095 per unit. The first quarter 2013 distribution will be paid on May 10, 2013, to holders of record as of May 6, 2013. Distributable cash flow available to limited partners covers the distribution to the limited partners by 0.64 times for the first quarter of 2013.

"Recent growth in the Eagle Ford Shale region and the sale of 50% of our Asphalt Operations in the third quarter of 2012 contributed to improved distributable cash flow results during the quarter," said Curt Anastasio, President and Chief Executive Officer of NuStar Energy L.P. and NuStar GP Holdings, LLC. "We expect our 2013 distributable cash flow results to be higher than last year."

In regard to the first quarter performance Anastasio said, "Our pipeline segment continues to benefit from several internal growth projects completed in the Eagle Ford shale region during the past couple of years and the December 2012 crude oil asset acquisition from TexStar. Throughputs on our Eagle Ford crude oil pipeline systems increased by 55% compared to the first quarter of 2012, however these increases were partially offset by lower throughputs on some other pipelines as a result of turnarounds at some of our customer's refineries."

Anastasio then added, "Internal growth projects completed at our St. James and St. Eustatius terminal facilities in 2012 and during the first quarter of 2013 benefited our storage segment. However, these internal growth project benefits were more than offset by reduced demand for storage at several of our terminal facilities and the impact of the turnarounds and operating issues I mentioned earlier."

-More-

Anastasio then commented on the company's fuels marketing segment by saying, "Primarily as a result of weak demand for bunkers and fuel oil, coupled with increased competition in the Caribbean, our fuels marketing segment generated a loss during the quarter."

Addressing the recent strategic transformation of the company Anastasio stated, "Beginning in the first quarter of 2013 NuStar has less exposure to marginbased operations than we have had in several years. This reduced margin-base exposure should lead to less volatile distributable cash flows in the future."

Internal Growth Project Update

"Early in the first quarter we placed a total of 1.7 million barrels of new storage capacity in service at our St. Eustatius and St. James, Louisiana terminal facilities," said Anastasio. "We continue to work on a pipeline project for ConocoPhillips and continue to lay crude oil gathering lines that will supply additional crude oil volumes to our Eagle Ford crude oil pipeline system. All of these projects are expected to contribute to 2013 storage and pipeline segment results."

Anastasio went on to say, "NuStar recently began the construction of a second rail-car offloading facility at our St. James terminal with Great Northern Gathering & Marketing, LLC being a major customer. This facility should be operational and contributing to our storage segment results in the fourth quarter of 2013."

Full-Year 2013 Outlook

Commenting on the earnings outlook for 2013, Anastasio said, "We continue to expect the EBITDA results for all three of our segments to be higher than last year. Our pipeline segment should benefit from our Eagle Ford Shale region internal growth pipeline projects completed in 2012 and later in 2013 as well as from the crude oil assets acquired from TexStar. The storage segment is projected to benefit from the completion of the two rail car offloading projects at our St. James, Louisiana terminal and the recent completion of the storage expansion projects at our St. Eustatius terminal and our St. James, Louisiana terminal. Our fuels marketing segment's 2013 results should improve over the remainder of 2013 and as compared to 2012, primarily due to higher earnings in the bunkering and heavy fuel oil operations."

Anastasio then said, "These higher 2013 segment results should also lead to higher distributable cash flow and an improved coverage ratio for the year."

With regard to capital spending projections Anastasio added, "NuStar expects to spend \$400 to \$425 million on internal growth projects during 2013, primarily on projects in the Eagle Ford Shale, while our reliability capital spending should be in the range of \$35 to \$45 million."

-More-

A conference call with management is scheduled for 10:00 a.m. ET (9:00 a.m. CT) today, April 24, 2013, to discuss the financial and operational results for the first quarter of 2013. Investors interested in listening to the presentation may call 800/622-7620, passcode 31554334. International callers may access the

presentation by dialing 706/645-0327, passcode 31554334. The company intends to have a playback available following the presentation, which may be accessed by calling 800/585-8367, passcode 31554334. International callers may access the playback by calling 404/537-3406, passcode 31554334. A live broadcast of the conference call will also be available on the company's Web site at www.nustarenergy.com.

NuStar Energy L.P., a publicly traded master limited partnership based in San Antonio, is one of the largest independent liquids terminal and pipeline operators in the nation. NuStar currently has 8,621 miles of pipeline; 88 terminal and storage facilities that store and distribute crude oil, refined products and specialty liquids; and 50% ownership in a joint venture that owns a terminal and an asphalt refinery with a throughput capacity of 74,000 barrels per day. The partnership's combined system has approximately 97 million barrels of storage capacity, and NuStar has operations in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, the United Kingdom and Turkey. For more information, visit NuStar Energy L.P.'s Web site at www.nustarenergy.com.

This release serves as qualified notice to nominees under Treasury Regulation Sections 1.1446-4(b)(4) and (d). Please note that 100% of NuStar's distributions to foreign investors are attributable to income that is effectively connected with a United States trade or business. Accordingly, all of NuStar's distributions to foreign investors are subject to federal income tax withholding at the highest effective tax rate for individuals and corporations, as applicable. Nominees, and not NuStar, are treated as the withholding agents responsible for withholding on the distributions received by them on behalf of foreign investors.

Cautionary Statement Regarding Forward-Looking Statements

This press release includes forward-looking statements regarding future events. All forward-looking statements are based on the partnership and company's beliefs as well as assumptions made by and information currently available to the partnership and company. These statements reflect the partnership and company's current views with respect to future events and are subject to various risks, uncertainties and assumptions. These risks, uncertainties and assumptions are discussed in NuStar Energy L.P. and NuStar GP Holdings, LLC's 2012 annual reports on Form 10-K and subsequent filings with the Securities and Exchange Commission.

NuStar Energy L.P. and Subsidiaries Consolidated Financial Information - Continued (Unaudited, Thousands of Dollars, Except Per Unit Data)

Notes:

1. The results of operations for the San Antonio Refinery and related assets have been reported as discontinued operations for all periods presented.

2. NuStar Energy L.P. utilizes two financial measures, EBITDA from continuing operations and distributable cash flow from continuing operations, which are not defined in United States generally accepted accounting principles. Management uses these financial measures because they are widely

accepted financial indicators used by investors to compare partnership performance. In addition, management believes that these measures provide investors an enhanced perspective of the operating performance of the partnership's assets and the cash that the business is generating. Neither EBITDA from continuing operations nor distributable cash flow from continuing operations are intended to represent cash flows for the period, nor are they presented as an alternative to net income from continuing operations. They should not be considered in isolation or as substitutes for a measure of performance prepared in accordance with United States generally accepted accounting principles.

The following is a reconciliation of income from continuing operations to EBITDA from continuing operations and distributable cash flow from continuing operations:

	Three Months Ended March 31,			
	2013			2012
Income from continuing operations	\$	16,038	\$	37,952
Plus interest expense, net		30,113		21,377
Plus income tax expense		2,536		3,443
Plus depreciation and amortization expense		42,926		43,575
EBITDA from continuing operations		91,613		106,347
Equity in loss (earnings) of joint ventures		11,143		(2,386)
Interest expense, net		(30,113)		(21,377)
Reliability capital expenditures		(5,742)		(4,628)
Income tax expense		(2,536)		(3,443)
Distributions from joint venture		4,652		
Mark-to-market impact on hedge transactions (a)		(1,594)		(11,839)
Distributable cash flow from continuing operations		67,423		62,674
Distributable cash flow from continuing operations attributable to noncontrolling interest		(92)		2
Distributable cash flow from continuing operations available to general partner		12,766		11,598
Distributable cash flow from continuing operations available to limited partners	\$	54,749	\$	51,074
Distributable cash flow from continuing operations per limited partner unit	\$	0.70	\$	0.72

(a) Distributable cash flow from continuing operations excludes the impact of unrealized mark-to-market gains and losses that arise from valuing certain derivative contracts, as well as the associated hedged inventory. The gain or loss associated with these contracts is realized in distributable cash flow from continuing operations when the contracts are settled.
