1. ORGANIZATION AND BASIS OF PRESENTATION

Organization and Operations

NuStar Energy L.P. (NuStar Energy) (NYSE: NS) is engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms "NuStar Energy," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 15.1% total interest in us as of September 30, 2012.

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). We have three business segments: storage, transportation, and asphalt and fuels marketing.

Basis of Presentation

These unaudited condensed consolidated financial statements include the accounts of the Partnership and subsidiaries in which the Partnership has a controlling interest. Noncontrolling interests are separately disclosed on the financial statements. Interpartnership balances and transactions have been eliminated in consolidation. We account for investments in 50% or less-owned entities using the equity method.

These unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and notes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included, and all disclosures are adequate. All such adjustments are of a normal recurring nature unless disclosed otherwise. Financial information for the three and nine months ended September 30, 2012 and 2011 included in these Condensed Notes to Consolidated Financial Statements is derived from our unaudited condensed consolidated financial statements. Operating results for the three and nine months ended September 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. The consolidated balance sheet as of December 31, 2011 has been derived from the audited consolidated financial statements as of that date. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011.

2. DISPOSITIONS

Asphalt Operations

On September 28, 2012, we sold a 50% voting interest (the Asphalt Sale) in NuStar Asphalt LLC (Asphalt JV), previously a wholly owned subsidiary, to an affiliate of Lindsay Goldberg LLC (Lindsay Goldberg), a private investment firm. Asphalt JV owns and operates asphalt refining assets that were previously wholly owned by NuStar Energy, including the asphalt refineries located in Paulsboro, New Jersey and Savannah, Georgia (collectively, the Asphalt Operations). Lindsay Goldberg paid \$175.0 million for the Class A equity interests (Class A Interests) of Asphalt JV, while we retained the Class B equity interests with a fair value of \$52.0 million (Class B Interests). The Class A Interests have a distribution preference over the Class B Interests, as well as a liquidation preference.

NuStar Asphalt Refining, LLC and NuStar Marketing LLC are wholly owned subsidiaries of NuStar Asphalt LLC. Unless otherwise indicated, the term "Asphalt JV" is used in this report to refer to Asphalt JV, to one or more of its consolidated subsidiaries or to all of them taken as a whole.

At closing, we received \$261.3 million from Asphalt JV for inventory related to the Asphalt Operations, pending a final inventory valuation. Asphalt JV funded the purchase of those inventories with proceeds from borrowings under a third-party asset-based revolving credit facility (the Third-Party Financing) and a \$250.0 million unsecured revolving credit facility provided by NuStar Energy (the NuStar JV Facility). In addition to the NuStar JV Facility, we entered into various other agreements with Asphalt JV. See Note 9. Related Party Transactions for additional discussion of our agreements with Asphalt JV.

Table of Contents

Deconsolidation. We determined the equity of Asphalt JV is not sufficient to finance its activities without additional subordinated support, including support provided by us as described in Note 9. Related Party Transactions. Therefore, we determined the Asphalt JV is a variable interest entity (VIE). An entity is required to consolidate a VIE if the entity is considered the primary beneficiary of the VIE. We analyzed our relationship with Asphalt JV, including our representation on the board of members, our equity interests and our rights under the various agreements with Asphalt JV and determined that NuStar Energy does not have the power to direct the activities most significant to the economic performance of Asphalt JV. As a result, NuStar Energy is not the primary beneficiary of Asphalt JV. Upon closing, we deconsolidated Asphalt JV and started reporting our remaining investment in Asphalt JV using the equity method of accounting. Since the fair value of the consideration we received was less than the carrying amount of the assets of the Asphalt Operations, we recognized a loss of \$21.6 million in "Other (expense) income, net" in the condensed consolidated statements of comprehensive income for the three and nine months ended September 30, 2012.

As of September 30, 2012, we included our 50% interest in Asphalt JV within "Investment in joint ventures" on the consolidated balance sheet. The condensed consolidated statements of comprehensive income include the results of operations for Asphalt JV in "Equity in earnings of joint ventures" commencing on September 28, 2012. Because of our continued involvement with Asphalt JV, we have not presented the results of operations for the Asphalt Operations prior to closing as discontinued operations. Beginning on September 28, 2012, we have presented transactions between us and the Asphalt JV as related party transactions in the consolidated financial statements.

Our maximum exposure to loss as a result of our involvement with Asphalt JV is approximately \$448.7 million, which consists of (i) our investment in Asphalt JV of \$48.7 million as of September 30, 2012, (ii) up to \$250.0 million under the NuStar JV Facility and (iii) up to \$150.0 million for credit support, including guarantees.

Other

On April 16, 2012, we sold five terminals in Georgia and Alabama with an aggregate storage capacity of 1.8 million barrels for total proceeds of \$30.8 million.

3. ASSET IMPAIRMENTS

In anticipation of the Asphalt Sale, we evaluated the goodwill and other long-lived assets associated with the Asphalt Operations for potential impairment. As of June 30, 2012, we estimated the fair value of the Asphalt Operations reporting unit as the sum of (i) the purchase price to be paid by Lindsay Goldberg for the Class A Interests of Asphalt JV, (ii) the fair value of the Class B Interests of Asphalt JV that we would retain and (iii) the fair value of the working capital, primarily inventory. We determined the fair value of the Class B Interests using a combination of estimated discounted future cash flows and a pricing model. The fair value of the working capital was based on estimated current market prices. The estimated fair value of the Asphalt Operations reporting unit was less than its carrying value, which resulted in the recognition of a goodwill impairment loss of \$22.1 million in the second quarter of 2012. In addition, in the second quarter of 2012, we recorded an asset impairment loss of \$244.3 million in order to write-down the carrying value of long-lived assets related to the Asphalt Operations, including fixed assets, intangible assets and other long-term assets to their estimated fair value. The goodwill impairment loss and the asset impairment loss related to the Asphalt Operations are reported in the asphalt and fuels marketing segment.

In the second quarter of 2012, we reduced the carrying value of the fixed assets of one of our refined product terminals to its estimated fair value and recorded an asset impairment loss of \$2.1 million. The impairment loss resulted from changing market conditions that reduced the estimated cash flows for that terminal. The impairment loss associated with this refined product terminal was reported in the storage segment. In addition, we recorded an asset impairment loss of \$3.3 million in the second quarter of 2012 in order to reduce the carrying value of certain corporate assets we intend to sell to their estimated sales price of \$2.8 million. These corporate assets that are held for sale are included in "Other current assets" on the consolidated balance sheet as of September 30, 2012.

The total asset impairment loss consisted of the following:

		Nine Months Ended September 30, 2012		
	(Thous	ands of Dollars)		
Asphalt Operations:				
Property, plant and equipment, net	\$	232,759

Materials and supplies		8,314		9,200	
Total	\$	240,694	\$	587,785	

5. DEBT

Revolving Credit Agreement

On May 2, 2012, NuStar Logistics replaced its \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement) with a new \$1.5 billion five-year revolving credit agreement (the 2012 Revolving Credit Agreement), which includes the ability to borrow up to the equivalent of \$250.0 million in Euros. NuStar Logistics used borrowings of \$588.6 million under the 2012 Revolving Credit Agreement and cash on hand to repay in full the balance on the 2007 Revolving Credit Agreement. Obligations under the 2012 Revolving Credit Agreement are guaranteed by NuStar Energy and NuPOP will be released from its guarantee of the 2012 Revolving Credit Agreement when it no longer guarantees NuStar Logistics public debt instruments.

The 2012 Revolving Credit Agreement contains customary restrictive covenants, including requiring us to maintain, as of the end of each rolling period, which consists of any period of four consecutive fiscal quarters, a consolidated debt coverage ratio (consolidated indebtedness to consolidated EBITDA, as defined in the 2012 Revolving Credit Agreement) not to exceed 5.00-to-1.00; provided, for the rolling period ending June 30th of each year, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00. Moreover, if we consummate an acquisition for an aggregate net consideration of at least \$50.0 million, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00 for two rolling periods.

On June 29, 2012, we amended the 2012 Revolving Credit Agreement to permit unlimited investments in joint ventures and unconsolidated subsidiaries, provided that no default exists, and to limit the amount of cash distributions for such joint ventures and unconsolidated subsidiaries included in the calculation of the consolidated debt coverage ratio to 20% of consolidated EBITDA (the Amendment). In addition, the Amendment provides that we will be in compliance with the consolidated debt coverage ratio as long as it does not exceed 6.50-to-1.00 for the rolling period ended June 30, 2012 or 6.00-to-1.00 for the rolling period ending September 30, 2012. The Amendment further stipulates that if the Asphalt Operations were owned by an unconsolidated joint venture, the maximum allowed consolidated debt coverage would revert to 5.00-to-1.00. Therefore, as of September 30, 2012, our consolidated debt coverage ratio could not exceed 5.00-to-1.00. The requirement not to exceed a

maximum consolidated debt coverage ratio may limit the amount we can borrow under the 2012 Revolving Credit Agreement to an amount less than the total amount available for borrowing. As of September 30, 2012, our consolidated debt coverage ratio was 4.3x, and we had \$1,152.9 million available for borrowing.

During the nine months ended September 30, 2012, we borrowed an aggregate \$1,772.0 million under our revolving credit agreements to fund working capital requirements, our capital expenditures and distributions. Additionally, we repaid \$1,937.2 million during the nine months ended September 30, 2012 under our revolving credit agreements. These borrowings and repayments include borrowings under the 2012 Revolving Credit Agreement to pay down the 2007 Revolving Credit Agreement and the \$100.0 million of 6.875% senior notes due July 15, 2012.

The 2012 Revolving Credit Agreement bears interest, at our option, based on either an alternative base rate or a LIBOR-based rate. The interest rate on the 2012 Revolving Credit Agreement is subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. As of September 30, 2012, our weighted average interest rate was 1.7%

UK Term Loan

On June 29, 2012, our UK subsidiary, NuStar Terminals Limited, amended the £21.0 million amended and restated term loan agreement (the UK Term Loan) to be consistent with the covenant terms of the 2012 Revolving Credit Agreement. As a result of this amendment to the UK Term Loan, the covenants and ratios of the UK Term Loan are substantially the same as the 2012 Revolving Credit Agreement, as amended.

NuStar Logistics' 6.875% Senior Notes

In July 2012, we repaid the \$100.0 million of 6.875% senior notes due July 15, 2012 with borrowings under our 2012 Revolving Credit Agreement.

NuStar Logistics' 4.75% Senior Notes

On February 2, 2012, NuStar Logistics issued \$250.0 million of 4.75% senior notes under our May 13, 2010 shelf registration statement. The net proceeds of \$247.4 million were used to repay the outstanding principal amount of NuPOP's 7.75% senior notes due February 15, 2012. The interest on the 4.75% senior notes is payable semi-annually in arrears on February 1 and August 1 of each year beginning on August 1, 2012. The notes will mature on February 1, 2022. The 4.75% senior notes do not have sinking fund requirements. These notes rank equally with existing senior unsecured indebtedness of NuStar Logistics and contain restrictions on NuStar Logistics' ability to incur secured indebtedness unless the same security is also provided for the benefit of holders of the senior notes. In addition, the senior notes limit NuStar Logistics' ability to incur indebtedness secured by certain liens and to engage in certain sale-leaseback transactions. At the option of NuStar Logistics, the 4.75% senior notes may be redeemed in whole or in part at any time at a redemption price, which includes a make-whole premium, plus accrued and unpaid interest to the redemption date. The 4.75% senior notes are fully and unconditionally guaranteed by NuStar Energy and NuPOP.

Gulf Opportunity Zone Revenue Bonds

In 2008, 2010 and 2011, the Parish of St. James, Louisiana issued, pursuant to the Gulf Opportunity Zone Act of 2005, tax-exempt revenue bonds (GoZone Bonds) associated with our St. James terminal expansions. The GoZone Bonds bear interest based on a weekly tax-exempt bond market interest rate, and we pay interest monthly. The interest rate was 0.2% as of September 30, 2012. The proceeds are deposited with a trustee and disbursed to us upon our request for reimbursement of expenditures related to our St. James terminal expansions. We include the amount remaining in trust related to the GoZone Bonds in "Other long-term assets, net," and the amount of bonds issued in "Long-term debt, less current portion" on the consolidated balance sheets. For the nine months ended September 30, 2012, we received \$38.8 million from the trustee. As of September 30, 2012, the amount remaining in trust totaled \$134.6 million.

Line of Credit

On July 2, 2012, our short-term line of credit that had an uncommitted borrowing capacity of up to \$20.0 million was terminated. During the nine months ended September 30, 2012, we borrowed and repaid \$71.9 million related to this line of credit.

Credit Ratings

The interest rates on the 2012 Revolving Credit Agreement and NuStar Logistics' \$350.0 million of 7.65% senior notes are subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. In July 2012, Standard & Poor's lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. In August 2012, Fitch Ratings also lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. The interest rates applicable to the

2012 Revolving Credit Agreement do not adjust unless both Moody's and Standard & Poor's change their ratings. However, the downgrade by Standard & Poor's caused the interest rate on NuStar Logistics' \$350.0 million of 7.65% senior notes to increase by 0.25%. These downgrades may also require us to provide additional credit support for certain contracts.

6. COMMITMENTS AND CONTINGENCIES

Contingencies

We have contingent liabilities resulting from various litigation, claims and commitments, as discussed below. We record accruals for loss contingencies when losses are considered probable and can be reasonably estimated. Legal fees associated with defending the Partnership in legal matters are expensed as incurred. As of September 30, 2012, we have accrued \$0.3 million for contingent losses. The amount that will ultimately be paid related to these matters may differ from the recorded accruals, and the timing of such payments is uncertain.

Grace Energy Corporation Matter. In 1997, Grace Energy Corporation (Grace Energy) sued subsidiaries of Kaneb Pipeline Partners, L.P. (KPP) and Kaneb Services LLC (KSL and collectively with KPP and their respective subsidiaries, Kaneb) in Texas state court. We acquired Kaneb on July 1, 2005. The complaint sought recovery of the cost of remediation of fuel leaks in the 1970s from a pipeline that had once connected a former Grace Energy terminal with Otis Air Force Base in Massachusetts (Otis AFB). Grace Energy alleges the Otis AFB pipeline and related environmental liabilities had been transferred in 1978 to an entity that was part of Kaneb's acquisition of Support Terminal Services, Inc. and its subsidiaries from Grace Energy in 1993. Kaneb contends that it did not acquire the Otis AFB pipeline and never assumed any responsibility for any associated environmental damage.

In 2000, the court entered final judgment that: (i) Grace Energy could not recover its own remediation costs of \$3.5 million, (ii) Kaneb owned the Otis AFB pipeline and its related environmental liabilities and (iii) Grace Energy was awarded \$1.8 million in attorney costs. Both Kaneb and Grace Energy appealed the final judgment of the trial court to the Texas Court of Appeals in Dallas. In 2001, Grace Energy filed a petition in bankruptcy, which created an automatic stay of actions against Grace Energy. In September 2008, Grace Energy filed its Joint Plan of Reorganization and Disclosure Statement.

The Otis AFB is a part of a Superfund Site pursuant to the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The site contains a number of groundwater contamination plumes, two of which are allegedly associated with the Otis AFB pipeline. Relying on the final judgment of the Texas state court assigning ownership of the Otis AFB pipeline to Kaneb, the United States Department of Justice (the DOJ) advised Kaneb in 2001 that it intends to seek reimbursement from Kaneb for the remediation costs associated with the two plumes. In November 2008, the DOJ forwarded information to us indicating that the past and estimated future remediation expenses associated with one plume are \$71.9 million. We reached an agreement to settle the claims of the United States government with respect to the Otis AFB pipeline and to resolve the underlying dispute between Kaneb and Grace. The settlement was approved by the United States Bankruptcy Court for the District of Delaware and a consent decree was entered by the United States District Court for the District of Massachusetts. Pursuant to the terms of the settlement, we paid approximately \$13.1 million to the United States government in July 2012 and received releases of claims from various private parties and a covenant not to sue from the United States government. In connection with the settlement, we recognized a gain of \$28.7 million during the second quarter of 2012.

Other

We are a party to additional claims and legal proceedings arising in the ordinary course of business. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on our results of operations, financial position or liquidity.

Commitments

On November 17, 2010, we entered into a crude purchase commitment with Statoil Brasil Oleo E Gas Limitada (Statoil) to purchase an average of 10,000 barrels per day of crude oil over a three-year period, which began in December 2011. Pending receipt of and payment for one final shipment from Statoil in the fourth quarter of 2012, this agreement will be terminated.

In connection with the deconsolidation of the Asphalt Operations, our future minimum rental payments applicable to noncancellable operating leases were reduced by certain storage and railcar lease obligations.

7. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists. We consider counterparty credit risk and our own credit risk in the determination of all estimated fair values.

Recurring Fair Value Measurements

Product Imbalances. We value our assets and liabilities related to product imbalances using quoted market prices in active markets as of the reporting date.

Interest Rate Swaps. We estimate the fair value of both our fixed-to-floating and forward-starting interest rate swaps using discounted cash flows, which use observable inputs such as time to maturity and market interest rates.

Commodity Derivatives. We base the fair value of certain of our commodity derivative instruments on quoted prices on an exchange; accordingly, we include these in Level 1 of the fair value hierarchy. We also have derivative instruments for which we determine fair value using industry pricing services and other observable inputs, such as quoted prices on an exchange for similar derivative instruments. Therefore, we include these derivative instruments in Level 2 of the fair value hierarchy. We have consistently applied these valuation techniques in all periods presented. See Note 8. Derivatives and Risk Management Activities for a discussion of our derivative instruments.

Fair Value of Financial Instruments

We recognize cash equivalents, receivables, payables and debt in our consolidated balance sheets at their carrying amount. The fair values of these financial instruments, except for debt, approximate their carrying amounts. The estimated fair value and carrying amount of our debt was as follows:

	September 30 2012	I	December 31, 2011
	(Thousa	nds of I	Pollars)
Fair value	\$ 2,018,99	3 \$	2,377,565
Carrying amount	\$ 2,036,40	6 \$	2,293,030

We estimated the fair value of our publicly-traded senior notes based upon quoted prices in active markets; therefore, we determined the fair value of our publicly traded senior notes falls in Level 1 of the fair value hierarchy. For our other debt, for which a quoted market price is not available, we estimated the fair value using a discounted cash flow analysis using current incremental borrowing rates for similar types of borrowing arrangements and determined the fair value falls in Level 2 of the fair value hierarchy.

As of September 30, 2012, we also had a note receivable from related party of \$170.7 million under the NuStar JV Facility. The note receivable related to the NuStar JV Facility was recorded at face value, and the fair value of the note receivable approximates its carrying amount as of September 30, 2012. See Note 9. Related Party Transactions for additional information on the NuStar JV Facility.

8. DERIVATIVES AND RISK MANAGEMENT ACTIVITIES

We utilize various derivative instruments to: (i) manage our exposure to commodity price risk; (ii) manage our exposure to interest rate risk; and (iii) attempt to profit from market fluctuations. Our risk management policies and procedures are designed to monitor interest rates, futures and swap positions and over-the-counter positions, as well as physical volumes, grades, locations and delivery schedules, to help ensure that our hedging activities address our market risks. Our risk management committee oversees our trading controls and procedures and certain aspects of our commodity and trading risk management. Our risk management committee also reviews all new commodity and trading risk management strategies in accordance with our risk management policy, which was approved by our board of directors.

Interest Rate Risk

We are a party to certain interest rate swap agreements that we use to manage our exposure to changes in interest rates. We entered into fixed-to-floating interest rate swap agreements associated with a portion of our fixed-rate senior notes. During the six months ended June 30, 2012, we entered into and terminated fixed-to-floating interest rate swap agreements with an

aggregate notional amount of \$200.0 million related to the 4.75% senior notes issued on February 2, 2012. Under the terms of these interest rate swap agreements, we received a fixed rate of 4.75% and paid a variable rate based on one month USD LIBOR plus a percentage that varied with each agreement. We also terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$270.0 million associated with our 4.80% senior notes. We received \$19.7 million in connection with the terminations, which we are amortizing into "Interest expense, net" over the remaining lives of the 4.80% and 4.75% senior notes. The termination payments are included in cash flows from financing activities on the consolidated statements of cash flows. We had no fixed-to-floating interest rate swaps as of September 30, 2012, and the total aggregate notional amount of the fixed-to-floating interest rate swaps was \$270.0 million as of December 31, 2011.

We are also a party to forward-starting interest rate swap agreements related to forecasted probable debt issuances. We entered into these swaps in order to hedge the risk of changes in the interest payments attributable to changes in the benchmark interest rate during the period from the effective date of the swap to the issuance of the forecasted debt. These swaps are designated and qualify as cash flow hedges. In connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. We paid \$25.4 million in connection with the terminations, which is being amortized into "Interest expense, net" over the life of the 4.75% senior notes. The termination payment is included in cash flows from financing activities on the consolidated statements of cash flows. As of September 30, 2012 and December 31, 2011, the total aggregate notional amount of the forward-starting interest rate swaps was \$275.0 million and \$500.0 million, respectively.

Commodity Price Risk

We are exposed to market risks related to the volatility of crude oil and refined product prices. In order to attempt to reduce the risk of commodity price fluctuations with respect to our crude oil and finished product inventories and related firm commitments to purchase and/or sell such inventories, we utilize commodity futures and swap contracts, which qualify, and we designate them as, fair value hedges.

We also enter into commodity swap contracts to attempt to hedge the price risk associated with the San Antonio refinery. These contracts fix the purchase price of crude oil and sales prices of refined products for a portion of the expected production of the San Antonio refinery, thereby attempting to mitigate the risk of volatility of future cash flows associated with hedged volumes. These contracts qualify, and we designate them, as cash flow hedges. During the second quarter of 2012, we reduced the hedged volumes of the expected production of the San Antonio refinery, thereby exposing us to additional price risk.

Derivatives that are intended to hedge our commodity price risk, but fail to qualify as fair value or cash flow hedges, are considered economic hedges, and we record associated gains and losses from such derivatives in net income. We also entered into commodity derivatives in order to attempt to profit from market fluctuations. These derivative instruments were financial positions entered into without underlying physical inventory and were not considered hedges. Changes in the fair values were recorded in net income

The volume of commodity contracts is based on open derivative positions and represents the combined volume of our long and short positions on an absolute basis, which totaled 23.0 million barrels and 27.8 million barrels as of September 30, 2012 and December 31, 2011, respectively.

The fair values of our derivative instruments included in our consolidated balance sheets were as follows:

For derivatives designated as cash flow hedging instruments, once a hedged transaction occurs, we reclassify the effective portion from accumulated OCI to "Cost of product sales" or "Interest expense, net." As of September 30, 2012, we expect to reclassify a loss of \$25.6 million to "Cost of product sales" and a loss of \$4.2 million to "Interest expense, net" within the next twelve months. The maximum length of time over which we are hedging our exposure to the variability in future cash flows is approximately three years for our commodity contracts and less than one year for our forward-starting interest rate swaps.

9. RELATED PARTY TRANSACTIONS

NuStar GP, LLC

Our operations are managed by NuStar GP, LLC, the general partner of our general partner. Under a services agreement between NuStar Energy and NuStar GP, LLC, employees of NuStar GP, LLC perform services for our United States operations. Certain of our wholly owned subsidiaries employ persons who perform services for our international operations. Employees of NuStar GP, LLC provide services to both NuStar Energy and NuStar GP Holdings; therefore, we reimburse NuStar GP, LLC for all costs related to its employees, other than costs associated with NuStar GP Holdings.

We had a payable to NuStar GP, LLC of \$13.7 million and \$6.7 million as of September 30, 2012 and December 31, 2011, respectively, with both amounts representing payroll, employee benefit plan expenses and unit-based compensation. We also had a long-term payable to NuStar GP, LLC as of September 30, 2012 and December 31, 2011 of \$16.0 million and \$14.5 million, respectively, related to amounts payable for retiree medical benefits and other post-employment benefits.

Asphalt JV

As of September 30, 2012, we had a receivable from Asphalt JV of \$2.1 million associated with the Asphalt Sale.

Financing Agreements and Credit Support. The NuStar JV Facility is an unsecured revolving credit facility provided by NuStar Energy that will be available to fund working capital needs and for general purposes of Asphalt JV in an aggregate principal amount not to exceed \$250.0 million for a term of seven years. The NuStar JV Facility matures on September 28, 2019 and bears interest based on either an alternative base rate or a LIBOR-based rate. We recognize interest income over the term of the facility in "Interest expense, net" on the consolidated statements of comprehensive income. As of September 30, 2012, the interest rate was 4.875%. In the event NuStar Energy no longer owns an equity interest in Asphalt JV, the interest rate increases and the availability under the NuStar JV Facility is reduced to a maximum of \$167.0 million after two years and \$83.0 million after three years. On September 28, 2012, Asphalt JV borrowed \$170.7 million from us under the NuStar JV Facility.

In addition, during the term of the NuStar JV Facility, NuStar Energy will provide credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$150.0 million. As of September 30, 2012, NuStar Energy has provided guarantees for commodity purchases, lease obligations and certain utilities for Asphalt JV with a maximum potential exposure of \$141.8 million. In addition, NuStar has provided three guarantees to suppliers that do not specify a maximum amount. All guarantees were in existence prior to the Asphalt Sale, and the majority of these guarantees have no expiration date. In the event NuStar Energy must fund its obligation under these guarantees, that amount will be added to borrowings under the NuStar JV Facility.

Terminal Service Agreements. Simultaneously with the Asphalt Sale, we entered into four terminal service agreements with Asphalt JV for our terminals in Wilmington, NC, Rosario, NM, Catoosa, OK and Houston, TX. Pursuant to the terms of the agreements, we will provide aggregate storage capacity of 0.8 million barrels and blending services to Asphalt JV for a service charge of \$1.5 million per year. The storage charge will be adjusted annually based on the percentage increase in the consumer price index. The terminal service agreements each have a term of ten years, with Asphalt JV's option to extend for an additional five years. Asphalt JV also has the option to terminate any terminal service agreement with 90 days written notice. If any of the terminal service agreements are extended, the storage charge will be based on the then-current fair market storage rates for

comparable storage services charged by us to third parties.

Crude Oil Supply Agreements. In connection with the Asphalt Sale, NuStar Marketing LLC assigned the crude oil supply agreement (the PDVSA Crude Oil Supply Agreement) with an affiliate of Petróleos de Venezuela S. A. (PDVSA) to NuStar Logistics.

Simultaneously with the Asphalt Sale, we entered into a crude oil supply agreement with Asphalt JV (the Asphalt JV Crude Oil Supply Agreement) that commits Asphalt JV to purchase from us in a given year the lesser of (i) the number of barrels of crude oil required to be purchased by us from PDVSA under the PDVSA Crude Oil Supply Agreement for such year or (ii) 35,000 barrels per day of crude oil multiplied by the number of days in such year. The price for the crude oil under this agreement will be the actual price paid by us to PDVSA under the PDVSA Crude Oil Supply Agreement and will include any credits received or adjustments made. The Asphalt JV Crude Oil Supply Agreement is effective for the term of the PDVSA Crude Oil Supply Agreement.

Services Agreements Between Asphalt JV and NuStar GP, LLC. In conjunction with the Asphalt Sale, NuStar GP, LLC entered into a services agreement with Asphalt JV, effective September 28, 2012 (the Asphalt JV Services Agreement). The Asphalt JV Services Agreement provides that NuStar GP, LLC will furnish certain administrative and other operating services necessary to conduct the business of Asphalt JV. Asphalt JV will compensate NuStar GP, LLC for these services through an annual fee totaling \$10.0 million, subject to adjustment based on the annual merit increase percentage applicable to NuStar GP, LLC employees for the most recently completed contract year. The Asphalt JV Services Agreement will terminate on December 31, 2017 and will automatically renew for successive two-year terms. Asphalt JV may terminate the Asphalt JV Services Agreement at any time, with 180 days prior written notice or reduce the level of service with 45 days prior written notice.

In addition, NuStar GP, LLC entered into an employee services agreement with Asphalt JV, effective September 28, 2012 (the Asphalt JV Employee Services Agreement). The Asphalt JV Employee Services Agreement provides that certain of NuStar GP, LLC employees will provide employee-services to Asphalt JV. In exchange, Asphalt JV will reimburse NuStar GP, LLC for the compensation expense of those employees at the same rates that were in effect at the effective date of the Asphalt JV Employee Services Agreement, including an annual bonus amount that does not exceed NuStar GP, LLC's target bonus plan. The employees covered under the Asphalt JV Employee Services Agreement will not be entitled to any new unit-based compensation grants from NuStar GP, LLC, and Asphalt JV will not be responsible for unit-based compensation costs prior to the effective date. The Asphalt JV Employee Services Agreement will terminate on December 31, 2012.

Other

For the three and nine months ended September 30, 2012, the majority of related party revenues resulted from storage agreements between our Turkey subsidiary and the noncontrolling shareholder. We had a receivable of \$0.3 million as of September 30, 2012 related to these revenues.

10. OTHER (EXPENSE) INCOME

Other (expense) income, net consisted of the following:

	Three Months Ended September 30,				Nine Months Ended September 30			
	2012			2011		2012		2011
				(Thousands	of Do	llars)		
(Loss) gain from sale or disposition of assets	\$	(19,880)	\$	(119)	\$	(19,828)	\$	117

Other, net		1,009		1,077		2,012		(49)
Other (expense) income, net	\$	(19,940)	\$	767	\$	(21,384)	\$	(5,699)

For the three and nine months ended September 30, 2012, the (loss) gain on sale or disposition of assets included a \$21.6 million loss in connection with the deconsolidation of Asphalt JV. See Note 2. Dispositions for additional discussion on the Asphalt Sale.

For the nine months ended September 30, 2011, "Other (expense) income, net" included \$5.0 million in costs associated with the early termination of a third-party storage agreement at our Paulsboro, New Jersey asphalt refinery.

11. PARTNERS' EQUITY

Issuance of Common Units

On September 10, 2012, we issued 7,130,000 common units representing limited partner interests at a price of \$48.94 per unit. We used the net proceeds from this offering of \$344.1 million, including a contribution of \$7.1 million from our general partner to maintain its 2% general partner interest, for general partnership purposes, including repayments of outstanding borrowings under our 2012 Revolving Credit Agreement and working capital purposes.

Partners' Equity Activity

The following table summarizes changes in the carrying amount of equity attributable to NuStar Energy L.P. partners and noncontrolling interest:

Allocations of Net Income

Our partnership agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common unitholders and the general partner will receive. The partnership agreement also contains provisions for the allocation of net income and loss to the unitholders and the general partner. For purposes of maintaining partner capital accounts, the partnership agreement specifies that items of income and loss shall be allocated among the partners in accordance with their respective percentage interests. Normal allocations according to percentage interests are made after giving effect to priority income allocations, if any, in an amount equal to incentive cash distributions allocated 100% to the general partner. The following table details the calculation of net income applicable to the general partner:

	Thr	Three Months Ended September 30,			Nine Months Ended September 30,			
	2012		2011		2012			2011
				(Thousands	of D	ollars)		
Net (loss) income attributable to NuStar Energy L.P.	\$	4,389	\$	70,158	\$	(215,997)	\$	191,259
Less general partner incentive distribution		10,805		8,972		30,437		26,503
Net (loss) income after general partner incentive distribution		(6,416)		61,186		(246,434)		164,756
General partner interest		2%		2%		2%		2%
General partner allocation of net (loss) income after general partner incentive distribution		(128)		1,223		(4,928)		3,294
General partner incentive distribution		10,805		8,972		30,437		26,503
Net income applicable to general partner	\$	10,677	\$	10,195	\$	25,509	\$	29,797

Cash Distributions

On August 10, 2012, we paid a quarterly cash distribution totaling \$89.1 million, or \$1.095 per unit, related to the second quarter of 2012. On October 25, 2012, we announced a quarterly cash distribution of \$1.095 per unit related to the third quarter of 2012. This distribution will be paid on November 14, 2012 to unitholders of record on November 9, 2012 and will total \$98.1 million.

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	Three Months Ended September 30,				Nine Months Ended September 30,				
	2012		2011		2012			2011	
	((Thousands of Dollars, Except Per Unit				_	
General partner interest	\$	1,961	\$	1,628	\$	5,525	\$	4,847	
General partner incentive distribution		10,805		8,972		30,437		26,503	
Total general partner distribution		12,766		10,600		35,962		31,350	
Limited partners' distribution		85,285		70,814		240,241		211,019	
Total cash distributions	\$	98,051	\$	81,414	\$	276,203	\$	242,369	
Cash distributions per unit applicable to limited partners	\$	1.095	\$	1.095	\$	3.285	\$	3.265	

12. NET INCOME PER UNIT

We have identified the general partner interest and incentive distribution rights (IDR) as participating securities and use the two-class method when calculating the net income per unit applicable to limited partners, which is based on the weighted-average number of common units outstanding during the period. Basic and diluted net income per unit applicable to limited partners are the same because we have no potentially dilutive securities outstanding.

The following table details the calculation of earnings per unit:

	Three Months Ended September 30,			Nine Months Ended September 30,				
	2012 2011			2012			2011	
		(Thou	sands	s of Dollars, Exce	ept I	Unit and Per Unit	Data	a)
Net (loss) income attributable to NuStar Energy L.P.	\$	4,389	\$	70,158	\$	(215,997)	\$	191,259
Less general partner distribution (including IDR)		12,766		10,600		35,962		31,350
Less limited partner distribution		85,285		70,814		240,241		211,019
Distributions (greater than) less than earnings	\$	(93,662)	\$	(11,256)	\$	(492,200)	\$	(51,110)
General partner earnings:								
Distributions	\$	12,766	\$	10,600	\$	35,962	\$	31,350
Allocation of distributions (greater than) less than earnings (2%)		(1,874)		(225)		(9,846)		(1,023)
Total	\$	10,892	\$	10,375	\$	26,116	\$	30,327

13. STATEMENTS OF CASH FLOWS

Changes in current assets and current liabilities were as follows:

		Nine Months Ended September 30,				
	_	2012			2011	
	_	(Thousands of Dollars)				
Decrease (increase) in current assets:						
Accounts receivable	:	\$	95,213	\$	(148,814)	
Receivable from related party			(3,149)		_	
Inventories			60,878		(176,936)	
Income tax receivable			3,190		_	
Other current assets			(17,571)		(25,838)	
Increase (decrease) in current liabilities:						
Accounts payable			(11,854)		153,626	
Payable to related party			6,976		2,023	
Accrued interest payable			(5,867)		(6,092)	
Accrued liabilities			(21,253)		(21,471)	
Taxes other than income tax			2,662		5,607	
Income tax payable			(475)		1,468	
Changes in current assets and current liabilities		\$	108,750	\$	(216,427)	
	-					

The above changes in current assets and current liabilities differ from changes between amounts reflected in the applicable balance sheets due to our deconsolidation of the Asphalt Operations in connection with the Asphalt Sale and the effect of foreign currency translation.

Cash flows related to interest and income taxes were as follows:

	Nine Month	Nine Months Ended September 30,					
	2012		2011				
	(Thou	(Thousands of Dollars)					
Cash paid for interest, net of amount capitalized	\$ 85,3	583 \$	87,576				
Cash paid for income taxes, net of tax refunds received	\$ 18.3	308 \$	11.974				

14. INCOME TAXES

The tax effects of significant temporary differences representing deferred income tax assets and liabilities were as follows:

	September 30, 2012	Ι	December 31, 2011
	(Thousar	ds of D	ollars)
Deferred income tax assets:			
Net operating losses	\$ 24,552	2 \$	17,089

Net deferred income tax liability	\$ (28,77)) \$	(26,296)
Reported on the Consolidated Balance Sheets as:			
Deferred income tax asset	\$ 2,080) \$	9,141
Deferred income tax liability	(30,85)	.)	(35,437)
Net deferred income tax liability	\$ (28,77)	\$	(26,296)
•			

Grace Energy Corporation Matter

In connection with the settlement of the Grace Energy Corporation matter, we recognized a pre-tax gain of \$28.7 million within one of our taxable subsidiaries. As a result, we recorded related income tax expense of \$10.1 million, resulting from the reduction of the related deferred income tax asset. See Note 6. Commitments and Contingencies for a discussion on the Grace Energy Corporation matter.

Canadian Income Tax Audit

During the second quarter of 2012, we recorded \$1.0 million of additional income tax liability and \$2.2 million of interest and penalties associated with an ongoing Canadian income tax audit for the years 2006 through 2011. We also recorded \$1.3 million of Canadian withholding tax and \$0.7 million of interest and penalties associated with the withholding tax liability related to interest payments made from our Canadian subsidiaries to a United States entity from 2003 to 2009. We believe that adequate provisions for uncertainties related to the Canadian audits have been reflected in the financial statements.

15. SEGMENT INFORMATION

Our reportable business segments consist of storage, transportation, and asphalt and fuels marketing. Our segments represent strategic business units that offer different services and products. We evaluate the performance of each segment based on its respective operating income, before general and administrative expenses and certain non-segmental depreciation and amortization expense. General and administrative expenses are not allocated to the operating segments since those expenses relate primarily to the overall management at the entity level. Our principal operations include terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Intersegment revenues result from storage and throughput agreements with related parties at lease rates consistent with rates charged to third parties for storage and at pipeline tariff rates based upon the applicable published tariff.

Results of operations for the reportable segments were as follows:

	Th	ree Months En	September 30,	Ni	ine Months End	ed S	eptember 30,

16. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

NuStar Energy has no operations and its assets consist mainly of its investments in NuStar Logistics and NuPOP, both wholly owned subsidiaries. The senior notes issued by NuStar Logistics and NuPOP are fully and unconditionally guaranteed by NuStar Energy, and each of NuStar Logistics and NuPOP fully and unconditionally guarantee the outstanding senior notes of the other. As a result, the following condensed consolidating financial statements are presented as an alternative to providing separate financial statements for NuStar Logistics and NuPOP.

17. SUBSEQUENT EVENT

TexStar Purchase Agreement

On November 2, 2012, NuStar Logistics entered into an Asset Purchase Agreement (the Purchase Agreement) with TexStar Crude Oil Services, LP, TexStar Crude Oil Pipeline, LP, TexStar Midstream Utility, LP, TexStar Midstream Transport, LP, TexStar Midstream Services, LP and Frio LaSalle Pipeline, LP (collectively, the Sellers), to purchase the following assets:

- approximately 140 miles of crude oil pipelines and gathering lines that are currently under construction and upon completion will have throughput capacity of 100,000 barrels per day (the Crude Oil Pipelines);
- five terminals and storage facilities providing 643,400 barrels of storage capacity (the Crude Oil Terminals and Storage Facilities); and
- 38 miles of natural gas liquids (NGL) Y-grade pipeline and two fractionators with a combined capacity of 57,000 barrels per day (the NGL Assets); with the NGL Assets currently under construction.

The acquisition also includes a lease for a terminal and storage facility located near Corpus Christi providing 144,000 barrels of storage capacity (the Redfish Bay Lease). The Crude Oil Pipelines, the Crude Oil Terminals and Storage Facilities and the Redfish Bay Lease are collectively referred to herein as the "Crude Oil Assets." The Crude Oil Assets and the NGL Assets are collectively referred to herein as the "Assets."

The purchase price for the Assets is approximately \$425.0 million, subject to certain purchase price adjustments, and is expected to close in two separate transactions. The acquisition of the Crude Oil Assets is expected to close in December 2012 (the Initial Closing), subject to customary closing conditions such as approval under the Hart-Scott Rodino Antitrust Improvements Act. The acquisition of the NGL Assets is expected to close in the first quarter of 2013 (the Second Closing), subject to certain closing conditions such as completion of the Initial Closing and achieving certain milestones with respect to the development of the NGL Assets. If the Second Closing does not occur, it will have no impact on the Purchase Agreement with respect to the Crude Oil Assets. The Initial Closing and the Second Closing are collectively referred to herein as the "Transaction." Upon the Initial Closing, we will pay the Sellers approximately \$325.0 million and at the Second Closing, we will pay the Sellers approximately \$100.0 million. Both payments are subject to certain purchase price adjustments. We expect to fund the purchase price with a combination of borrowings under our 2012 Revolving Credit Agreement and potential equity or debt offerings, pending market conditions.

The parties to the Purchase Agreement have made customary representations, warranties and covenants for a transaction of this type in this industry, including, among others, Sellers' agreement to continue to operate the Assets, during the period prior to the consummation of the Transaction, in the ordinary course of business, consistent with past practice or as otherwise set forth in the Purchase Agreement. The Sellers also agreed to continue construction of the Crude Oil Assets and NGL Assets. The Purchase Agreement also contains post-closing indemnification obligations for, among other matters, breaches of representations and warranties and certain retained and assumed obligations.

The Purchase Agreement contains certain termination rights prior to consummation of the Transaction by: (i) mutual written consent of NuStar Logistics and Sellers; (ii) NuStar Logistics if casualty losses result in damages in excess of \$17.0 million; (iii) NuStar Logistics or Sellers, as applicable, if the other party has breached a representation, warranty or covenant contained in the Purchase Agreement so that such party is incapable of fulfilling its obligations under a closing condition; (iv) by NuStar Logistics or Sellers if the Initial Closing has not occurred by December 15, 2012, subject to extension as provided in the Purchase Agreement; or (v) by NuStar Logistics or Sellers if the Second Closing has not occurred by January 31, 2013, subject to extension as provided in the Purchase Agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain estimates, predictions, projections, assumptions and other forward-looking statements that involve various risks and uncertainties. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested in this report. These forward-looking statements can generally be identified by the words "anticipates," "believes," "expects," "plans," "intends," "estimates," "forecasts," "budgets," "projects," "will," "could," "should," "may" and similar expressions. These statements reflect our current views with regard to future events and are subject to various risks, uncertainties and assumptions. Please read our Annual Report on Form 10-K for the year ended December 31, 2011, Part I, Item 1A "Risk Factors," as well as our subsequent current and quarterly reports, for a discussion of certain of those risks, uncertainties and assumptions.

If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those described in any forward-looking statement. Other unknown or unpredictable factors could also have material adverse effects on our future results. Readers are cautioned not to place undue reliance on this forward-looking information, which is as of the date of this Form 10-Q. We do not intend to update these statements unless it is required by the securities laws to do so, and we undertake no obligation to publicly release the result of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

OVERVIEW

NuStar Energy L.P. (NuStar Energy) is a publicly held Delaware limited partnership engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms "NuStar Energy," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 15.1% total interest in us as of September 30, 2012. Our Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in six sections:

- Overview
- Results of Operations
- Trends and Outlook
- Liquidity and Capital Resources
- Related Party Transactions
- Critical Accounting Policies

Operations

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). Our operations are divided into three reportable business segments: storage, transportation, and asphalt and fuels marketing.

Storage. We own terminals and storage facilities in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, the United Kingdom and Turkey providing approximately 83.0 million barrels of storage capacity. Our terminals and storage facilities provide storage and handling services on a fee basis for petroleum products, specialty chemicals and other liquids, including crude oil and other feedstocks.

Transportation. We own common carrier refined product pipelines in Texas, Oklahoma, Colorado, New Mexico, Kansas, Nebraska, Iowa, South Dakota, North Dakota and Minnesota covering approximately 5,480 miles, consisting of the Central West System, the East Pipeline and the North Pipeline. The East and North Pipelines also include 21 terminals providing storage capacity of 4.5 million barrels, and the East Pipeline includes two tank farms providing storage capacity of 1.2 million barrels. In addition, we own a 2,000 mile anhydrous Ammonia Pipeline located in Louisiana, Arkansas, Missouri, Illinois, Indiana, Iowa and Nebraska. We also own 953 miles of crude oil pipelines in Texas, Oklahoma, Kansas, Colorado and Illinois, as well as 1.9 million barrels of crude storage in Texas and Oklahoma located along those crude oil pipelines. We charge tariffs on a per barrel basis for transporting refined products, crude oil and other feedstocks in our refined product and crude oil pipelines and on a per ton basis for transporting anhydrous ammonia in our Ammonia Pipeline.

Table of Contents

Asphalt and Fuels Marketing. Our asphalt and fuels marketing segment includes our asphalt operations, fuels marketing operations and our San Antonio refinery. Our asphalt operations include two asphalt refineries with a combined throughput capacity of 104,000 barrels per day at which we refine crude oil to produce asphalt and certain other refined products. Within our fuels marketing operations, we purchase crude oil and refined petroleum products for resale. Additionally, this segment includes a fuels refinery in San Antonio, Texas, with a throughput capacity of 14,500 barrels per day at which we refine crude oil to produce various refined petroleum products. The results of operations for the asphalt and fuels marketing segment depend largely on the margin between our cost and the sales prices of the products we market. Therefore, the results of operations for this segment are more sensitive to changes in commodity prices compared to the operations of the storage and transportation segments. We enter into derivative contracts to attempt to mitigate the effects of commodity price fluctuations.

On September 28, 2012, we sold a 50% voting interest (the Asphalt Sale) in NuStar Asphalt LLC (Asphalt JV), previously a wholly-owned subsidiary, to an affiliate of Lindsay Goldberg LLC (Lindsay Goldberg), a private investment firm. Asphalt JV owns and operates asphalt refining assets that were previously wholly owned by NuStar Energy, including the asphalt refineries located in Paulsboro, New Jersey and Savannah, Georgia (collectively, the Asphalt Operations). Lindsay Goldberg paid \$175.0 million for the Class A equity interests (Class A Interests) of Asphalt JV, while we retained the Class B equity interests with a fair value of \$52.0 million (Class B Interests). The Class A Interests have a distribution preference over the Class B Interests, as well as a liquidation preference. At closing, we received \$261.3 million from Asphalt JV for inventory related to the Asphalt Operations, pending a final inventory valuation. Since the fair value of the consideration we received was less than the carrying amount of the assets of the Asphalt Operations, we recognized a loss of \$21.6 million in "Other (expense) income, net" in the condensed consolidated statements of comprehensive income for the three and nine months ended September 30, 2012.

Upon closing, we deconsolidated Asphalt JV and started reporting our remaining investment in Asphalt JV using the equity method of accounting. Therefore, as of September 30, 2012, we have presented our 50% interest in Asphalt JV as "Investment in joint ventures" on the consolidated balance sheet. The condensed consolidated statements of comprehensive income include the results of operations for Asphalt JV in "Equity in earnings of joint ventures" commencing on September 28, 2012. Because of our continued involvement with Asphalt JV, we have not presented the results of operations for the Asphalt Operations prior to closing as discontinued operations.

In anticipation of the Asphalt Sale, we evaluated the goodwill and other long-lived assets associated with the Asphalt Operations for potential impairment. We determined the fair value of the Asphalt Operations reporting unit was less than its carrying value, which resulted in the recognition of a goodwill impairment loss of \$22.1 million in the second quarter of 2012. In addition, we recorded an impairment loss of \$244.3 million in the second quarter of 2012 to write-down the carrying value of long-lived assets related to the Asphalt Operations, including fixed assets, intangible assets and other long-term assets to their estimated fair value. The goodwill impairment loss and the asset impairment loss related to the Asphalt Operations is reported in the asphalt and fuels marketing segment. Please refer to Note 2 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of the Asphalt Sale. Please refer to Note 3 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements in Item 1. "Financial Statements" for a discussion on the related asset impairments and the fair value measurements.

The following factors affect the results of our operations:

- company-specific factors, such as facility integrity issues and maintenance requirements that impact the throughput rates of our assets;
- seasonal factors that affect the demand for products transported by and/or stored in our assets and the demand for products we sell, particularly asphalt;
- industry factors, such as changes in the prices of petroleum products, that affect demand and operations of our competitors;
- factors such as commodity price volatility that impact our asphalt and fuels marketing segment; and
- other factors, such as refinery utilization rates and maintenance turnaround schedules, that impact our refineries as well as the operations of refineries served by our storage and transportation assets.

RESULTS OF OPERATIONS

Highlights

Net income decreased \$65.9 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to a decrease in segment operating income and an increase in other expense and general and administrative expenses. Segment operating income decreased \$35.2 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to an operating loss from the asphalt and fuels marketing segment. Other expense increased for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to a \$21.6 million loss related to the Asphalt Sale.

Storage

Throughputs increased 58,942 barrels per day and throughput revenues increased \$1.5 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to new contracts at our Corpus Christi crude storage tanks that became effective July 1, 2012 associated with Eagle Ford Shale projects. Throughputs and revenues also increased due to increased demand in markets served by our Texas City crude storage tanks.

Storage lease revenues increased \$5.6 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to an increase of \$12.1 million from completed expansion projects, including a new unit train offloading facility and tank expansion at our St. James terminal.

These increases were partially offset by:

- a decrease of \$2.3 million due to the sale of five refined product terminals in April 2012;
- a decrease of \$1.9 million due to the conversion of some lease-based contracts to throughput-based contracts at our Corpus Christi crude storage tanks effective July 1, 2012 associated with Eagle Ford Shale projects; and
- a decrease of \$1.5 million at our Point Tupper terminal, mainly due to a decrease in throughputs.

Operating expenses increased \$3.8 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to increased salaries and wages and less capitalized overhead as a result of fewer capital projects.

Depreciation and amortization expense increased \$1.6 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to the completion of the St. James terminal unit train and tank expansion projects.

Transportation

Revenues increased \$11.8 million and throughputs increased 47,719 barrels per day, for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to:

- an increase in revenues of \$6.7 million and an increase in throughputs of 48,912 barrels per day on crude oil pipelines that serve Eagle Ford Shale production in South Texas, two of which were placed in service in the second and third quarters of 2011. In addition, we entered into a new customer contract and increased fees on certain pipelines in the third quarter of 2012;
- an increase in revenues of \$1.7 million and an increase in throughputs of 5,340 barrels per day on the North Pipeline mainly due to increased output following the completion of an expansion project at the Mandan refinery in June 2012;
- an increase in revenues of \$1.4 million and an increase in throughputs of 7,580 barrels per day on the East Pipeline mainly due to 2011 turnaround activity and operating issues at refineries served by the pipeline;
- an increase in revenues of \$1.3 million and an increase in throughputs of 7,878 barrels per day on refined product pipelines that serve the McKee refinery due to increased demand; and
- an increase in revenues of \$1.2 million and an increase in throughputs of 11,782 barrels per day on the Elmendorf to San Antonio crude oil pipeline that was placed in service in April 2012.

These increases in revenues and throughputs were partially offset by a decrease in revenues of \$2.0 million and a decrease in throughputs of 25,298 barrels per day on the Houston pipeline as it is being converted to new service.

Operating expenses increased \$7.0 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to temporary barge rental costs to move a customer's product associated with Eagle Ford Shale projects and increased regulatory expenses on the Ammonia Pipeline.

Asphalt and Fuels Marketing

Sales and cost of product sales decreased \$95.6 million and \$50.0 million, respectively, resulting in a decrease in total gross margin of \$45.6 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011. The gross margin from our fuels marketing operations decreased \$22.0 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to hedge losses and a decrease in the gross margin per barrel and volumes sold associated with our crude oil sales. In addition, we reduced the scope of our bunker fuel operations this quarter by liquidating our inventory and exiting two markets where results had been weak, which contributed to the decrease in gross margin for our bunker fuel sales.

The gross margin from the San Antonio refinery decreased \$14.5 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to hedge losses and a decrease in the gross margin per

barrel, which resulted from higher weighted-average inventory costs and sales prices that either decreased, or remained flat, compared to the same period in prior year.

The gross margin from our asphalt operations decreased \$8.7 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to weak demand for asphalt, resulting in a 17% decrease in volumes sold and a decrease in gross margin per barrel. The gross margin per barrel decreased to \$5.55 for the three months ended September 30, 2012, compared to \$5.96 for the three months ended September 30, 2011.

Operating expenses remained flat for the three months ended September 30, 2012, compared to the three months ended September 30, 2011. Operating expenses for our fuels marketing operations increased, mainly due to increased fuel and vessel costs associated with bunker fuel sales and increased railcar costs associated with fuel oil sales. Increases in operating expenses were offset by decreased costs associated with storage agreements that expired in 2012 related to our asphalt operations.

Depreciation and amortization expense decreased \$4.7 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, as a result of reclassifying depreciable assets related to our asphalt operations to "Assets held for sale" on the consolidated balance sheet and discontinuing depreciation of these assets as of June 30, 2012.

Consolidation and Intersegment Eliminations

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

General

General and administrative expenses increased \$7.2 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, primarily due to higher compensation expense associated with our long-term incentive plans, which fluctuates with our unit price.

Equity in (loss) earnings of joint ventures changed by \$3.6 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to a \$3.3 million loss from our investment in Asphalt JV.

Interest expense, net increased \$3.3 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to higher interest rates and letter of credit fees on the new \$1.5 billion five-year revolving credit agreement. In addition, we had reduced benefits from interest rate swaps for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, as we had fewer fixed-to-floating interest rate swaps in 2012 compared to 2011, and in February 2012, we began recognizing the interest expense related to terminated forward-starting interest rate swap agreements.

Other (expense) income, net changed by \$20.7 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to a \$21.6 million loss associated with the Asphalt Sale.

Income tax expense decreased \$3.9 million for the three months ended September 30, 2012, compared to the three months ended September 30, 2011, mainly due to lower taxable income.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Highlights

For the nine months ended September 30, 2012, we reported a net loss of \$216.2 million, compared to net income of \$191.4 million for the nine months ended September 30, 2011, primarily due to an operating loss of \$324.0 million in the asphalt and fuels marketing segment. The operating loss of the asphalt and fuels marketing segment mainly resulted from an asset impairment charge of \$266.4 million in the second quarter of 2012 related to the long-lived assets of our asphalt operations. In addition, the gross margin for the asphalt and fuels marketing segment decreased \$141.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011.

Storage

Throughput revenues increased \$9.3 million and throughputs increased 76,862 barrels per day for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to a turnaround in the first quarter of 2011 at the refinery served by our Benicia crude oil storage tanks. In addition, throughputs and revenues increased at the Edinburg, Texas and Harlingen, Texas terminals due to ethanol blending services that started in the third quarter of 2011 and at certain terminals serving the McKee refinery as customers shifted volumes to our terminals in 2012 due to maintenance requirements.

Storage lease revenues increased \$19.7 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to:

- an increase of \$30.2 million at our St. James terminal resulting from completed tank expansion projects and the unit train offloading facility project, as well as new customer contracts and rate escalations; and
- an increase of \$4.5 million at our St. Eustatius terminal facility mainly due to rate escalations and increased reimbursable revenues.

These increases in revenues were partially offset by:

- a decrease in revenues of \$6.9 million at our Point Tupper terminal facility, mainly due to decreased dockage and throughputs, which were partially offset by higher storage revenues;
- a decrease in revenues of \$4.8 million due to the sale of five refined product terminals in April 2012; and
- a decrease in revenues of \$4.9 million at our UK, Amsterdam and Turkey terminals, mainly due to the effect of foreign exchange rates and a decrease in customer product movements.

Depreciation and amortization expense increased \$5.1 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to the completion of the St. James terminal unit train and tank expansion projects.

The asset impairment loss of \$2.1 million for the nine months ended September 30, 2012 represents the write-down of the carrying value of one of our terminals due to changing market conditions that reduced the estimated cash flows for that terminal.

Transportation

Revenues increased \$20.6 million and throughputs increased 10,726 barrels per day, for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to:

- an increase in revenues of \$9.5 million and an increase in throughputs of 31,641 barrels per day on pipelines that
 were placed in service in the second and third quarters of 2011 to serve Eagle Ford Shale production in South
 Texas;
- an increase in revenues of \$4.5 million on the Ammonia Pipeline, while throughputs remained flat, due to increased long-haul deliveries resulting in a higher average tariff. Fewer long-haul deliveries occurred in 2011 due to supply issues caused by flooding in the Midwest;
- an increase in revenues of \$4.0 million on the East Pipeline, despite a decrease in throughputs of 4,914 barrels per
 day, due to higher average tariffs resulting from increased long-haul deliveries and an increase in the annual index
 adjustment;
- an increase in revenues of \$2.2 million and an increase in throughputs of 7,405 barrels per day on the Elmendorf to San Antonio crude oil pipeline that was placed in service in April 2012;
- an increase in revenues of \$2.1 million and an increase in throughputs of 1,308 barrels per day on the North Pipeline, mainly due to an increase in the annual index adjustment and the completion of an expansion project at the Mandan refinery in June 2012; and
- an increase in revenues of \$1.8 million and an increase in throughputs of 6,237 barrels per day on refined product pipelines serving the Three Rivers refinery, mainly due to a turnaround and operational issues in 2011 at the refinery.

These increases in revenues and throughputs were partially offset by:

- a decrease in revenues of \$3.4 million and a decrease in throughputs of 32,671 barrels per day on pipelines serving the McKee refinery, primarily due to a turnaround at the McKee refinery in April and May 2012. The decrease in revenues was partially offset by a throughput deficiency payment received in the second quarter of 2012 related to one of the pipelines serving the McKee refinery; and
- a decrease in revenues of \$1.9 million and a decease in throughputs of 8,846 barrels per day on the Houston pipeline as it is being converted to new service.

Operating expenses increased \$10.7 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to temporary barge rental costs to move a customer's product associated with Eagle Ford Shale projects and increased regulatory expenses on the Ammonia Pipeline.

Asphalt and Fuels Marketing

Sales and cost of product sales increased \$697.1 million and \$838.5 million, respectively, resulting in a decrease in total gross margin of \$141.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011. The gross margin from our asphalt operations decreased \$79.3 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to a decrease in gross margin per barrel, as well as a decrease in sales volumes. The gross margin per barrel decreased to \$4.79 for the nine months ended September 30, 2012, compared to \$9.67 for the nine months ended September 30, 2011, while sales volumes decreased by approximately 15%.

The gross margin from the San Antonio refinery, acquired in the second quarter of 2011, decreased \$27.7 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to hedge losses and falling sales prices coupled with higher weighted-average costs, which resulted in an overall negative gross margin.

The gross margin from our fuels marketing operations decreased \$34.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to rising costs, which outpaced rising sales prices, and hedge losses associated with fuel oil sales. In addition, the gross margin from bunker fuel sales decreased as a result of a decrease in the gross margin per barrel, despite an increase in volumes sold. We reduced the scope of our bunker fuel operations this quarter by liquidating our inventory and exiting two markets where results had been weak, which contributed to the decrease in gross margin for bunker fuel sales. Furthermore, during the second quarter of 2012, crude oil prices fell sharply, causing a similar decline in prices for our fuel oil and bunker fuel. During this period of declining prices, we did not hedge our fuel oil and bunker fuel inventories, and the gross margin earned for sales of those products declined significantly.

Operating expenses increased \$15.3 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to increased fuel and vessel costs associated with bunker fuel sales and increased railcar costs associated with fuel oil sales.

Depreciation and amortization expense decreased \$1.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily as a result of reclassifying depreciable assets related to our asphalt operations to "Assets held for sale" on the consolidated balance sheet and discontinuing depreciation of these assets as of June 30, 2012.

The asset impairment loss of \$266.4 million for the nine months ended September 30, 2012 represents the write-down of the carrying value of our long-lived assets related to our asphalt operations, including fixed assets, goodwill, intangible assets and other long-term assets, in the second quarter of 2012.

Consolidation and Intersegment Eliminations

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

General

General and administrative expenses increased \$5.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to higher compensation expense associated with our long-term incentive plans, which fluctuates with our unit price.

The other asset impairment loss of \$3.3 million for the nine months ended September 30, 2012 represents the write-down of the carrying value of certain corporate assets we intend to sell to the estimated sales price.

The gain on legal settlement of \$28.7 million for the nine months ended September 30, 2012 represents the settlement of the Grace Energy Corporation matter in the second quarter of 2012. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of the Grace Energy Corporation matter.

Equity in earnings of joint ventures decreased \$3.2 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, primarily due to a \$3.3 million loss from our investment in Asphalt JV.

Interest expense, net increased \$8.4 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to higher interest rates and letter of credit fees on the new \$1.5 billion five-year revolving

credit agreement. In addition, we had reduced benefits from interest rate swaps for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, as we had fewer fixed-to-floating interest rate swaps in 2012 compared to 2011, and in February 2012, we began recognizing the interest expense related to terminated forward-starting interest rate swap agreements.

Other expense, net decreased \$15.7 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due a \$21.6 million loss associated with the Asphalt Sale in September 2012. For the nine months ended September 30, 2011, other expense, net included \$5.0 million in costs associated with the early termination of a third-party storage agreement at our Paulsboro, New Jersey asphalt refinery.

Income tax expense increased \$7.0 million for the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, mainly due to tax expense of \$10.1 million related to the \$28.7 million gain on legal settlement recognized in the second quarter of 2012, which was partially offset by lower taxable income. Please refer to Note 14 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion on income taxes.

TRENDS AND OUTLOOK

Storage Segment

In the fourth quarter of 2012, we expect the storage segment to continue to benefit from internal growth projects completed in 2011 as well as those completed in 2012, mainly at our St. James, Louisiana terminal. The fourth quarter should also begin to benefit from a tank expansion project at our St. Eustatius terminal in the Caribbean, which we expect to complete in the fourth quarter. However, fourth quarter 2012 earnings are expected to be comparable to the fourth quarter of 2011 as the expected additional earnings from those completed projects should be partially offset by higher maintenance costs at several of our terminal facilities. Overall, we expect the full year 2012 earnings for the storage segment to exceed 2011.

Transportation Segment

We expect earnings of the transportation segment for the fourth quarter and the full year 2012 to be higher as compared to the same periods in 2011. Earnings for this segment should benefit from higher throughputs related to the pipeline expansion projects completed in 2011 and in July and October of 2012 that serve Eagle Ford Shale production. The fourth quarter will also benefit from the tariff increase in the second quarter of 2012 on our pipelines regulated by the Federal Energy Regulatory Commission.

Asphalt and Fuels Marketing Segment

We completed the sale of 50% of the Asphalt Operations in the third quarter of 2012. Upon closing of the sale, we deconsolidated the Asphalt Operations and we will prospectively report our remaining investment using the equity method of accounting. Because of our ongoing involvement with the Asphalt Operations, we will not report its historic results of operations as discontinued operations. Therefore, our future results of operations for this segment, subsequent to deconsolidation, will not be comparable to the corresponding prior periods.

Although we expect fourth quarter 2012 results for our fuels marketing operations to exceed the fourth quarter of 2011, full year 2012 earnings for the fuels marketing operations are expected to be less than the full year results for the prior year, primarily due to lower earnings from heavy fuel oil and bunker fuel marketing.

Fourth quarter 2012 results for the asphalt and fuels marketing segment are expected to be higher than fourth quarter 2011 mainly due to losses sustained by the Asphalt Operations in 2011 that will no longer be reported as part of this segment.

Our outlook for the partnership overall could change depending on, among other things, crude oil prices, the state of the economy, changes to refinery maintenance schedules and other factors that affect overall demand for the products we store, transport and sell as well as changes in commodity prices for the products we market.

LIQUIDITY AND CAPITAL RESOURCES

General

Our primary cash requirements are for distributions to partners, working capital, including inventory purchases, debt service, capital expenditures, acquisitions and operating expenses. On an annual basis, we attempt to fund our operating expenses, interest expense, reliability capital expenditures and distribution requirements with cash generated from our operations. If we do not generate sufficient cash from operations to meet those requirements, we utilize available borrowing capacity under our revolving credit agreement and, to the extent necessary, funds raised through equity or debt offerings under our shelf registration statements. Additionally, we typically fund our strategic capital expenditures from external sources, primarily borrowings under our revolving credit agreement or funds raised through equity or debt offerings. However, our ability to raise funds by issuing debt or equity depends on many factors beyond our control. The volatility of the capital and credit markets could restrict our ability to issue debt or equity or may increase our cost of capital beyond rates acceptable to us.

Cash Flows for the Nine Months Ended September 30, 2012 and 2011

The following table summarizes our cash flows from operating, investing and financing activities:

	Nine Months Ended September 30,			
	2012 2011			2011
		(Thousands	of D	ollars)
Net cash provided by (used in):				
Operating activities	\$	271,879	\$	101,871
Investing activities		(22,030)		(352,655)
Financing activities		(163,362)		131,878
Effect of foreign exchange rate changes on cash		3,472		(3,001)
Net increase (decrease) in cash and cash equivalents	\$	89,959	\$	(121,907)

Net cash provided by operating activities for the nine months ended September 30, 2012 was \$271.9 million, compared to \$101.9 million for the nine months ended September 30, 2011. For the nine months ended September 30, 2012, we reported a net loss of \$216.2 million, compared to net income of \$191.4 million for the nine months ended September 30, 2011. The net loss for the nine months ended September 30, 2012 included \$271.8 million for non-cash asset impairment charges. In addition, working capital decreased by \$108.8 million for the nine months ended September 30, 2012, compared to an increase of \$216.4 million for the nine months ended September 30, 2011. Please refer to the Working Capital Requirements section below for a discussion of the changes in working capital. Cash flows from operating activities also include an adjustment to net loss for a pre-tax, non-cash gain on a legal settlement of \$28.8 million.

For the nine months ended September 30, 2012, net cash provided by operating activities, proceeds from long-term debt borrowings, net of repayments, and proceeds from our issuance of common units were used to fund our distributions to unitholders and our general partner and capital expenditures.

For the nine months ended September 30, 2011, net cash provided by operating activities, proceeds from long-term debt borrowings, net of repayments, combined with cash on hand, were used to fund our distributions to unitholders and our general partner, capital expenditures primarily related to various terminal projects and two acquisitions.

Revolving Credit Agreement

On May 2, 2012, NuStar Logistics replaced its \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement) with a new \$1.5 billion five-year revolving credit agreement (the 2012 Revolving Credit Agreement), which includes the ability to borrow up to the equivalent of \$250.0 million in Euros. NuStar Logistics used borrowings of \$588.6 million under the 2012 Revolving Credit Agreement and cash on hand to repay in full the balance on the 2007 Revolving Credit Agreement. Obligations under the 2012 Revolving Credit Agreement are guaranteed by NuStar Energy and NuPOP will be released from its guarantee of the 2012 Revolving Credit Agreement when it no longer guarantees NuStar Logistics public debt instruments. As of September 30, 2012, we had \$1,152.9 million available for borrowing under our 2012 Revolving Credit Agreement.

The 2012 Revolving Credit Agreement contains customary restrictive covenants, including requiring us to maintain, as of the end of each rolling period, which consists of any period of four consecutive fiscal quarters, a consolidated debt coverage ratio (consolidated indebtedness to consolidated EBITDA, as defined in the 2012 Revolving Credit Agreement) not to exceed 5.00-to-1.00; provided, for the rolling period ending June 30th of each year, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00. Moreover, if we consummate an acquisition for an aggregate net consideration of at least \$50.0

million, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00 for two rolling periods.

On June 29, 2012, we amended the 2012 Revolving Credit Agreement to permit unlimited investments in joint ventures and unconsolidated subsidiaries, provided that no default exists, and to limit the amount of cash distributions for such joint ventures and unconsolidated subsidiaries included in the calculation of the consolidated debt coverage ratio to 20% of consolidated EBITDA (the Amendment). In addition, the Amendment provides that we will be in compliance with the consolidated debt coverage ratio as long as it does not exceed 6.50-to-1.00 for the rolling period ended June 30, 2012 or 6.00-to-1.00 for the rolling period ending September 30, 2012. The Amendment further stipulates that if the Asphalt Operations were owned by an unconsolidated joint venture, the maximum allowed consolidated debt coverage would revert to 5.00-to-1.00. Therefore, as of September 30, 2012, our consolidated debt coverage ratio could not exceed 5.00-to-1.00. The requirement not to exceed a maximum consolidated debt coverage ratio may limit the amount we can borrow under the 2012 Revolving Credit Agreement to an amount less than the total amount available for borrowing. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements. As of September 30, 2012, the consolidated debt coverage ratio was 4.3x.

Shelf Registration Statements

Our two shelf registration statements on Form S-3 permit us to offer and sell various types of securities, including NuStar Energy common units and debt securities of NuStar Logistics and NuPOP. The shelf registration statement that became effective on April 29, 2011 permits us to sell securities having an aggregate value of up to \$200.0 million, while the shelf registration statement that became effective in May 2010 does not have a stated maximum dollar limit.

If the capital markets become more volatile, our access to the capital markets may be limited, or we could face increased costs. In addition, it is possible that our ability to access the capital markets may be limited at a time when we would like or need access, which could have an impact on our ability to refinance maturing debt and/or react to changing economic and business conditions.

Issuance of Common Units. On September 10, 2012, we issued 7,130,000 common units representing limited partner interests at a price of \$48.94 per unit. We used the net proceeds from this offering of \$344.1 million, including a contribution of \$7.1 million from our general partner to maintain its 2% general partner interest, for general partnership purposes, including repayments of outstanding borrowings under our 2012 Revolving Credit Agreement and working capital purposes.

NuStar Logistics' 4.75% Senior Notes. On February 2, 2012, NuStar Logistics issued \$250.0 million of 4.75% senior notes under our 2010 Shelf Registration Statement. The net proceeds of \$247.4 million were used to repay the outstanding principal amount of NuPOP's 7.75% senior notes due February 15, 2012. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements.

Capital Requirements

Our operations require significant investments to maintain, upgrade or enhance the operating capacity of our existing assets. Our capital expenditures consist of:

- reliability capital expenditures, such as those required to maintain equipment reliability and safety; and
- strategic capital expenditures, such as those to expand and upgrade pipeline capacity, terminal facilities or refinery
 operations and to construct new pipelines, terminals and storage tanks. In addition, strategic capital expenditures
 may include acquisitions of pipelines, terminals or storage tank assets, as well as certain capital expenditures
 related to support functions.

During the nine months ended September 30, 2012, our reliability capital expenditures totaled \$23.8 million, consisting of \$21.4 million primarily related to maintenance upgrade projects at our terminals and the San Antonio refinery, which are classified as "Reliability capital expenditures" in the consolidated statements of cash flows, and \$2.4 million of turnaround expenditures at our San Antonio refinery, which are classified as "Investment in other long-term assets" in our consolidated statements of cash flows. Strategic capital expenditures for the nine months ended September 30, 2012 totaled \$299.4 million and were primarily related to projects associated with Eagle Ford shale production in South Texas, projects at our St. James, Louisiana and St. Eustatius terminals, the San Antonio refinery and our corporate office.

For the full year 2012, we expect our capital expenditures to total approximately \$445.0 million to \$450.0 million, including \$45.0 million to \$50.0 million for reliability capital projects and \$400.0 million for strategic capital projects, not including acquisitions. We continue to evaluate our capital budget and make changes as economic conditions warrant, and our actual capital expenditures for 2012 may increase or decrease from the budgeted amounts. We believe cash generated from operations, combined with other sources of liquidity previously described, will be sufficient to fund our capital expenditures in 2012, and

our internal growth projects can be accelerated or scaled back depending on the condition of the capital markets.

Working Capital Requirements

The Asphalt Operations, which we deconsolidated as of September 28, 2012, required us to make substantial investments in working capital. Increases in the prices of the commodities we purchased caused our working capital requirements to increase, which reduced our liquidity. Our working capital requirements vary with fluctuations in commodity prices and the seasonal nature of asphalt demand as we built and stored asphalt inventories during periods of lower demand in order to sell it during periods of higher demand. This seasonal variance in demand also affected our accounts receivable and accounts payable balances, which vary depending on timing of payments.

Within working capital, accounts receivable decreased by \$95.2 million during the nine months ended September 30, 2012, compared to an increase of \$148.8 million during the nine months ended September 30, 2011, mainly due to decreases in bunker fuel sales as we reduced the scope of our bunker fuel operations in certain markets. In addition, our inventory balances decreased by \$60.9 million during the nine months ended September 30, 2012, compared to an increase of \$176.9 million during the nine months ended September 30, 2011. The decrease in inventory for the nine months ended September 30, 2012 was mainly due to a decrease in crude oil purchases related to the Asphalt Operations.

Higher inventory balances would typically also result in higher amounts of accounts payable, offsetting the impact to working capital. During the nine months ended September 30, 2012, accounts payable decreased \$11.9 million, consistent with the decrease in inventory during the period.

Distributions

On August 10, 2012, we paid a quarterly cash distribution totaling \$89.1 million, or \$1.095 per unit, related to the second quarter of 2012. On October 25, 2012, we announced a quarterly cash distribution of \$1.095 per unit related to the third quarter of 2012. This distribution will be paid on November 14, 2012 to unitholders of record on November 9, 2012 and will total \$98.1 million.

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	Th	ree Months En	ded Se	ptember 30,	Niı	Nine Months Ended September 30,			
		2012		2011	2012			2011	
		(Thousa	nds of Dollars, Ex	cept I	Per Unit Data)			
General partner interest	\$	1,961	\$	1,628	\$	5,525	\$	4,847	
General partner incentive distribution		10,805		8,972		30,437		26,503	
Total general partner distribution		12,766		10,600		35,962		31,350	
Limited partners' distribution		85,285		70,814		240,241		211,019	
Total cash distributions	\$	98,051	\$	81,414	\$	276,203	\$	242,369	
Cash distributions per unit applicable to limited partners	\$	1.095	\$	1.095	\$	3.285	\$	3.265	

Distributions declared for the quarter are paid within 45 days following the end of each quarter based on the partnership interests outstanding as of a record date that is set after the end of each quarter.

Debt Obligations

We are a party to the following debt agreements:

- the 2012 Revolving Credit Agreement due May 2, 2017, with a balance of \$63.7 million as of September 30, 2012.
- NuStar Logistics' 6.05% senior notes due March 15, 2013 with a face value of \$229.9 million; 7.65% senior notes due April 15, 2018 with a face value of \$350.0 million; 4.80% senior notes due September 1, 2020 with a face value of \$450.0 million; and 4.75% senior notes due February 1, 2022 with a face value of \$250.0 million;
- NuPOP's 5.875% senior notes due June 1, 2013 with a face value of \$250.0 million;
- NuStar Logistics' \$365.4 million Gulf Opportunity Zone Revenue Bonds due from 2038 to 2041;
- the £21 million term loan due December 11, 2012 (UK Term Loan); and
- the \$12.0 million note payable in annual installments through December 31, 2015 to the Port of Corpus Christi Authority of Nueces County, Texas, with a balance of \$0.9 million as of September 30, 2012.

We have \$479.9 million of debt maturing in 2013. We expect to refinance this debt by issuing additional senior notes or with borrowings under our 2012 Revolving Credit Facility.

On June 29, 2012, we amended the UK Term Loan to be consistent with the covenant terms of the 2012 Revolving Credit Agreement. As a result of this amendment to the UK Term Loan, the covenants and ratios of the UK Term Loan are substantially the same as the 2012 Revolving Credit Agreement. Management believes that, as of September 30, 2012, we are in compliance with all ratios and covenants of both the 2012 Revolving Credit Agreement and the UK Term Loan. Our other long-term debt obligations do not contain any financial covenants that are different than those contained in the 2012 Revolving Credit Agreement. However, a default under any of our debt instruments would be considered an event of default under all of our debt instruments. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements.

Credit Ratings

The interest rates on the 2012 Revolving Credit Agreement and NuStar Logistics' \$350.0 million of 7.65% senior notes are subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. In July 2012, Standard & Poor's lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. In August 2012, Fitch Ratings also lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. The interest rates applicable to the 2012 Revolving Credit Agreement do not adjust unless both Moody's and Standard & Poor's change their ratings. However, the downgrade by Standard & Poor's caused the interest rate on NuStar Logistics' \$350.0 million of 7.65% senior notes to increase by 0.25%. These downgrades may also require us to provide additional credit support for certain contracts.

Interest Rate Swaps

As of September 30, 2012 and December 31, 2011, we were a party to fixed-to-floating interest rate swap agreements and forward-starting swap agreements for the purpose of hedging interest rate risk. The following table contains information on our interest rate swap agreements:

	Notional Amount			Fair Value Asset (Liability)				
	Sep	otember 30, 2012	De	cember 31, 2011	Sep	otember 30, 2012	De	cember 31, 2011
				(Thousands	of D	ollars)		
Type of interest rate swap agreements:								
Fixed-to-floating	\$		\$	270,000	\$		\$	2,335
Forward-starting	\$	275,000	\$	500,000	\$	(41,117)	\$	(49,199)

During the six months ended June 30, 2012, we entered into and terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$200.0 million related to the 4.75% senior notes issued on February 2, 2012. We also terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$270.0 million associated with our 4.80% senior notes. We received \$19.7 million in connection with the terminations, which we are amortizing into "Interest expense, net" over the remaining lives of the 4.80% and 4.75% senior notes. In addition, in connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated a portion of our outstanding forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. We paid \$25.4 million in connection with the terminations of the forward-starting interest rate swaps, which is being amortized into "Interest expense, net" over the life of the 4.75% senior notes. Proceeds and payments related to the terminations are included in cash flows from financing activities on the consolidated statements of cash flows. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

Commitments

On November 17, 2010, we entered into a crude purchase commitment with Statoil Brasil Oleo E Gas Limitada (Statoil) to purchase an average of 10,000 barrels per day of crude oil over a three-year period, which began in December 2011. Pending receipt of and payment for one final shipment from Statoil in the fourth quarter of 2012, this agreement will be terminated.

In connection with the deconsolidation of the Asphalt Operations, our future minimum rental payments applicable to noncancellable operating leases were reduced by certain storage and railcar lease obligations.

Environmental, Health and Safety

We are subject to extensive federal, state and local environmental and safety laws and regulations, including those relating to the discharge of materials into the environment, waste management, pollution prevention measures, pipeline integrity and operator qualifications, among others. Because more stringent environmental and safety laws and regulations are continuously being enacted or proposed, the level of future expenditures required for environmental, health and safety matters is expected to increase.

Contingencies

We are subject to certain loss contingencies, the outcomes of which could have an adverse effect on our cash flows and results of operations, as further disclosed in Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements."

RELATED PARTY TRANSACTIONS

In connection with the Asphalt Sale, we provided an unsecured revolving credit facility that will be available to fund working capital needs and for general purposes of Asphalt JV in an aggregate principal amount not to exceed \$250.0 million for a term of seven years. The NuStar JV Facility matures on September 28, 2019 and bears interest based on either an alternative base rate or a LIBOR-based rate. We recognize interest income over the term of the facility in "Interest expense, net" on the consolidated statements of comprehensive income. As of September 30, 2012, the interest rate was 4.875%. In the event NuStar Energy no longer owns an equity interest in Asphalt JV, the interest rate increases and the availability under the NuStar JV Facility is reduced to a maximum of \$167.0 million after two years and \$83.0 million after three years. On September 28, 2012, Asphalt JV borrowed \$170.7 million from us under the NuStar JV Facility.

In addition, during the term of the NuStar JV Facility, NuStar Energy will provide credit support, such as guarantees, letters of credit and cash collateral, as applicable, of up to \$150.0 million. As of September 30, 2012, NuStar Energy has provided guarantees for commodity purchases, lease obligations and certain utilities for Asphalt JV with a maximum potential exposure of \$141.8 million. In addition, NuStar has provided three guarantees to suppliers that do not specify a maximum amount. All guarantees were in existence prior to the Asphalt Sale, and the majority of these guarantees have no expiration date. In the event NuStar Energy must fund its obligation under these guarantees, that amount will be added to borrowings under the NuStar JV Facility.

Please refer to Note 9 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of our other related party transactions.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We manage our exposure to changing interest rates principally through the use of a combination of fixed-rate debt and variable-rate debt. In addition, we utilize fixed-to-floating interest rate swap agreements to manage a portion of the exposure to changing interest rates by converting certain fixed-rate debt to variable-rate debt. We also enter into forward-starting interest rate swap agreements to lock in the rate on the interest payments related to forecasted debt issuances. Borrowings under the 2012 Revolving Credit Agreement and Gulf Opportunity Zone Revenue Bonds expose us to increases in applicable interest rates.

During the second quarter of 2012, we terminated all of our fixed-to-floating interest rate swap agreements, which had an aggregate notional amount of \$470.0 million. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

The following tables provide information about our long-term debt and interest rate derivative instruments, all of which are sensitive to changes in interest rates. For long-term debt, principal cash flows and related weighted-average interest rates by expected maturity dates are presented. For our fixed-to-floating interest rate swaps, the table presents notional amounts and weighted-average interest rates by expected (contractual) maturity dates. Weighted-average variable rates are based on implied forward interest rates in the yield curve at the reporting date.

In connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

Commodity Price Risk

Since the operations of our asphalt and fuels marketing segment expose us to commodity price risk, we enter into derivative instruments to attempt to mitigate the effects of commodity price fluctuations. The derivative instruments we use consist primarily of commodity futures and swap contracts. We have a risk management committee that oversees our trading controls and procedures and certain aspects of risk management. Our risk management committee also reviews all new risk management strategies in accordance with our risk management policy, which was approved by our board of directors.

We record commodity derivative instruments in the consolidated balance sheets as assets or liabilities at fair value. We recognize mark-to-market adjustments for derivative instruments designated and qualifying as fair value hedges (Fair Value Hedges) and the related change in the fair value of the associated hedged physical inventory or firm commitment within "Cost of product sales." For derivative instruments designated and qualifying as cash flow hedges (Cash Flow Hedges), we record the effective portion of mark-to-market adjustments as a component of "Accumulated other comprehensive income" until the underlying hedged forecasted transactions occur and are recognized in "Cost of product sales." For derivative instruments that do not qualify for hedge accounting (Economic Hedges and Other Derivatives), we record the mark-to-market adjustments in "Product sales," "Cost of product sales" or "Operating expenses."

The commodity contracts disclosed below represent only those contracts exposed to commodity price risk at the end of the period. Please refer to Note 8 of Condensed Notes to Consolidated Financial Statement in Item 1. "Financial Statements" for the volume and related fair value of all commodity contracts.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management has evaluated, with the participation of the principal executive officer and principal financial officer of NuStar GP, LLC, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15 (e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, and has concluded that our disclosure controls and procedures were effective as of September 30, 2012.

(b) Changes in internal control over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 5. Other Information

TexStar Purchase Agreement

On November 2, 2012, NuStar Logistics entered into an Asset Purchase Agreement (the Purchase Agreement) with TexStar Crude Oil Services, LP, TexStar Crude Oil Pipeline, LP, TexStar Midstream Utility, LP, TexStar Midstream Transport, LP, TexStar Midstream Services, LP and Frio LaSalle Pipeline, LP (collectively, the Sellers), to purchase the following assets:

- approximately 140 miles of crude oil pipelines and gathering lines that are currently under construction and upon completion will have throughput capacity of 100,000 barrels per day (the Crude Oil Pipelines);
- five terminals and storage facilities providing 643,400 barrels of storage capacity (the Crude Oil Terminals and Storage Facilities); and
- 38 miles of natural gas liquids (NGL) Y-grade pipeline and two fractionators with a combined capacity of 57,000 barrels per day (the NGL Assets); with the NGL Assets currently under construction.

The acquisition also includes a lease for a terminal and storage facility located near Corpus Christi providing 144,000 barrels of storage capacity (the Redfish Bay Lease). The Crude Oil Pipelines, the Crude Oil Terminals and Storage Facilities and the Redfish Bay Lease are collectively referred to herein as the "Crude Oil Assets." The Crude Oil Assets and the NGL Assets are collectively referred to herein as the "Assets."

The purchase price for the Assets is approximately \$425.0 million, subject to certain purchase price adjustments, and is expected to close in two separate transactions. The acquisition of the Crude Oil Assets is expected to close in December 2012 (the Initial Closing), subject to customary closing conditions such as approval under the Hart-Scott Rodino Antitrust Improvements Act. The acquisition of the NGL Assets is expected to close in the first quarter of 2013 (the Second Closing), subject to certain closing conditions such as completion of the Initial Closing and achieving certain milestones with respect to the development of the NGL Assets. If the Second Closing does not occur, it will have no impact on the Purchase Agreement with respect to the Crude Oil Assets. The Initial Closing and the Second Closing are collectively referred to herein as the "Transaction." Upon the Initial Closing, we will pay the Sellers approximately \$325.0 million and at the Second Closing, we will pay the Sellers approximately \$100.0 million. Both payments are subject to certain purchase price adjustments. We expect to fund the purchase price with a combination of borrowings under our 2012 Revolving Credit Agreement and potential equity or debt offerings, pending market conditions.

The parties to the Purchase Agreement have made customary representations, warranties and covenants for a transaction of this type in this industry, including, among others, Sellers' agreement to continue to operate the Assets, during the period prior to the consummation of the Transaction, in the ordinary course of business, consistent with past practice or as otherwise set forth in the Purchase Agreement. The Sellers also agreed to continue construction of the Crude Oil Assets and NGL Assets. The Purchase Agreement also contains post-closing indemnification obligations for, among other matters, breaches of representations and warranties and certain retained and assumed obligations.

The Purchase Agreement contains certain termination rights prior to consummation of the Transaction by: (i) mutual written consent of NuStar Logistics and Sellers; (ii) NuStar Logistics if casualty losses result in damages in excess of \$17.0 million; (iii) NuStar Logistics or Sellers, as applicable, if the other party has breached a representation, warranty or covenant contained in the Purchase Agreement so that such party is incapable of fulfilling its obligations under a closing condition; (iv) by NuStar Logistics or Sellers if the Initial Closing has not occurred by December 15, 2012, subject to extension as provided in the Purchase Agreement; or (v) by NuStar Logistics or Sellers if the Second Closing has not occurred by January 31, 2013, subject to extension as provided in the Purchase Agreement.

Item 6. Exhibits

Exhibit Number	Description
10.01	Purchase and Sale Agreement by and among NuStar Energy L.P., NuStar Logistics, L.P., NuStar Asphalt Refining, LLC, NuStar Marketing LLC, NuStar Asphalt LLC and Asphalt Acquisition LLC dated as of July 3, 2012 (incorporated by reference to Exhibit 10.01 of NuStar Energy L.P.'s Current Report on Form 8-K filed July 6, 2012)
